Areas of Work: Designs, imports and markets two-way citizens-band radios, cordless and wired telephones, telephone answering systems, radar detectors and "Marantz" audio and audio/video electronic products.

Divisions and Subsidiaries:

Cobra Electronics Group

Cobra Telecommunications
Manufactures corded and cordless telephones and answering machines.

Cobra Personal Communications Products
Manufactures CB radios and radar detectors.

Marantz Company, Inc.
20525 Nordoff Street
Chatsworth, California 91311
(818) 998-9333
Designs, distributes and markets audio and audio/video products including receivers, tuners, amplifiers, turn tables, loudspeakers, cassette decks, compact disc players, television monitors, and video cassette recorders.

EECO Incorporated

P.O. Box 659
1601 East Chestnut Avenue
Santa Ana, California 92702
(714) 835-6000

Officers: Robert C. Milo, president & chief exec. officer; Robert B. Bonney, chairman of the board; Seymour A. Schlosser, v.p., chief financial officer & secretary; Robert W. Allen, v.p.-administration; Carl Jeremias, v.p. & president-EECO Computer, Inc.; Edward F. Sidor, v.p.-marketing; Vincent G. Smedes, v.p.-operations; George W. Bates, v.p.-engineering; John C. Roderick, v.p.-business planning & development.

Directors: Robert B. Bonney, chairman; John F. Bishop, Robert C. Milo, Ruel C. Mercure, Jr., J. J. Shelton, William J. Bowers, John R. Stahr.

Areas of Work: Develops and manufactures passenger entertainment controls for airlines; thumbwheel and membrane switches; electronic packaging hardware, programming "software" and panel wiring services, modular socket assemblies and companion card files; punched tape readers; electronic video/audio editing equipment; editing equipment; telecommunications equipment; hotel computer systems.

Divisions and Subsidiaries

The Maxi-Switch Company
5436 West Latham Street
Phoenix, Arizona 85043
(602) 272-5645
Manufactures keyboards for use with computers, communications equipment and electronic cash registers.

Maxi-Switch Keyboard
5436 West Latham Street
Phoenix, Arizona 85043
(602) 272-5645
Manufacture of membrane switch panels.

EECO Computer, Inc.
1441 East Chestnut Avenue
Santa Ana, California 92702
(714) 835-6000
Designs, markets and services computer systems for hotels, resorts and convention centers.

EECO Ltd.
Trafalgar Way Bar Hill
Cambridge CB3 8SQ England
Assembly of Maxi-Switch keyboards for sale in the European market.

EECO Foreign Sales Company, Inc.
Sells company products to foreign customers.

EmELCO S.A. de C.V. (49%-owned)
P.O. Box 6039
Nogales, Arizona 85628
(602) 281-9697
Assembles products for EECO Incorporated and other companies in a Magdalena, Sonora, Mexico, facility.

Components Products Division
Video Products Division

Convergence Corporation
Irvine, California
Provides computerized editing and control systems to the television and professional video communications industry.

Peters, vice president; Luciano S. Rossi, vice president; Louis J. Williams, vice president; Leo M. Kelly, v.p.-general counsel & clerk; Peter A. Broadbent, treasurer; Richard P. Delio, controller; Peter F. Chapski, dir.-investor relations.

Directors: Bernard J. O'Keefe, Dean W. Freed, Kent F. Hansen, Roderick M. MacKougall, Joseph F. Turley, Robert F. Goldhammer, John B. Gray, G. Robert Tod, John M. Kucharski, William P. Pounds, John L. Thompson.

Areas of Work: The Company manufactures and markets electronic instruments and electronic and mechanical components. It is involved in biomedical, automotive, and energy-related research, services, and equipment. For the government, EG&G participates in a range of special projects for the military, and in long-term engineerings and site-management programs. These programs support the national defense and security, the nation's manned space program, and nuclear and alternative-energy research and development.

Divisions and Subsidiaries:

INSTRUMENTS

EG&G ORTEC
100 Midland Road
P.O. Box C
Oak Ridge, Tennessee 37831-0895
(615) 482-4411
Radiation detectors and associated electronics for nuclear research, radiation-monitoring, materials analysis, and industrial quality control.

EG&G Princeton Applied Research Corporation
7 Roszel Road
P.O. 2565
Princeton, New Jersey 08543-2565
(609) 452-2111
Electronic signal detectors and analyzers for plasma research, fiberoptic measurements, laser diagnostics and quality control in the manufacture of semiconductors and magnetic recording media. Electrochemical instruments for analysis of wastewater, foods and medicine, and corrosion rates. Sensors for liquid chromatography analysis, and communication interfaces for recording research data.

EG&G Geometrics, Inc.
395 Java Drive
P.O. Box 497
Sunnyvale, California 94086
(408) 734-4616
Geophysical survey instrumentation. Specifically, airborne and marine magnetometers, gammaray spectrometers, seismographs and related recording equipment. Airborne surveys for mineral and energy-resource exploration.

EG&G Marine and Atmospheric Products
217 Middlesex Turnpike
Burlington, Massachusetts 01803
(617) 270-9100
Side-scan sonar systems and related instruments for the military and for academic institutions involved in oceanography and geophysics.

EG&G Chandler Engineering Company
7707 East 38th Street
Tulsa, Oklahoma 74145
(918) 627-1740
High-pressure, high-temperature testers for oil well cement and drilling fluids used in energy production. Precision pressure calibration instruments, consistometers, dead weight testers, viscometers and hygrometers.

EG&G Ocean Products
1140 Route 28A
Cataumet, Massachusetts 02534
(617) 563-9317
Oceanography instruments. Specifically, acoustic releases, conductivity-temperature-depth systems, current meters, conductivity-temperature-depth systems, current meters, transponder navigation systems, and laboratory standard equipment for the military, academic institutions, and marine industry.

EG&G Gamma Scientific
3777 Ruffin Road
San Diego, California 92123
(619) 279-8034
Instruments and systems for measuring optical radiation and computer-controlled systems for spectral and spatial analysis of electronic and cathode ray tube (CRT) display. Radiometers, spectroradiometers, photometers, microdensitometers, optical spectrum analyzers.

EG&G Mount Sopris Instruments
675 Industrial Blvd.
P.O. Box 449
Delta, Colorado 81416
(303) 874-5711
Logging instruments for natural resource exploration.

EG&G Biomolecular
4 Tech Circle
Natick, Massachusetts 01760
(617) 650-1180
DNA sequencer instrument that automates biochemical analysis, or sequencing, or deoxyribonucleic acid of living organisms.

COMPONENTS

EG&G Rotron Group
7 Hasbrouck Lane
Woodstock, New York 12498
(914) 679-2401
Fans and blowers for cooling electronic equipment and for industrial applications. Motors and related drive systems for computer peripherals and industrial machinery.

EG&G Torque Systems
36 Arlington Street
Watertown, Massachusetts 02172
(617) 924-6000
Servo motors, tachometers, power amplifiers, and motor controls.

EG&G Fluid Components Technology Group
15 Pioneer Avenue
Warwick, Rhode Island 02888
(401) 781-4700
Seals and bellows devices from EG&G Sealol used in systems involving engines, motors, gearboxes, pumps, and compressors. Applications in aerospace, marine, military, petrochemical, chemical processing, and other industrial markets. Tensioner systems for manway covers in nuclear plants. Solenoid and mechanical valves from EG&G Wright Components for aerospace and defense applications. Precision metal gaskets for jet engines and flexible ducting for the aircraft industry from EG&G Pressure Science. Formed metal components and assemblies for the aircraft industry from EG&G Aerofab. Precision titanium components for the aerospace industry from EG&G Missouri Metals Shaping Co.

EG&G Electron Devices Group

EG&G Electro-Optics Division
35 Congress Street
Salem, Massachusetts 01970
(617) 745-3200
Flashtubes and power supplies for phototypesetters, office copies, laser scribers, and microfilm equipment and for use in stroboscopy, material curing, beaconry and laser-fusion research. Silicon photodiodes and instruments for detecting and measuring light. Instruments and systems to measure optical radiation. Precision timers. Automate light-sensing switches.

EG&G Frequency Products Division
35 Congress Street
Salem, Massachusetts 01970
(617) 745-3200
Precision frequency-control devices for military and some commercial applications. Specifically, rubidium atomic frequency standards, crystals and crystal-based oscillators, precision filers, discriminators, and equalizers.

EG&G Reticon
345 Rotero Avenue
Sunnyvale, California 94046
(408) 738-4266
Signal processing devices for communications, computer, musical instrument, and speech-recognition applications. Modem filters for data communications. Photodiode arrays for optical character recognition and facsimile transmission and image sensors for industrial quality, and process control. Camera sensor systems for industrial automation, robotics, and noncontact measurement inspection, and control.

EG&G Vactec
10900 Page Boulevard
St. Louis, Missouri 63132
(314) 423-4900
Custom, commercial optoelectronic components for street light controls, television brightness controls and slide projectors. Photodiodes used in smoke dectors, cameras and medical and chemical instruments. Sensing devices used in photocopiers, computer peripherals, and industrial controls.

EG&G Alutech, Inc.
132 Sykes Road
Fall River, Massachusetts 02720
(617) 672-2212
Extruded aluminum products, heat sinks for dissipation of heat from electronic components and systems.

EG&G Almond Instruments
1330 East Cypress Street
Covina, California 91724
(818) 967-9521
Power supply and switch mode power units from military and industrial use.

EG&G Frank Hill Associates
100 West 35th Street
Suite 6
National City, California 92050
(619) 425-9841
Heat exchangers and air movers for cooling electronics equipment, primarily for military applications.

CEA Berkleonics
1 Aerovista Park
San Luis Obispo, California 93401
(805) 544-5454
Switching power supplies used with commercial mainframe computers, computer peripherals, microprocessor systems and AC-to-DC constant power sources, and voltage regulators.

EG&G Cirtech
15237 Cherry Street
Shawnee Mission, Kansas 66223
(913) 681-2801
Frequency-control components, including precision filters, discriminators, and equalizers.

EG&G Photon Devices
Salem, Massachusetts
Silicon photodiodes to detect and measure light and other optical radiation.

EG&G Birtcher Industrial Products
4505 North Arden Drive
El Monte, California 91734
(818) 442-2572
Printed circuit board card guides, accessories, and racks and enclosures.

EG&G Wakefield Components
34 & 60 Audubon Road
Wakefield, Massachusetts 01880
(617) 245-5900
Heat exchangers and other heat-transfer units.

CINOX Corporation
4914 Gray Road
Cincinnati, Ohio 45232
(513) 542-5555
Quartz crystals and high-performance crystal-based oscillators for a wide range of government and commercial satellite and telecommunications applications.

EG&G Judson
221 Commerce Drive
Montgomeryville, Pennsylvania 18936
(215) 368-6900
Infrared and fiber-optic components- detectors, sensors, linear arrays, dewar packages, and preamplifiers. Application of infrared materials including germanium, indium antimonide, indium arsenide, and mercury cadmium telluride.

ENVIRONMENTAL AND BIOMEDICAL TESTING SERVICES

EG&G Automobile Research, Inc.
5404 Bandera Road
San Antonio, Texas 78238-1993
(512) 684-2310
Service to the automotive and petroleum industries and to the federal government by means of mobile and stationary testing of passenger cars, trucks, motorcycles, fuels, lubricatns, automotive components, and vehicle emmisions.

EG&G Mason Research Institute, Inc.
57 Union Street
Worcester, Massachusetts 01608
(617) 791-9831
Biomedical research support services. Commercial toxicology and studies in reproductive physiology, anti-cancer agents, and drug abuse. In vivo testing to evalute the effectiveness of products developed for cancer treatment.

EG&G Structural/Kinematics
950 Maplelawn
Troy, Michigan 48084
(313) 643-4622
Computer-aided structural testing of automotive components (fatigue and environmental), design and manufactures mechanical test systems and supporting software.

CUSTOM SERVICES AND SYSTEMS

EG&G Florida, Inc.
412 High Point Drive
Cocoa, Florida 32926
(305) 639-3522
Management of technical operations, administrative services, utilities, facilities, and health and security services at NASA's Kennedy Space Center.

EG&G Washington Analytical Services Center, Inc.
1396 Piccard Drive
Rockville, Maryland 20850
(301) 840-3000
Planning, engineering, management support to U.S. defense, energy, and space programs. Scientific instrumentation and field support on military programs being conducted by the U.S. and by foreign governments. Fire control and guidance systems, software development, shipboard systems development and testing.

EG&G Security Systems
2440 Alamo, S.E.
Albuquerque, New Mexico
(505) 243-2889
Design, engineering and installation of high-technology electronic security systems for government and industrial sites. Management services for risk assessment, avoidance/mitigation analysis, crisis procedures, and training.

EG&G, Inc.
Electronic Components Division
35 Congress Street
Salem, Massachusetts 01970
(617) 745-3200
High-reliability electronic components (thyratrons, sprytrons, krytrons, spark gaps, and over-voltage gaps) and associated assemblies for defense and energy programs.

EG&G Special Products, Inc.
821 Grier Drive
Las Vegas, Nevada 89119
Technical and field support to Department of Defense agencies.

DEPARTMENT OF ENERGY SUPPORT

EG&G Idaho, Inc.
1955 Fremont Street
Idaho Falls, Idaho 83415
(208) 526-0111
Support to nuclear and non-nuclear programs at the Idaho national Engineering Laboratory. Management and operation of facilities for research and development in reactor safety, materials irradiation, fusion safety, and nuclear-waste management.

EG&G Energy Measurements, Inc.
316 East Atlas Circle
Las Vegas, Nevada 89125
(702) 295-5511
Technical and scientific support in nuclear weapons effects testing and in non-nuclear energy programs. Airborne radiation surveillance an dremote sensing.

Reynolds Electrical & Engineering Co., Inc.
2501 Wyandotte Street
P.O. Box 14400
Las Vegas, Nevada 89114
(702) 295-3379
Management and support functions and DOE's Nevada Test Site, and road construction and maintenance, nuclear-waste management, large-diameter and conventional drilling, mining and tunneling, radiation monitoring, medical and health care, communications, occupational safety, fire protection, and dosimetry and fall-out research.

Investments

EG&G Ventures, Inc.
700 East El Camino Real
Suity 270
Mountain View, California 94040
(415) 967-2822
A private business development organization emphasizing venture capital type investments in seeking above-average capital appreciation throughmarketable and non; marketable securities, common and preferred stocks in small technology companies, venture capital limited partnerships, and other business entities.

* Member of the Executive Committee

Areas of Work: Engaged in the discovery, development, manufacture and sale of products in two principal industries: human health and agriculture. The human health segment includes pharmaceuticals, electronic medical instrument systems, implantable cardiac pacemakers, empty gelatin capsules, packaging products, and bulk chemicals. Pharmaceuticals include analgesics, an antiarthritic agent, antibiotics, antidiabetic agents, hematinics, hormones, oncolytic agents, sedatives, vitamins, and other pharmaceuticals for human use. Electronic medical instrument systems include products for measuring patient temperatures and for administering and monitoring intravenous fluid infusions. The agriculture segment includes agricultural chemicals and animal health products. Agricultural chemicals are principally herbicides for controlling weeds in various crops. Animal health products include a nonhormonal cattle feed additive that improves feed efficiency; various antibiotics for promoting feed efficiency and growth in swine, and anti-coccidial agent for use in broilers and layer replacements, and other products for livestock, poultry, and pet animals.

Electronics Operations:

IVAC Corporation
Campus Point, California
(714) 453-4320
Worldwide manufacturing and marketing of electronic medical instrument systems, including intravenous infusion devices and electronic thermometers.

Cardiac Pacemakers, Inc.
St. Paul, Minnesota
Engaged in the business of designing, developing, manufacturing, and marketing implantable cardiac, external and implantable defibrillators, and cardiac monitors.

Physio-Control Corporation
11811 Willows Road
Redmond, Washington 98052
(206) 883-1181
Manufactures and distributes electronic products used in cardiovascular medicine, including defibrillators/monitors, peritoneal dialysis equipment, blood pressure monitoring devices, ultrasonic Doppler probes, in-vivo oximeters, and vascular implant products.

Advanced Cardiovascular Systems, Inc.
Designs, manufactures and markets coronary angioplasty catheter systems.

Hazeltine Corporation
Commack, New York 11725
(516) 462-5100
Designs, develops and manufactures government products consisting of air traffic control equipment; electronic displays for defense and other government purposes, including displays for use in early warning, command and control systems, tactical displays and digital video display systems; antisubmarine warfare equipment, aircraft identification (IFF) systems, modems for communications, microwave landing systems and computer-based training systems.

Branson, Inc.
Produces ultrasonic products for cleaning, metal testing and plastic welding.

Beckman Industrial, Inc.
Manufacturer of electronic components, test equipment and process control instrumentation.

Hurst, Inc.
Manufactures high performance stepper and permanent magnetic motors.

Micro Motion, Inc.
Produces mass flow measurement systems.

Computer Power Systems, Inc.
Manufactures power conditioning systems for computers.

Automatic Switch Company
50-60 Hanover Road
Florham Park, New Jersey 07932
Designs and manufactures industrial solenoid valves and products for the control of fluids and flow of electric power.

Kiowa Corporation
Manufactures electronic motion control products.

Copeland Corporation
Manufactures compressors.

Areas of Work: The Company's Electrical/Electronic Group manufacturers film and tantalum electrolytic capacitors, motor run capacitors and audible signal devices. Also produces electro-mechanical timing devices, synchronous motors, electronic assemblies and components; carbon and wire wound controls, and switches; solid state control systems; hydrocarbon detection systems; smoke, gas and burglary detection devices; industrial and commercial fire protection and monitoring systems; equipment for sequencing and inserting or mounting electronic components for printed circuit boards and ceramic substrates; vapor phase soldering systems. Other areas of work include hardware store equipment, shoe machinery and shoe materials, chemicals and fasteners, glass container making machinery, rubber and plastics machinery, metalworking machinery and gear manufacturing machinery.

Subsidiaries:

Esser Sicherheitstechnik, GmbH
Produces fire detection and alarm systems.

Dage Precima International, Limited
Manufactures chip placement machinery and equipment for semiconductor assembly.

Bermarflex S. p. A.
Manufactures insoles for footwear.

Maquinas Imacal Mohrbach, Ltda.
Shoe machinery manufacturer.

MITE Corporation
Manufacturer of highly engineered fasteners; also manufactures time stamps and recorders, precision spindles, document perforators and hydraulic control devices.

Planning Research Corporation
McLean, Virginia
Provides technology-based professional services for information management and delivery systems, including the design, engineering, development, integration and life cycle support of computer-based systems.

Acquisition:

Advanced Technology, Inc.
Reston, Virginia
A computer-oriented professional services company.

Directors: Hans Werthen, chairman; Jan Wallander, Peter Wallenberg, Kjell Brandstrom, Lennart Dahlstrom, Paul Kvamme, Thor Nordmyr, Sven Olving, Sten Rudholm, Sven Agrup, Bjorn Svedberg.

Areas of Work: In the area of Public Telecommunications, the Company develops, produces and installs telecommunications equipment for telecom administrations. Equipment includes telephone exchanges, transmission, telex and data processing equipment. In the area of Information Systems, the Company manufactures products and systems for the transmission of voice and data in private networks. These include communications systems, including large subscriber exchanges, Eripax data networks, modems, small subscriber exchanges, intercom systems and telephone instruments; Data systems, including data terminals, personal computers, small business systems/minicomputers, and bank terminals systems; and office equipment, including printers, typewriters, calculators and office furniture. In the area of Cables, the Company produces power cable, telecommunications cable, and specialty cables. Defense Systems includes five products areas: avionics and missile electronics; defense communications; local and mobile defense systems; control and computer systems; and microwave communications, including radio links and satellite operations. Radio Communications includes mobile telephone and radio systems and personal paging systems. Network Engineering and Construction includes network construction, including planning and construction of telecommunications networks, data networks and telesignaling installations; and signal systems, including signaling and safety systems for rail traffic as well as street and highway signaling systems. Components operations include the development, manufacture and marketing of components and power supplies for the electronics industry. Product areas include microcircuits, power systems, and capacitors and standard components.

Divisions and Subsidiaries.

Equipment Sales Company, Inc.
150 Westford Road
Tyngsboro, Massachusetts 01879
Produces automated equipment for bareboard testing as well as shorts and opens testing of assembled printed circuit boards.

Hollis Automation, Inc.
15 Charron Avenue
Nashua, New Hampshire 03063
Automated systems for wave soldering and cleaning of printed circuit boards assemblies and related equipment.

W. A. Whitney Corporation
650 Race Street
Rockford, Illinois 61105
(815) 964-6771

W. A. Whitney Italia, S.p.A.
Strada Del Francese 130/9
Turin 10156 Italy
Manufactures automated equipment for sheet metal, plate, and structural steel fabrication.

Excellon Industries, Inc.
24225 Garnier Street
Torrance, California 90509
(213) 352-8000

Excellon Automation
24225 Garnier Street
Torrance, California 90509
(213) 325-8000
Manufactures automated printed circuit board drilling and routing machinery and optical programming systems of such machinery.

Excellon Photonics
3000 Redhill Avenue
Costa Mesa, California 92626
Produces printed board imaging systems.

Excellon International
Dominion Way
Rustington, Littlehampton, West Sussex BN 163 HQ
England
Manufactures automated printed board production machinery, manual printed circuit board drilling and routing machinery.

Excellon Europa GmbH
Justus-von-Liebig-Str. 19
D-6057 Dietzenbach/BRD, West Germany

Talon, Inc.
15209 South Broadway
Gardena, California 90248
(213) 532-1040
Produces tungsten carbide printed circuit board drills and metal cutting tools.

Federal Products Corporation
1144 Eddy Street
Providence, Rhode Island 02901
(401) 781-9300
Produces analog and digital dimensional measurement and inspection instruments for industrial quality control applications.

Federal Gauges, Ltd. (50% owned by Federal Products Corp.)
Brick Knoll Park, Ashley Road
St. Albans
Herts AL1 5PL England

Esterline-Angus Instrument Corporation
1201 Main Street
Indianapolis, Indiana 46224
(317) 244-7611
Manufactures analog and digital recording instruments, analytical process monitoring and control instrumentation.

Scientific Columbus, Inc.
1900 Arlingate Lane
Columbus, Ohio 43228
(614) 294-5671
Products include: Analog and digital electronic meters, transducers, and instruments for monitoring, billing, and controlling electric power.

Auxitrol S.A.
1, Rue d'Anjou, BP241
Asnieres 92603 France

Auxitrol Iberico S.A.
C/Caucho s/n, Poligono-Industrial
Apatado num. 30
Torrejon de Ardoz (Madrid), Spain
Liquid level and pneumatic measuring and control devices; aviation and industrial thermo-couples; industrial alarms; electrical penetration devices for nuclear power plants.

Directors: David R. Tacke, chairman; E. F. Buehring, John W. Dixon, Martin R. Hoffmann, LaVan Griffin, S. Lee King, Francine I. Neff, W. F. Raborn, A. Lowell Lawson, E. Gene Keiffer.

Areas of Work: Engaged in the development and production of command and control systems and equipment primarily for defense applications on a worldwide basis. Complete systems include clear and secure communication systems, large-scale data processing systems, software, data-link terminals, displays, and related antennas. Produces and develops electronic warfare systems and electromagnetic support equipment; intelligence processing, which includes signal processing systems, computer systems, and modeling, and systems studies; intelligence collection, which includes signal collection systems and systems studies; tactical/security electronics which includes jamming and deception systems, electronic countermeasure systems, radar homing and warning systems, fuzing and timing devices, intrusion detection devices, and special-purpose devices. Engaged in the production of tactical radios and military communications systems and equipment, and guidance and navigation systems; also produces information handling and data-display systems, and flight control systems. Also engaged in aircraft overhaul, maintenance and modification.

Directors: J. Patrick Lannan, Jr., James A. Lovell, Jr., Thomas N. McGowen, Jr., Joseph J. Ross, Walter R. Peirson.

Areas of Work: Company operations are divided into four major groups: Signal, Sign, Tool, and Vehicle. Principal products include sirens, emergency lights, fire alarm systems, security and parking control systems, signs, fire trucks, street sweepers, special vehicle chassis, precision punches and cutting tools.

Divisions and Subsidiaries:

Signal Group

Signal Products
2645 Federal Signal Drive
University Park, Illinois 60466
(312) 534-3400
Warning, signaling and communications products for municipalities and industry.

Autocall
41 East Tucker Avenue
Shelby, Ohio 44875
(419) 347-2400
Fire alarm and evacuation systems.

Federal APD Inc.
24700 Crestview Court
Farmington Hills, Michigan 48018
(313) 477-2700
Parking and access control systems.

CMI, Inc.
P.O. Box 40
Minturn, Colorado 81645
(303) 949-4440
Speed detection radar and blood alcohol analyzers.

Federal Construction Products
2645 Federal Signal Drive
University Park, Illinois 60466
(313) 534-3400
Directional arrow boards, construction light towers and blowers.

Sign Group

Burr Ridge, Illinois
Houston, Texas
Ft. Worth, Texas
Arlington, Texas
Oceanside, California
Knoxville, Tennessee
Daytona Beach, Florida

Custom identification, sign displays and electronic message centers.

Tool Group

Dayton Progress Corporation
500 Progress Road
Dayton, Ohio 45449
(513) 859-5111
Precision punches and die components.

Manchester Tool Company
5142 Manchester Road
Akron, Ohio 44319
(216) 644-8853
Deep grooving tools.

Bassett Rotary Tool Company
710 West Fisher Street
Monticello, Indiana 47960
(219) 583-7166
Carbide cutting tools.

Jamestown Perforators Inc.
1914 Washington Street
Jamestown, New York 14701
(716) 664-7575
Metal punches, dies, and small tooling components.

Vehicle Group

Emergency One, Inc.
1701 S.W. 37th Avenue
Ocala, Florida 32678
(904) 237-1122
Aluminum-bodied fire trucks and rescue vehicles.

Federal Motors, Inc.
3611 S.W. 20th Street
Ocala, Florida 32674
(904) 237-6215
Custom chassis and special vehicles.

Elgin Sweeper Company
1300 West Bartlett Road
Elgin, Illinois 60121
(312) 741-5370
Street sanitation equipment including sweepers and vacuums.

Officers: Arthur C. Kammerman, chairman; Harry J. Fallon, president; Steven J. Jordan, v.p.-sales & marketing; Jane A. Christy, v.p.-operations; Marie Santasiri, secretary; William Hall, treasurer.

Directors: Arthur C. Kammerman, chairman; Edmund L. Hoener, Harry J. Fallon, John Rudder.

Areas of Work: Engaged in the marketing of electronic parts, components and equipment to industrial and retail customers. To its industrial customers the company sells a broad range of products including semi-conductors, wire, transformers, relay systems, capacitors and electronic tubes. The principal products marketed by the company to retail customers are home entertainment equipment including stereo systems, tape recorders, speakers, radios and related accessories. The company markets its retail products through two stores located in Kenilworth, New Jersey, and Allentown, Pennsylvania. Industrial products are marketed directly by Federated's sales personnel from both locations and in the field.

Fifth Dimension Inc.

801 New York Avenue
Trenton, New Jersey 08638
(609) 393-8350

Officers: Sheldon Bitko, president; Alfred R. Senni, exec. v.p. & chief exec. officer; Elaine H. Cain, secretary & treasurer.

Directors: Frederick J. Grunwald, Charles Wohlstetter, Charles Davidoff, Frederick C. Scherer, Lee R. Marks.

Areas of Work: The Company's business falls into three broad groups: manufacture of telemetry equipment, industrial components and glass metal seals. The principal products of the telemetry group include electronic and electromechanical signal commutators, sometimes coupled with analog to digital converters. The primary markets for this type of equipment are the defense and the aerospace industries; secondary markets are the Atomic Energy Commission and other private industries. The principal products of the components group include a family of mercury film switches and relays (sold under the name LOGICALL, or more specifically LC1, LC2 and LC3), sold mostly to industrial users. Other components include tilt switches for military and industrial applications and slip rings used by the military and aerospace manufacturers. Glass-metal seals are hermetic seals which allow electric signals into a chamber without allowing in the outside atmosphere or any contamination. These seals are used in light bulbs, transistors, tubes, relays and a myriad of other components.

Areas of Work: Comprised of 40 principal divisions and subsidiaries, Figgie's business can be grouped into five areas: consumer products; fire protection/safety/security; services; technical products; and machinery & allied products.

Divisions and Subsidiaries:

Technical Group

Hartman Electrical Manufacturing
175 North Diamond Street
Mansfield, Ohio 44902
(419) 524-1411
Electrical power switching and solid state controls. Contactors, relays and protective devices.

Hartman Systems
360 Wolf Hill Road
Huntington Station, L.I., New York 11746
(516) 427-7500
Develops and produces militarized cathode ray tube displays for airborne, shipboard, submarine and ground-based applications; weapons control systems for a wide range of military aircraft; and telemetry products for data reception.

Interstate Electronics Corporation
1001 East Ball Road
Anaheim, California 92803
(714) 758-0500
Voice data entry computer terminals; Plasma display terminals; Military command and control display systems; Signal processing systems; Off-shore oil platform data systems; Environmental surveys and services; Instrumentation and missile tracking systems.

Interstate Voice Products
1849 Sequoia Avenue
Orange, California 92668
(714) 937-9010
Speech recognition and speech response products, including chips, boards and complete turnkey systems for commercial, consumer and military markets.

Consumer Group

Figgie Licensing Corporation
Richmond, Virginia 23295
(804) 264-5660
Worldwide trademark licensing of consumer products, principally Fred Perry and Rawlings Sportswear, activewear and hard goods.

Rawlings Sporting Goods
2300 Delmar Boulevard
St. Louis, Missouri 63026
(314) 349-3500
Full line of sports equipment for baseball, football, basketball, soccer, boxing, badminton, golf, hockey, tennis and wrestling. Uniforms, jackets and shoes.

Fred Perry Sportswear (U.K.) Ltd.
Bridport Road
London N18 1SN England
Designer, manufacturer and worldwide marketer of high fashion tennis clothing and sports apparel.

Interstate Engineering
522 East Vermont Avenue
Anaheim, California 92805
(714) 778-5703
Residential smoke detectors and fire alarms. Compact home vacuum cleaners. Wireless IEC Security System. Aluminium and zinc die castings.

Thermometer Corporation of America
567 East Pleasant Street
Springfield, Ohio 45505
(513) 325-0456
Thermometers, hydrometers, humidity and weather instruments. Tru-Temp and Taylor thermometers and cooking instruments.

Sherwood-Drolet Corp. Ltd.
2745 Sherwood Blvd.
Sherbrooke, Quebec J1K 1E1 Canada
(819) 563-2202
Designs, manufactures and distributes Sher-Wood and Chimo hockey sticks, and Chimo clothing.

Figgie Consumer Products Licensing Division
Richmond, Virginia 23295
(804) 264-5735

Fire Protection and Safety

Advance Security
3330 Peachtree Road
Atlanta, Georgia 30305
(404) 231-1210
Security consultation. Uniformed security guards. Fire, safety, security systems and equipment. Industrial and business investigative service. Large area protection.

"Automatic" Sprinkler Corp. of America
P.O. Box 180
Cleveland, Ohio 44147
(216) 526-9900
Sprinkler systems; control valves; sprinkler heads; spray nozzles; 'Rate-of-Rise' and electric detection systems; electronic control panels; alarms; hydraulically calculated and special hazards fire protection systems. Fabrication, inspection and maintenance services; Range Guard fire extinguishing systems.

Badger-Powhatan
P.O. 7146
Charlottesville, Virginia 22906
(804) 973-4361
Portable water, carbon dioxide, and dry chemical fire extinguishers. Halon systems. Range hoods. "Blaze Guard" fire hose and couplings. Brass products for fire protection, industrial and municipal applications.

Scott Aviation
225 Erie Street
Lancaster, New York 14086
(716) 683-5100
Oxygen and air breathing systems, light aircraft accessories. Gas masks and respiratory devices. Gas analyzers and alarms. Air pollution detection and control equipment. Safety and first aid equipment.

Snorkel-Economy
P.O. Box 65-Stockyards Station
St. Joseph, Missouri 64504
(913) 989-4481
Aerial type water delivery systems for fire fighting apparatus, articulated and telescopic booms, extendable ladders and aerial platforms.

Machinery & Allied Products

Consolidated Packaging Machinery
11980 Waldon Avenue
Alden, New York 14004
(716) 937-3361
High-speed automatic capping equipment for bottles, cans and other containers; crimpers; cotton stuffers; scales; bagclosers; gravity paper bag fillers and closers.

Geo. J. Meyer Manufacturing
Charleston, South Carolina 29445
(803) 572-6640
Packaging and bottling equipment. Labeling machinery. Case palletizers. Bottle rinsing and inspection equipment.

Scott Huber Essick
P.O. Box 10263
Charleston, South Carolina 29445
(803) 797-5300
Road-building and construction equipment, Huber motor grader, rollers and maintainers, Scott hydraulic cranes. Smith truck-mounted turbine and tilter concrete mixers.

Kersey/American LaFrance
600 Mountain Lane
Bluefield, Virginia 24605
(703) 326-1121
Battery-powered tractors, scoops, supply cars, coal cars, hydraulic self-unloading cars; battery chargers; batteries and motors for underground coal mining.

Logan Co.
P.O. Box 6107
Louisville, Kentucky 40206
(502) 587-1361
Conveyor equipment and material handling systems. Wire partitions and window guards, folding gates. Spiral stairs and ornamental ironwork. Automated package and parcel sorting systems.

Safway Steel Products
6228 West State Street
Milwaukee, Wisconsin 53213
(414) 258-2700
Steel scaffolding and shoring systems. Portable bleachers. Powered mobile platforms and swing stages.

Figgie Hydraulic Products
1777 Morgantown Avenue
Fairmont, West Virginia 26554
(304) 366-4730
Hydraulic pumps, motors and parts; blowers; hydraulic valves, snow plow rams and precision machine products; custom gears for mining, constructions and hydraulic equipment.

Akron Packaging Machinery
Akron, Ohio 44313
(216) 923-0491
Case packers; uncasers; container dividers; combiners.

Stallman Gear
527 W. Rich Street
Columbus, Ohio 43215
(614) 224-3294
Manufacturer of gear, splined shafts and sprockets supplying the mining machinery, construction equipment, hydraulic gear pump and other machinery markets.

Kline Foundries
P.O. Box 444
Alburtis, Pennsylvania-18011
(215) 966-3966
Gray, ductile and malleable iron castings for transportation, heating, refrigeration, power transmission and construction.

Western Reserve Container
P.O. Box 193
Painesville, Ohio 44077
(216) 946-8464
Corrugated shipping containers; die cut corrugated inserts for product protection; point-of-sale corrugated floor and counter-top displays; protective inserts.

Other Services

Frequency Electronics, Inc.

55 Charles Lindbergh Boulevard
Mitchel Field, New York 11553
(516) 794-4500

Officers: Martin B. Bloch, chairman & president; John C. Ho, v.p.-research & development; Marvin Meirs, v.p.-engineering; Alfred Vulcan, v.p.-systems engineering; Harry Newman, treasurer & secretary; Markus Hechler, v.p.-manufacturing & asst. secretary; Charles S. Stone, v.p.-low noise development.

Directors: Martin B. Bloch, chairman; John C. Ho, Abraham Lazar, E. John Rosenwald, Jr., Josl Gitsky.

Areas of Work: Operates principally in two industries-frequency and time control products, and microwave integrated circuit components. Operations in the frequency and time control area consist of the research, design and manufacture of systems, instruments and equipment that operate on frequency control. These systems are used in guidance, navigation communications, surveillance and electronic countermeasure and timing systems. Operations in the microwave integrated circuit component industry consist of the design and manufacture of metallized substrates, having application with radar, communications and navigation equipment. Products include quartz crystals, quartz crystal oscillators and discriminators, and cesium beam resonators.

Subsidiaries:

Tek-wave, Inc.
Manufacturer of devices, components and sub-systems for Microwave Integrated Circuit (MIC) applications. Products include hermetic and non-hermetic connectors and circuit frames, metallized substrates and thin film circuit fabrication, and sub-system packages which incorporate these various components.

Brightline Corporation
Designs, develops, and manufactures low noise oscillators, synthesizers, and frequency sources.

Joint Ventures:

Time and Frequency, Ltd.
Israel
Manufactures time and frequency products in Europe and Israel.

Acquisition:

FEI Microwave, Inc.
(formerly TRW Microwave Products Inc.)
825 Stewart Drive
Sunnyvale, California 94086
(408) 732-0880
Manufactures solid state microwave components for military and commercial communications and avionics.

Chiyoda-ku
Tokyo 100 Japan
(03) 216-3211

Board of Directors: Takuma Yamamoto, president & representative director; Bun-ichi Oguchi, Matami Yasufuku, executive v.p.'s & representative directors; Shoichi Ninomiya, Fusanosuke Kuroseki, Kazuo Watanabe, Mamoru Mitsugi, Yusaku Onaga, Akira Ohguro, executive directors; Masaka Ogi, Mikio Ohtsuki, Tadashi Sekizawa, Mutsuro Umezu, Eigo Kato, managing directors; Seiuemon Inaba, Takeshi Nakao, Sadao Inoue, Hiroyuki Ino, Koichi Nozawa, Hiroshi Oura, Tokio Tatsuta, Toshio Hiraguri, Takuya Maruiwa, Michio Naruto, Ryoichi Sugioka, Yoshinao Hirose, Yoshiro Nakamura, Iwao Katsuki, Yasushi Nakamura, Takeshi Ishida, directors.

Areas of Work: In the area of Data Processing, the Company manufactures a wide range of computers, including medium-, large-, and very-large-scale general-purpose computers, super-computers, minicomputers, business personal computers and small business computers; word processors, advanced computer workstations, artificial intelligence software, and digital facsimile equipment.

In the area of Telecommunications, the Company manufactures digital switching and carrier transmission systems, optical transmission systems, submarine optical fiber cable repeaters, terminals for high-speed digital leased lines and digital microwave systems, corporate communications networks, digital PBXs, packet switching systems, digital modems, amplifiers and receivers for satellite communications, and digital key-phone systems.

Semiconductor products include application specific integrated circuits, including CMOS, ECL, TTL, and Bi-CMOS gate arrays and standard cells that allow more flexible logic design; software for the logic design of gate arrays and standard cells; and integrated circuit (IC) memories. Electronic Components include relays, connectors, keyboards, hybrid ICs, computer printers and color plotters. The Company also manufactures car audio products.

Directors: John F. Welch, Jr., chairman; Richard T. Baker, Lawrence A. Bossidy, Thornton F. Bradshaw, Charles D. Dickey, Jr., Lawrence E. Fouraker, Henry H. Henley, Jr., Henry L. Hillman, Edward E. Hood, Jr., David C. Jones, Robert E. Mercer, Gertrude G. Michelson, Barbara Scott Preiskel, Lewis T. Preston, Frank H. T. Rhodes, Andrew C. Sigler, William French Smith, Walter B. Wriston.

Area of Work: Aerospace products and services span space sciences, radar systems, electronics and microelectronics, ordnance systems, avionics, computer software, space satellites, and simulation and control systems. Most aerospace sales are to agencies of the United States government, principally the Department of Defense and NASA.

Aircraft engines and replacement parts are manufactured and sold by GE for use in military and commercial aircraft, for use in naval ships and for use as industrial power sources. GE's military engines are used in a wide variety of aircraft that includes fighters, bombers, transports and helicopters. GE also produces jet engines for executive aircraft and regional commuter airlines.

Consumer products include lighting products, which include a wide variety of lamps, incandescent, fluorescent, high-intensity, halogen and specialty as well as wiring devices and quartz products.

The industrial segment includes factory automation products, comprised of electrical and electronic products, including motors and motor-related products, consisting mainly of appliance motors and controls; electrical distribution and circuit protection equipment needed for installation in commercial, industrial and residential building; the GE Supply Company Division, which operates a nationwide network of electrical supply houses, transportation systems, which include diesel-electric and electric locomotives, transit propulsion equipment, motorized wheels for off-highway vehicles, and drilling drives.

The major appliance segment includes both GE and Hotpoint brands of kitchen and laundry equipment, such as refrigerators, ranges, microwave ovens, freezers, dishwashers, clothes washers and dryers, and room air conditioners.

The materials segment includes high-performance engineering plastics, silicones, superabrasives and laminates. This segment also includes Ladd Petroleum Corporation, an oil and natural gas developer and supplier.

The power systems segment provides products for the generation, transmission and distribution of electricity; industrial drives; and related construction, installation, engineering and repair services.

Technical products and services include medical systems and services, communications and information services, and the Calma Company. Medical systems include magnetic resonance (MR) scanners, computer tomography (CT) scanners, x-ray, nuclear imaging, ultrasound, and other diagnostic equipment and supporting services; principal communications operations involve the furnishing of domestic satellite communications services by RCA Americom and the furnishing of international communications services by RCA Globcom; mobile communications products consist mainly of mobile and hand-carried two-way and one-way radio equipment and cellular telephones; the Calma Company designs, manufactures and sells interactive graphics systems for computer-aided design and manufacturing.

GE is also involved in network television through the National Broadcasting Company, and in financial services through the General Electric Credit Corporation, Employers Reinsurance Corporation, and the 80%-owned Kidder, Peabody Group, Inc.

* Member of the Executive Committee

Directors: The Right Hon. James Prior, chairman; M. R. Bates, deputy managing director; Sir Kenneth Bond, vice chairman; Lord Catto, R. J. Davidson, S. Z. de Ferranti, R. H. Grierson, vice chairman; M. Lester, Sir William Rees-Mogg, Hon. Mrs. Sara Morrison, Lord Nelson of Stafford, J. E. Pateman, D. Powell, R. G. Reynolds, D. H. Roberts, joint deputy managing director (technical); A. J. Rogers, P. A. Weiller, Lord Weinstock, managing director; R. J. Williams.

Areas of Work: In the area of Electronic Systems and Components, the Company manufactures electronic warfare equipment, including artillery command and control systems, anti-aircraft turrets, aircraft head up displays, missile seekers, antisubmarine equipment, infra-red warning receivers, and software for Tornado systems and Upholder submarines; small mobile terminals for satellite communications; thermal imagers, high-frequency receivers, automatic cross connection equipment for digital line circuits; engineering workstations, printed circuit board test systems, photoplotters, cathode ray tubes, surge arresters, miniature magnetrons and hybrid integrated circuit packages, variable vacuum capacitors for medical equipment, UHF television klystons and thyristrons, television camera tubes, car aerial systems, and quartz crystal oscillators.

In the area of Telecommunications and Business Systems, the Company manufactures digital exchange equipment, transmission products, including optical fiber systems, microwave radio systems and associated equipment; PABX equipment, telephones, time control and security systems, computer systems and software, optical fiber cable, industrial coding products, plain-paper copiers, continuous forms printers, and electronic publishing systems. The Company also operates a private mobile radio network.

In the area of Automation and Control, the Company manufactures automatic guided vehicles, robots, mine winder drive systems, generation and propulsion systems and dynamic ship positioning systems for sea-going vessels, control towers, industrial microprocessor-based controllers, drives and controls for the automotive industry, a full range of weighing, printing, point-of-sale and computer equipment and systems for retailers, industrial platform scales, indicators and laboratory balances and computer-linked weighing systems, materials testing machines, electronic drum and container liquid filling systems for the petro-chemical industry, protective relays and telecontrol equipment for the railroad industry, electronic relays to protect power transformers, busbars and small generators; building management systems, meters, airbridges, lifting beams, card-operated electronic parking meters, automatic vehicle location systems, traction gears, marine gearboxes, steam and gas turbine generator units, relays and control panels, indigenous disturbance recorders, static distance pro-statis busbar protection equipment, and offset printing products.

Medical equipment includes computer tomography scanners, magnetic resonance imaging equipment, and mobile X-ray systems.

Power Generation equipment includes gas and steam turbine generators, remote handling equipment for active waste, digital control equipment, fishing boat and diesel engines.

In the areas of Electrical Equipment and Consumer Products, the Company manufactures transmission switchgear, including circuit breakers, current transformers, busbars and disconnectors; distribution and power transformers; submarine cables for power and telecommunications, ship wiring cables, cable accessories and a range of cross-linkable compounds for use in cable making and for other industrial applications; propulsion systems, locomotives, a variety of motors, boiler units, current-controlled industrial AC drives, and appliances.

The Company also engages in Distribution and Trading and Research and Development activities.

Areas of Work: The Company's major business segments are Broadband Communications, Data Systems and Component Products. Broadband Communications offers a variety of products and services for the cable television industry including active and passive electronics, subscriber terminals, coaxial cable used in CATV systems, encryption/decryption equipment for the scrambling and descrambling of satellite television programming, and other broadband communications products, trial broadband communications. The primary products and services of Data Systems are data processing systems and services for the wagering industry and military electronic systems. Component Products include power supplies, relays, and discrete semiconductors.

General Microwave Corporation

5500 New Horizons Boulevard
Amityville, New York 11701
(516) 226-8900

Officers: Frederick Zisau, chairman of the board; Sherman A. Rinkel, president; Bernard Grand, v.p.-engineering; Howard Cohen, v.p.-manufacturing; Moe Wind, sr. v.p., treasurer & asst. secretary; Joe P. Schindler, v.p.-marketing; Michael Stolzar, secretary & asst. treasurer; Elieser Jacobsohn, v.p. & gen. mgr.-General Microwave Israel (1967) Ltd.; Michael Lion, pres.-General Microcircuits Corporation.

Directors: Frederick Zisau, chairman; Winton Charlop, Sherman A. Rinkel, Moe Wind, Edmond D. Franco, Leo C. Cunniff, Arthur D. Friedman.

Areas of Work: The Company produces and sells microwave measuring and control component devices for use in radar systems and in point-to-point communication as used in aircraft, air traffic control, missiles and telephone and telemetry systems, as well as its own line of precision measuring and testing equipment for use in laboratories and production lines by manufacturers of microwave components and systems.

Division:

Microwave Division
Amityville, New York
Develops and manufactures PIN diode products, RF power measuring equipment, and radiation detectors.

Subsidiaries:

Micro-El Patent Corporation
Wilmington, Delaware

General Microwave Foreign Sales Corporation
Amityville, New York

General Microwave Israel Corporation
Jerusalem, Israel

General Microwave Corporation

General Microcircuits Corp. (70% owned)
Billerica, Massachusetts
Development and manufacture of high reliability hybrid circuits and thin-film resistor networks, largely for military applications.

Areas of Work: Operations are classified into three segments: automotive products, defense products, and other nonautomotive products. The automotive segment consists of the design, manufacture, assembly and sale of automobiles, trucks and related parts and accessories. The defense products segment includes military vehicles, radar and weapon control systems, guided missile systems, and defense satellites. The other nonautomotive products segment consists of the design, installation and operation of business information and telecommunication systems, as well as the design, development and manufacture of locomotives; engines for drilling, marine and stationary applications; commercial satellites; and specialized automated production and test equipment.

Electronic and Related Divisions:

AC Spark Plug
Flint, Michigan
Spark plugs; oil filters; instrument panels; fuel pumps; fuel filter; air cleaners; emission control systems; cruise control systems.

Delco Electronics
Kokomo, Indiana
Automotive electronics; entertainment systems; heater-air conditioning controls; military electronics; semiconductor devices; analog and digital systems; integrated circuits.

Delco Systems Operations
Santa Barbara, California
Military electronics; navigation and control systems and components for aircraft, defense, spacecraft, and commercial vehicles

Delco Moraine
Dayton, Ohio
Automotive brake systems; engine bearings; powdered metal products; automatic transmission components.

Harrison Radiator
Lockport, New York
Car and truck radiators, defrosters, heaters, thermostats and air-conditioners; heat exchangers.

Packard Electric
Warren, Ohio
Automotive, appliance, marine and farm equipment, wiring systems and components; fiber optics; magnetic wire.

Delco Products
Dayton, Ohio
Shock absorbers; windshield wiper systems; energy-actuators; bumper devices; automotive electric motors and actuators; fan clutches; emission control devices; industrial and hermetic motors and generators.

Delco Remy
Anderson, Indiana
Starting, generating and ignition systems switches; vacuum controls; batteries for passenger cars, trucks, buses, farm tractors and off-highway equipment.

Electronic Data Systems Corporation
Development of computer software that controls automated manufacturing systems; integration and updating of information management and telecommunication systems; military personnel identification and tracking systems.

Fisher Guide
Anderson, Indiana
Car, truck and tractor lamps; mirrors, finished die castings; molded plastic parts; lighting controls; stampings.

Rochester Products
Rochester, New York
Carburetors; steel tubing; cigarette lighters; locks, keys; emission control devices; diverter valves; fuel injectors; hydraulic and mechanical valve lifters; jet fuel nozzles; cold formed precision parts.

G.M. Hughes Electronics Corporation
Provides a broad array of advanced electronic components and systems to the automotive, military and space industries. Some of these are weapons control systems, radar systems, commercial and military communications satellites, automated manufacturing and test equipment, weapon delivery systems, large-scale integrated circuits, image sensing, storage and display devices.

* Member of the Executive Committee

Electronic Controls & Systems
Products include equipment for each major segment of semiconductor manufacture, from crystal growing furnaces, and wafer polishers, through deposition and spin-brake equipment, wafer steppers, washer and dicing systems, to testing and packaging equipment. For the telecommunications industry, products include voice, data, digital microwave radio, and fiber optic signal processing and transmission equipment, test and measurement systems, central office power sources, and land-based mobile radio systems. For the process industries, products include computer-directed central control system, distributed control systems, electronic instrumentation, and electronically

controlled feeders and scales. Products for electric utilities include management systems, coal metering equipment, boiler and scrubber controls, and remote-controlled radioactive-waste handling systems. For railroad systems, products include highly engineered systems and controls, including cab, wayside and centralized traffic control components and systems and push-button interlocking controls. For bus mass transit, products include central control systems and electronic fareboxes. For civil and defense air traffic control and nagivation, included are radar nagivation, identification and ground weather monitoring systems. Shipboard communication systems and propulsion controls are provided to the marine industry; power conditioning equipment is produced for numerous markets to safeguard vital or sensitive electronic equipment.

Electrical Controls & Equipment

Products for the construction market include such electrical controls and components for power distribution as transformer and switchgear, fire protection and building signaling systems, electric metering equipment, and automatic time recording and parking lot control systems. For the cogeneration and refining fields, self-contained unitized powerhouses are manufactured. Hazardous-location power distribution equipment is produced for the petroleum industry, and heat processing equipment is manufactured for the primary and fabricated metals and electronics industries.

Fluid Controls & Equipment

Products include specialty, telemetry, and supervisory control systems, valves and actuators, mechanical mixers, and aerators; centrifugal, turbine, high-vacuum, and wastewater pumps; instruments for measuring pressure, flow, and temperature; biological and waste-treatment systems; specialty air pollution control equipment; and corrosion control materials manufactured for the chemical, petrochemical, petroleum, food and beverage, primary and fabricated metals, pulp and paper, industrial and municipal water and waste-water processing, agriculture and construction industries. For the railroad industry, pneumatic and hydraulic braking systems and related controls are manufactured. Such control products as hydraulic gear pumps and directional control valves, piston pumps and motors, hydrostatic transmissions, advanced fluid power systems, and cold-forged components for vehicular steering and suspension are manufactured for the heavy-duty mobile construction, aerospace and defense, mining, materials-handling, agricultural, auto and truck markets.

Directors: William R. Thurston, chairman; Robert E. Anderson, Paul Penfield, Jr., Earl W. Pitt, William G. Scheerer, Wilson Wilde, James H. Wright.

Area of Work: Manufactures test equipment for the electronic equipment, mechanical equipment and semiconductor industries. The company's computer-based test systems are used by electronics manufacturers to test printed circuit boards and isolate faults down to the individual component level. Electronic component test instruments indicate whether capacitors, resistors, inductors, or integrated circuits are functioning properly. Digital signal processors analyze structures and machinery. Acoustic instrumentation products analyze and measure noise, and are widely used to test compliance with industrial and environmental noise regulations.

Geotel, Inc.

25 Davids Drive
Hauppauge, New York 11788
(516) 436-7230

Officers: Robert J. Sanator, president & chief exec. officer; Joseph E. Link, v.p., chief financial officer & secretary; William J. Waymack, assistant secretary.

Directors: Herman Fialkov, Benjamin V. Wright, Jr., Eugene F. Murphy, Richard L. Geiger, Robert J. Sanator, Bernard Schuldroik, Geoffrey W. Crowley.

Divisions:

Flight Research Division
5210 Charles City Road
Richmond, Virginia 23231
(804) 222-0163

Manufactures precision photo-instrumentation equipment and analog-to-digital converters. The photo-instrumentation products include systems for industrial and banking surveillance, aerial mapping, CRT and radar recordings, time lapse photographic instruments, photo-logging systems, as well as industrial viewers and projectors. Analog-to-digital instrumentation includes encoders that convert analog output into digital signals that can be fed directly into computers or printers. Applications include weighing scales, pipeline flow meters and aggregate batch mixing equipment.

Telemet Division
25 Davids Drive
Hauppauge, New York 11788

Designs, manufactures and sells solid-state video and audio signal processing, testing and switching instrumentation. Communication equipment manufactured by the Company includes video distribution amplifiers, multi-function test sets, test signal generators, differential phase and gain systems, sideband analyzers, modulators, precision demodulators, chroma keyers, routing switchers, video transmission cable equalizing for both short and long haul, and fiber optic transmission and receiver links.

Subsidiary:

Test Technology, Incorporated
25 Davids Drive
Hauppauge, New York 11788

Engaged in the development of automatic test systems application software and related products for the military and industry.

Gerber Scientific, Inc.

83 Gerber Road West
South Windsor, Connecticut 06074
(203) 644-1551

P.O. Box 305
Hartford, Connecticut 06141

Officers: H. Joseph Gerber, president; Stanley Leven, sr. v.p.-general counsel & secretary; David J. Logan, sr. v.p.-engineering; Robert J. Maerz, sr. v.p.-marketing & operations; George M. Gentile, sr. v.p.-finance & treasurer.

Directors: H. Joseph Gerber, Stanley Leven, Belmont Towbin, Stanley Simon, Roger B. McCormick.

Areas of Worth Specialism in the design, manufacture, sale and service of computer-aided design and computer-aided manufacturing (CAD/CAM) products in computer-controlled drafting and photoplotting, low-cost interactive design, computerized market making, material nesting, cutting and handling, sophisticated turnkey interactive graphic production systems which integrate several design and manufacturing processes, and microprocessor-controlled production systems. Gerber automation systems are used by a wide range of industries, including aerospace, apparel, automotive, electronics, metalworking, printing, graphic arts, sign-making and optical lens manufacturing.

Subsidiaries:

The Gerber Scientific Instrument Company
83 Gerber Road West
South Windsor, Connecticut 06074
(203) 644-1551
Designs and manufactures task-oriented, turnkey interactive systems which are used in high precision drafting and photoplotting. These computer-controlled systems are used to automate the production of critical engineering drawings and artwork and other documentation for printed circuit boards and film page layouts for the graphic arts industry.

Gerber Garment Technology, Inc.
24 Industrial Park Road
Tolland, Connecticut
(203) 871-8082
Designs and manufactures CAD/CAM systems for the layout and cutting of flexible materials such as fabrics, textiles, leather, vinyls, plastics, fiberglass and advanced composite materials. The computer-aided design (CAD) systems automate sizing and arranging of pattern pieces to maximize material usage. The computer-aided manufacturing systems use the data generated by the design systems to cut the materials. The computer-controlled material handling system for the apparel industry delivers sequentially fabricated apparel parts between sewing room operators.

Gerber Systems Technology, Inc.
625 Sullivan Avenue
South Windsor, Connecticut 06074
(203) 282-1478
Manufactures interactive design and data management systems used in computer-aided design and manufacturing (CAD/CAM) for a wide range of mechanical, electronic and manufacturing applications.

Hartford, Connecticut 06141

Gerber Scientific Products, Inc.
151 Batson Drive
Manchester, Connecticut 06040
(203) 643-1515
Designs and manufactures low-cost microprocessor controlled production systems principally for the sign-making, graphic arts, and optical lens manufacturing industries.

Affiliates:

Boston Digital Corporation (21.2% owned)
Hollison, Massachusetts
Manufactures numerically controlled machine tools.

Beta Engineering and Development, Ltd. (37% owned)
P.O. Box 98
Beer Sheeva, Israel
Designs, manufactures and markets CAD/CAM systems for sewing and decorative stitching. Also manufactures intrusion detection systems for industry and government use.

Areas of Work: Develops, manufactures and markets computers and electronics-based systems, product and components for key high-growth worldwide markets: information systems, industrial automation, instrument systems, defense systems, semiconductors and other electronic components.

Divisions and Subsidiaries:

Electronic Systems:
These products include information systems: 32-bit mini-computer and computer-based image processing and display systems; computer-integrated industrial automation systems; ruggedized industrial computers (including cell and programmable controllers), man-machine interface systems, industrial local-area data communication networks and single and multiple-axis motion control systems.

Imaging & Graphics
Fremont, California
Manufactures a broad line of digital imaging and graphics systems used in publishing, remote sensing, CAD, CAM, and animated graphics.

Motion Control
2701 North Green Bay Road
Racine, Wisconsin 53404
(414) 637-6591
Manufactures and distributes high performance motion control systems.

Micro Bond Technologies, Inc.
Produces of interconnect devices and beam tape for tape-automated bonding of semiconductors.

Industrial Controls Division
Measurement Systems Division

International Cybernetics Corporation
Pittsburgh, Pennsylvania
Manufacturer of advanced computerized controls for factory and machine automation.

Computer Systems Division
Fort Lauderdale, Florida
(305) 587-2900
Produces digital minicomputers for research, industrial process and control, for generation and distribution of electrical power and for exploration and development of new fuel and energy sources.

Federal Systems Division
Fairfax, Virginia

Industrial Automation Systems
North Andover, Massachusetts
Applications software, cell controllers, computer systems, flexible automation controllers, industrial local area networks, intelligent motion-control devices, I/O modules, machine vision systems, man-machine interfaces, programmable controllers, servo-drive systems, workstations.

Instrument Systems:
These include test and measurement instrumentation: logic analyzers, recording systems and digital storage oscilloscopes.

Design & Test Systems Division
Cupertino, California

Recording Systems Division
Cleveland, Ohio

Electronic Components:
Components and materials for the electronics industry include application-specific MOS/VLSI (metal-oxide silicon/very-large-scale-integration) integrated circuits, electrolytic copper foil and circuit protection devices.

Micro Power Products Division
Gould AMI
Dexcel Division
Circuit Protection Division

Foil Division
17000 St. Clair Avenue
Cleveland, Ohio 44110
(216) 481-7200

Acquisition:

Septor Electronics Corporation
El Paso, Texas
Manufacturer transfer line automation systems used in metalworking and machining applications.

Transfer Agent(s):

Areas of Work: GTE has three core businesses: telecommunications, lighting products and precision materials. In telecommunications, the corporation provides local telephone service in portions of 31 states, two Canadian provinces and the Dominican Republic. Long-distance telephone service is offered through U.S. Sprint and specialized telecommunication services through GTE Telecom. Telecommunications systems and services and Sylvania lighting products and precision materials are marketed in the United States and 40 other countries.

Divisions:

GTE Telephone Operating Group
Stamford, Connecticut

Telephone Companies
Provides local telephone service to communities in 31 states, British Columbia, Quebec, the Dominican Republic, and the northern Mariana Islands in the Pacific Ocean. Also sells or leases phones and terminals.

GTE Directories
Sells Yellow Pages advertising and publishes telephone directories.

GTE Mobilnet
Provides cellular mobile radio telephone service.

GTE Spacenet
Operates a nationwide satellite communications system.

GTE Telecom
Comprised of three operating units: GTE Airfone, which provides air-to-ground telephone services for passengers on commerical airlines; GTE Telecom's Communications Management Division, which provides telecommunications services to government, defense and business customers; and GTE TeleMessenger, which provides a computer-based voice messaging service.

GTE Products and Systems Group
Stamford, Connecticut

GTE Consumer Communications Products
Markets residential and small office products such as single-line telephones, answering machines, data equipment, work stations and peripherals.

GTE Communication Systems
Supplies lines of communications equipment, systems and support services, including digital switching and PABX systems.

GTE Government Systems
Reconnaissance systems; command, control communications and intelligence systems; tactical communication systems; electronic defense systems; communications switching and information systems.

GTE Lighting Products
Danvers, Massachusetts
Manufactures more than 6,000 types of Sylvania lamps. Also produces lighting products, lamp fixtures and related products.

GTE Precision Materials
Danvers, Massachusetts
Manufactures metal, plastic and ceramic materials, parts and components; specialty and refractory metals; high-purity chemicals and electronic assemblies.

Other Sectors:

US Sprint (50% owned)
Operates the third largest long-distance telephone system in the U.S., and provides telephone services to 70 countries.

GTE Laboratories
Conducts basic and applied research in communications, lighting and precision materials technologies.

Areas of Work: Designs, manufactures, installs and maintains equipment and systems for the communication and information processing industry. Products include satellite communications systems, radio and TV transmitters, two-way radios, data terminals and controllers, microwave transmission systems, digital PABX system, medium-scale computers, utility control systems, integrated circuits, automated testing equipment, newspaper editing and composing systems, printing presses and binding equipment.

Divisions and Subsidiaries:

Information Systems Sector

Controls and Composition
407 John Rodes Boulevard
Melbourne, Florida 32901
(305) 242-5000
Electronic systems and terminals for news editing and advertising preparation, computerized phototypesetters, hot-metal linecasters, photo discs and type matrices, utility, pipeline, railroad and industrial control systems; data acquisition and processing equipment.

Computer Systems
2101 Cypress Creek Road
Fort Lauderdale, Florida 33309
(305) 974-1700
High-performance super-minicomputers, super-microcomputers, engineering workstations, peripherals and applications software.

Data Communications
16001 Dallas Parkway
P.O. Box 3599
Dallas, Texas 75248
(214) 386-2000
Sells and services a broad range of information management systems to the largest financial, retail, manufacturing, utility and government enterprises in the United States.

Digital Telephone Systems
One Digital Drive
Novato, California 94948
(415) 472-2500
Digital telephone and PBX systems for business and industrial firms and telephone companies.

Information Systems International
1025 W. NASA Boulevard
Melbourne, Florida 32919
(305) 727-9100
International sales, service and support of Harris Information Systems Sector products.

Scientific Calculations, Inc.
Fishers, New York
Develops software and electrical CAD/CAM systems.

Communications Sector

Broadcast
3200 Wissman Lane
Quincy, Illinois 62305
(217) 222-8200
Radio and TV transmitters, studio equipment, automation systems and antennas, color TV cameras, video links, digital video systems.

Business Communication Systems
Melbourne, Florida
Business communication systems incorporating satellite, packet-switched, microwave, lightwave, PBX and network-switch equipment, and planning, installation, operation and maintenance services.

Dracon
809 Calle Plano
Camarillo, California 93010
(805) 987-9511
Power supplies, equipment racks, and other auxiliary telephone equipment; voicepaging systems; telephone lineman's test instruments and tools.

Farinon
1691 Bayport Avenue
San Carlos, California 94070
(415) 594-3000
Farinon Electric: Microwave radios and multiplexers for voice, video and data communications systems. Farinon Video: Microwave studio transmitter links and electronic news-gathering links for broadcast and cable TV systems.

RF Systems
1680 University Avenue
Rochester, New York 14610
(716) 244-5830
Long range and short range two-way radio equipment and systems, mobile and fixed-base, for commercial, industrial, government and military applications.

Long Range Radio
Rochester, New York
HF, VHF and UHF radio equipment and systems for military and commercial users.

Semiconductor Sector

Semiconductor Products
Palm Bay, Florida
Standard data sheet and semicustom integrated circuits for commercial and government markets.

Harris Microwave Semiconductor
Milpitas, California
Gallium arsenide microwave devices and integrated circuits; hybrid microwave amplifiers.

Custom Integrated Circuits
Palm Bay, Florida
Analog and digital custom and semicustom LSI/VLSI circuits.

Matra-Harris Semiconducteurs, S.A. (45% owned)
B.P. 942
44075 Nates CEDEX France
Standard and semicustom CMOS and NMOS integrated circuits.

Government Systems Sector

Government Communication Systems
Palm Bay, Florida
Terrestrial Communication systems/networks for command, control and intelligence systems for the Department of Defense and other government agencies.

Government Information Systems
P.O. Box 9800
Melbourne, Florida 32902
(305) 676-6300
Ground-based custom system and software designed to collect, store, retrieve, process, analyze, display and distribute information of all types.

Government Support Systems
Syosset, New York 11791
(516) 364-0400
Computer-controlled electronic test, maintenance, logistic and simulation systems for military aircraft, ships and ground vehicles.

Government Aerospace Systems
Palm Bay, Florida
Custom command, control, communication and intelligence aerospace systems for Department of Defense and NASA.

Government Electronic Systems
Palm Bay, Florida
Major programs for U.S. government agencies utilizing state-of-the-art communications and information processing technologies.

Lanier Business Products Sector

Lanier Business Systems
1700 Chantilly Drive, N.E.
Atlanta, Georgia 30324
(404) 329-8000
Office-automation systems and software packages for stand-alone, workgroup and vertical-market business applications.

Lanier Voice Products
1700 Chantilly Drive, N.E.
Atlanta, Georgia 30324
(404) 329-8000
Portable, desktop, small work-group and centralized dictation products, business telephone systems and small private branch exchanges.

Harris/3M Document Products, Inc. (50% owned)
2300 Parklake Drive, N.E.
P.O. Box 105667
Atlanta, Georgia 30348
(404) 496-9500
Worldwide marketing, sales and service of copiers and facsimile machines.

Meads, v.p.-international; D. G. McNamara, v.p.-accounting and information resources; Robert A. McRoberts, v.p.-finance; James H. Biggart, Jr., treasurer; Edward C. Cormier, v.p.-development & planning; Richard W. Davies, general counsel & secretary; William A. Finnell, asst. treasurer; Thomas J. Geiger, asst. treasurer.

Directors: Robert N. Flint, G. J. Ratcliffe, Charles A. McKee, Robert W. Dixon, Andrew McNally, IV, Horace G. McDonell, H. Justin Davidson, John M. Hennie.

Divisions and Subsidiaries:

Wiring Device Division
State Street & Bostwick Avenue
Bridgeport, Connecticut 06602
(203) 333-1181
Electrical wiring devices, ground fault circuit interruptors, medical power centers, floor boxes; marine and corrosion resistant products; hospital and medical special purpose products.

Hubbell Plastics, Inc.
Prospect Drive
Newton, Connecticut 06470
(203) 426-2555
Custom-molded plastic parts for electrical/electronics, appliance, hardware, recreation, packaging and automotive markets.

Kellems Division
Route One, Lord's Hill
Stonington, Connecticut 06378
(203) 535-1250
Mechanical holding devices for cable, rope, hose, and flexible conduit for utility, contractor, and industrial markets.

Lighting Division
Christiansburg, Virginia
Anaheim, California
Moultrie, Georgia
Martin, Tennessee
Outdoor and indoor area lighting, landscape and hazardous-location lighting for commercial buildings, stadiums, gymnasiums, industrial plants, and residential use; underwater and reflecting pool lighting.

Hubbell Industrial Controls, Inc.
30 Edwards Street
Madison, Ohio 44057
(216) 428-1161
Heavy-duty electrical and electronic control equipment for industrial markets.

Pulsecom Division
Herndon, Virginia
(703) 820-0652
Manufactures electronic products related to the transmission and control of data, teleprinter, voice and television signals.

Hubbell Hermetic Refrigeration, Inc.
Phoenix, Arizona
Remanufacture of refrigeration and air conditioning compressors.

Harvey Hubbell, Incorporated

The Kerite Company
49 Day Street
Seymour, Connecticut 06483
(203) 888-2591
Proprietary insulated wire and cable for railroads, electric utilities, and industrial markets.

Raco, Inc.
South Bend, Indiana
Fogelsville, Pennsylvania
Manufactures steel and plastic boxes for electrical connections at outlet, switch, and junction locations; fittings for electrical wiring systems.

The Ohio Brass Company
Wadsworth, Ohio
Aiken, South Carolina
Polymer and ceramic insulators, surge arresters, transit and industrial haulage system components.

Hubbell Canada, Inc.
870 Brock Road South
Pickering, Ontario, Canada
(416) 839-1139
Manufacture and assembly of wiring devices, mesh grips, lighting fixtures, industrial controls.

Harvey Hubbell Ltd.
Kempston, Bedfordshire, England
Manufacture and assembly of fuse switches, contactors, timers, lighting fixtures, motor controls.

Killark Electric Manufacturing Company
St. Louis & Louisiana, Missouri
Sparta, Illinois
Standard and specialized wiring devices, lighting fixtures, fittings, and enclosures.

HEI Inc.

P.O. Box 5000
1495 Steiger Lake Lane
Victoria, Minnesota 55386
(612) 443-2500

Officers: Robert Pitel, president & chief executive officer; Clark Horn, v.p.-operations; Dale Nordquist, v.p.-sales; Lyman E. Wakefield, Jr., secretary.

Directors: Robert Pitel, William R. Franta, Alan K. Ruvelson, Lyman E. Wakefield, Jr..

Areas of Work: Manufactures electronic components and systems which convert light into electronic signals through hybrid circuitry - a sophisticated electronic assembly process which allows for miniaturization of circuit elements. Products include custom hybrid circuits, optical scanners for gaming, education and government, light pens for computer-aided design and interactive video tasks, optical switches and assemblies for typesetting systems, computer peripherals and industrial equipment.

Directors: David Packard, chairman; William R. Hewlett, William E. Terry, Robert J. Glaser, Antonie T. Knoppers, John A. Young, James D. Hodgson, Dean O. Morton, John B. Fery, Harold J. Haynes, Shirley M. Hufstedler, George A. Keyworth, II, T. A. Wilson, Paul F. Miller, Jr., Hicks B. Waldron, David Woodley Packard, Donald E. Petersen, Walter B. Hewlett.

Areas of Work: Through the instrument and components groups, manufactures electronic test and measurement products. These products include microwave semiconductors, light emitting diodes and fiber optic components, logic analyzers, voltmeters, frequency analyzers, power supplies, board testers, plotters, recorders, oscilloscopes, counters, frequency sources, network and signal analyzers, signal generators, automated test equipment, distance measurement instruments, component measurement equipment and microprocessor development systems. Computer and personal computation groups manufacture electronic data products. These products include small to medium scale computer systems for business, scientific and industrial applications, desktop computers, personal computers, personal scientific and business programmable calculators, data terminals, printers and disk and tape memories. The medical products group manufactures medical electronic equipment. These products include continuous monitoring systems for critical care patients, medical data management systems, fetal monitors, electrocardiographs and related interpretive and stress systems, cardiac catheterization laboratory systems, blood gas measuring instruments, ultrasonic imaging systems, cardiac defibrillators and hospital supplies. Products of the analytical instrumentation group include gas chromatographs, liquid chromatographs, mass spectrometers combined with chromatographs, spectrophotometers, laboratory automation systems and integrators.

Divisions and Subsidiaries:

COMPONENTS GROUP

Microwave Semiconductor Division
350 West Trimble Road
San Jose, California 95131
(408) 263-7500
RF (radio frequency) and microwave diodes, microwave transistors, microwave components; bar-code entry products.

Optoelectronics Division
640 Page Mill Road
Palo Alto, California 94304
(415) 857-6201
Alphanumeric and LED displays, lamps, light bars and linear arrays.

Optical Communications Division
640 Page Mill Road
Palo Alto, California 94304
(415) 857-1501
Fiber-optic and optocouplers.

Southeast Asia Operation
Hewlitt-Packard Malaysia
Phase I, Bayan Lepas Free Trade Zone
Penang, Malaysia
Semiconductor devices; computer memories.

SYSTEMS GROUP

Fort Collins Systems Division
3404 East Harmony Road
Fort Collins, Colorado 80525
(303) 226-3800
Advanced, 32-bit, desktop computers, computers controllers, systems and peripheral equipment for science and engineering.

Boblingen Engineering Operation
Hewlett-Packard GmbH
Federal Republic of Germany
Mechanical computer-aided design software.

Boblingen Computer Division
Hewlett-Packard GmbH
Herrenbergerstrasse 130
D-7030 Boblingen, Federal Republic of Germany

Colorado Springs Division
1900 Garden of the Gods Road
Colorado Springs, Colorado 80901
(303) 598-1900
General-purpose and high-performance oscilloscopes, including automatic waveform measurement; cathode-ray tube displays; logic analyzers.

Lake Stevens Instrument Division
6330 Marine Drive
Marysville, Washington 98270
(206) 335-2000
Synthesizers and low-frequency spectrum and network analyzers for communications and electronics equipment; waveform generators and dynamic analyzers for electromechanical and mechanical systems.

Fort Collins Engineering Operation
3404 East Harmony Road
Fort Collins, Colorado 80525
(303) 226-3800
Personal technical computer software.

Logic Design Operation
Centennial Annex D-2
Colorado Springs, Colorado 80907-0617
CAD/CAM system design.

Logic Systems Division
1900 Garden of the Gods Road
Colorado Springs, Colorado 80901
Logic-development systems for microprocessor and digital products.

ELECTRONIC INSTRUMENTS GROUP

Boblingen Instrument Division
Hewlett-Packard GmbH
Herrenbergerstrasse 130
D-7030 Boblingen, Federal Republic of Germany
Logic signal sources and data generators; plotters and microprocessor development systems.

Colorado Springs Tech Center
1900 Garden of the Gods Road
Colorado Springs, Colorado 80901
(303) 598-1900
Analog and digital thick film hybrids for all HP divisions.

YHP Instrument Division
Yokogawa-Hewlett-Packard, Ltd.
9-1, Takakura, Cho
Hachioji-Shi
Toyko 192, Japan
Component and semiconductor measuring instruments and systems (ICR meters, impedance analyzers, semiconductor parameter test systems) for worldwide sales and a variety of other products for the Japanese market.

Loveland Tech Center
815 Fourteenth Street, S.W.
Loveland, Colorado 80537
(303) 667-5000
Analog and digital multimeters, computer-controlled instrument systems (data-loggers, data acquisition systems, components-test instrumentation).

New Jersey Division
150 Green Pond Road
Rockaway, New Jersey 07866
(201) 627-6400
Regulated direct current laboratory and industrial power supplies, OEM (original-equipment manufacturer) modular power supplies, digitally controlled power sources, automatic-test and control-system components.

Santa Clara Division
5301 Stevens Creek Boulevard
Santa Clara, California 95050
(408) 246-4300
Electronic counters, digital IC (integrated circuit) testers, microprocessor servicing and training products, waveform recorders (transient analyzers or digital oscilloscopes), digital printers, atomic frequency and time standards, laser measurement systems, temperature and pressure measurement systems.

Santa Clara Tech Center
5301 Stevens Creek Boulevard
Santa Clara, California 95050
(408) 246-4300
Integrated circuits, and standard and custom parts, for HP's instrument divisions.

YHP Computer Operation*
Yokogawa-Hewlett-Packard, Ltd.
9-1, Takakura-Cho
Hachioji-Shi
Tokyo 192, Japan
* Part of YHP Instrument Division

MICROWAVE AND COMMUNICATIONS INSTRUMENT GROUP

Colorado Telecommunications Division
5060 Centennial Boulevard
Colorado Springs, Colorado 80933
(303) 593-8700
Transmission-test instruments for testing digital and analog parameters of voice and data channels; data-communication network test equipment (protocol analyzers and digital and analog test instruments).

Queensferry Telecommunications Division
Hewlett-Packard Ltd.
South Queensferry
West Lothian EH30 9TG Scotland
Dedicated test and measuring instruments and systems for telecommunications in the areas of microwave radio, FDM (frequency division multiplex), voice/data, PCM/TDM (pulse code modulation/time-division multiplex); transmission-impairment measuring sets and sweep oscillators.

Queensferry Microwave Operation
South Queensferry
West Lothian EH30 9TG Scotland
Products for mobile communications, RF (radio frequency) communications, and cellular radio.

Stanford Park Division
1501 Page Mill Road
Palto Alto, California
(415) 857-1500
Microwave signal generators and synthesizers; noise-figure meters; power meters; coaxial and waveguide measuring equipment.

Spokane Division
1620 Signal Drive TAF C-34
Spokane, Washington 99220
(509) 922-6001
RF (radio frequency) signal generators and synthesizers, RF measuring receivers and RF transceiver test equipment.

Signal Analysis Division
1212 Valley House Drive
Rohnert Park, California 94928
(707) 525-1400
Radio-frequency and microwave spectrum analyzers and related signal analysis equipment.

Network Measurements Division
1400 Fountain Grove Parkway
Santa Rosa, California 95404
(707) 525-1400
RF (radio frequency) and microwave-network analyzers (vector and scalar); sweep oscillators and synthesized sweep-signal generators.

Microwave Technology Division
1400 Fountain Grove Parkway
Santa Rosa, California 95404
(707) 525-1400
High frequency transistors and diodes, SAW (surface-acoustical-wave) devices, YIG (ytrium-iron-garnet) spheres; integrated circuits, thick and thin film circuits and microwave packages, all for HP divisions.

INFORMATION NETWORK GROUP

Roseville Networks Division
8000 Foothills Blvd.
Roseville, California 95678
(916) 786-8000
Measurement and control automation products, HP computer I/O (input/output) cards and data communications products.

Information Networks Division
19420 Homestead Road
Cupertino, California 95014
(408) 725-8111
Data-communications hardware and software; business software tools to speed program development; automation systems and software for the 'interactive office.'

Colorado Networks Operations
700 71st Avenue
Greeley, Colorado 80631
(303) 356-9301
Software and hardware to connect computer products.

Grenoble Networks Division
Hewlett-Packard France
5 Rue Raymond Chanas
F-38320 Eybens, France
Industrial terminals and low-cost terminals, personal computers; data-communications hardware and software.

BUSINESS SYSTEMS GROUP

Computer Systems Division
19447 Pruneride Avenue
Cupertino, California 95014
(408) 725-8111
Business computer systems for interactive, on-line processing, data processing, data-base management and distributed data processing.

CSY Roseville Operation
8010 Foothills Boulevard
Roseville, California 95678
(916) 786-8000
Business computer systems for interactive, on-line data processing, data base management and distributed data processing.

Office Productivity Division
Hewlett-Packard Ltd.
Nine Mile Ride
Easthampstead
Wokingham, Berkshire, England
Office-systems software and support for business computer systems.

Financial Systems Operation
370 West Trimble Road
San Jose, California 95131
(408) 263-7500
Software for HP business computers.

Information Resources Operation
7995 E. Prentice
Englewood, Colorado 80111
(303) 773-1992
Software for marketing and distributing organizations.

Guadalajara Computer Operation
Monte Morelos 299
Frac, Loma Bonita
Guadalajara, Talisco 45060 Mexico
(532) 622-0250
Business computers and software.

Boblingen General Systems Division
Hewlett-Packard GmbH
Herrenbergerstrasse 130
D-7030 Boblingen, Federal Republic of Germany
Programmable desktop-computer systems and peripheral equipment for European scientific and industrial applications.

Administrative Productivity Division
370 West Trimble Road
San Jose, California 95131
Administrative and applications software, including distribution and financial.

Administrative Productivity Operation*
Herrenbergerstrasse 130
D-7030 Boblingen, Federal Republic of Germany
Financial applications software.
*Part of Administrative Productivity Division.

INFORMATION TECHNOLOGY GROUP

Cupertino IC Division
11000 Wolfe Road
Cupertino, California 95014
Custom integrated circuits for HP computers, peripherals, and instruments.

Fort Collins IC Division
3403 East Harmony Road
Fort Collins, Colorado 80525

Information Technology Group
Northwest IC Division
1020 N.E. Circle Boulevard
Corvallis, Oregon 97330

COMPUTER PERIPHERALS GROUP

Boise Division
11311 Chinden Boulevard
Boise, Idaho 83707
(208) 376-6000
Impact and non-impact system line printers.

Disc Memory Division
11411 Chinden Boulevard
Boise, Idaho 83707
(208) 376-6000
Disc memory products and associated microprocessor-implemented controllers for computer systems.

Greeley Division
700 71st Avenueny Road
Greeley, Colorado 80631
(303) 356-9301
Flexible mass-storage devices; magnetic tape drives; local networking and data-communication products.

Vancouver Division
18110 S.E. 34th Street
Vancouver, Washington 98706
Word-processing, thermal, multi-purpose data-processing printers.

Computer Peripherals Bristol Division
Great Western Business Park
North Road
Yate, Bristol BS17, England
Middle-range mass storage products.

San Diego Division
16399 W. Bernardo Drive
San Diego, California 92127
(714) 487-4100
Digitizers, graphic tablets, instrumentation tape recorders, graphic plotters, recorder supplies, and X-Y, strip chart and oscillographic recorders.

PERSONAL COMPUTER GROUP

Handheld Computer and Calculator Operation
1010 N.E. Circle Boulevard
Corvallis, Oregon 97330
(503) 757-2000
Calculators for science and business; portable and handheld computers.

Hewlett-Packard Company

Portable Computer Division
1010 N.E. Circle Boulevard
Corvallis, Oregon 97330
(503) 757-2000
Personal computer systems and handheld computers and calculators.

Hewlett-Packard Do Brasil
Rua Joao Sulinski, 681
13100-Campinas, Sao Paulo Brazil
Scientific and business calculators and personal computers.

Hewlett-Packard Singapore Pte. Ltd.
1150 Depot Road Singapore 0410
Personal, scientific and business calculators.

Roseville Terminals Division
3625 Cincinnati Avenue
Rocklin, California 95677
(916) 786-8000
Data terminals.

Personal Office Computer Division
978 East Arques
Sunnyvale, California 94086
(408) 735-1550
Small computers for the business market; interactive, microprocessor-implemented alphanumeric and graphics CRT (cathode-ray tube) terminals for data processing and communications.

Grenoble Personal Computer Division
Hewlett-Packard France
5 Rue Raymond Chanas
F-38320 Eybens, France
Industrial terminals and low-cost terminals.

Hewlett-Packard Puerto Rico
Highway 459 KM 1
Montana Industrial Park
Aguadilla 00603 Puerto Rico
Interactive, microprocessor implemented alphanumeric and graphics CRT (cathode-ray tube) terminals.

Personal Software Division
3410 Central Expressway
Santa Clara, California
(408) 725-8111
Software for personal computers; computer-aided work software and common user interfaces for portable computers, terminals and workstations.

Personal Computer Group Operation
11000 Wolfe Road
Cupertino, California 95014

Personal Computer Distribution Operation
Sunnyvale, California
Manages worldwide distribution of HP personal computers and related peripherals, software, supplies and accessories.

ANALYTICAL GROUP

Avondale Division
Route 41 & Starr Road
Avondale, Pennsylvania 19311
(215) 268-2281
Gas and liquid chromatographs,, automatic liquid samplers, digital integrators, analytical laboratory-data systems, chromatography columns and consumables.

Scientific Instruments Division
1601 California Avenue
Palo Alto, California
(415) 857-1501
Gas chromatograph/mass spectrometers, GC/MS data systems, UV-visible diode-array spectrophotometers.

Waldbronn Division
Hewlett-Packard GmbH
P.O. Box 1280
D-7517
Waldbronn, Federal Republic of Germany
Liquid chromatographs, gas chromatographs and analytical laboratory-data systems; liquid chromatograph detectors.

Analytical Supplies Operation
Route 41 & Starr Road
Avondale, Pennsylvania 19311
High quality gas and liquid chromatograph columns; also, distributes general supplies for the laboratory.

Laboratory Automation Systems Operation
Route 41 and Starr Road
Avondale, Pennsylvania 19311
Software and hardware to improve laboratory productivity and information management.

ENGINEERING & MANUFACTURING SYSTEMS GROUP

Data Systems Division
11000 Wolfe Road
Cupertino, California 95014
(408) 257-7000
Technical real-time computers and computer systems for factory automation, manufacturing and OEM (original equipment manufacturer) applications.

Manufacturing Productivity Division
370 West Trimble Road
San Jose, California 95131
(408) 263-7500
Software systems for manufacturing organizations, including manufacturing-application financial systems.

Manufacturing Test Division
815 Fourteenth Street S.W.
Loveland, Colorado 80537
(303) 667-5000
Analog and digital circuit-board testers.

Loveland Instrument Division
815 Fourteenth Street, S.W.
Loveland, Colorado 80537
(303) 667-500
Analog and digital multimeters, computer-controlled instrument systems (data-loggers, data acquisition systems, components-test instrumentation).

Advanced Manufacturing Systems Operation
370 West Trimble Road
San Jose, California 95131
Computer integrated manufacturing (CIM) systems; factory automation application software products.

Panacom Automation Operation
24 Lexington Road
Waterloo, Ontario N2J323 Canada

Semiconductor Productivity Network Operation
370 West Trimble Road
San Jose, California 95131
Technical and product marketing, sales support and product development for computer-aided manufacturing systems for semiconductor manufacturers.

MEDICAL PRODUCTS GROUP

Andover Division
3000 Minuteman Road
Andover, Massachusetts 01810
(617) 687-1501
Diagnostic instruments including electrocardiographs, cardiac stress-testing systems, physiological amplifiers and graphic recorders, computerized ECG data-management systems, computerized cardiac catheterization laboratory and ultrasound-imaging systems.

Boblingen Medical Division
Hewlett-Packard GmbH
Herrenbergerstrasse 130
D-7030 Boblingen, Federal Republic of Germany
Fetal/neonatal-monitoring systems and instruments for surgical recovery-room monitoring; critical-care monitoring systems and computerized arrhythmia monitoring systems.

McMinnville Division
1700 South Baker
McMinnville, Oregon 97128
(503) 472-5101
X-ray and electron-beam systems for industrial applications and cardiac resuscitation systems such as defibrillators, monitors and recorders.

Waltham Division
175 Wyman Street
Waltham, Massachusetts 02254
(617) 890-6300
Critical-care monitoring systems for adults, computerized arrhythmia systems for adults, computerized arrhythmia monitoring systems with recall and edit capabilities, physiological transducers, patient-monitoring recorders, computerized patient data-management systems, and hospital information systems.

Health Care Productivity Operation
3000 Minuteman Road
Andover, Massachusetts 01810
Hospital information systems.

Medical Supplies Center
3000 Minuteman Road
Andover, Massachusetts 01810
Stethoscopes, electrolytes, disposable ECG (electrocardiogram) monitoring electrodes, blood-pressure transducers and disposable transducer domes, chart papers, disposable pressure kits.

CORPORATE MARKETING

Computer Support Division
19310 Pruneridge
Sunnyvale, California 95014
(408) 996-9383
Installation, servicing and custom support for HP computer systems.

Financing and Remarketing Division
Cupertino, California
Marketing and administration for all product leasing and for resale of computers.

Computer Supplies Operation
1326 Kifer Road
Sunnyvale, California 94086
(408) 738-8856
Computer accessories, supplies, software and furniture for all HP computers.

Test and Measurement Products

Instrument Support Division
690 E. Middlefield Road
Mountain View, California 94042
(415) 969-0880
Bench service, on-site service and repairs, and systems engineering for HP instrument products.

Corporate Parts Center
333 Logue Avenue
Mountain View, California 94042
Replacement parts, exchange modules and supplies.

Instrument Products Operation
1320 Kifer Road
Sunnyvale, California 94086
Low-priced instrumentation products and accessories.

The Hickok Electrical Instrument Company

10514 Dupont Avenue
Cleveland, Ohio 44108
(216) 541-8060

Officers: Robert D. Hickok, chairman & president; Robert L. Purcell, executive vice president; Robert L. Bauman, vice president; Michael Miller, secretary.

Directors: Robert D. Hickok, chairman; Thomas H. Barton, H. Bruce Boal, Max J. Lerner, George S. Lockwood, Jr., Robert L. Purcell, Harry J. Fallon, Robert L. Bauman.

Areas of Work: Develops, manufactures, and markets high technology precision indicating instruments, education and electronic test equipment. Also develops and markets scientific and vocational training programs. Owns and operates a vocational training institute. The indicating instruments and meters produced by the company are used in the aircraft industry, laboratory research, and electronic maintenance.

Subsidiaries:

Supreme Electronics Corp.
1714-16 Carrollton
Greenwood, Mississippi 38930
(601) 453-6212
Electronic test equipment, specialized measuring devices and indicating instruments.

Hickok Teaching Systems, Inc.
Cleveland, Ohio
Systems to assist in the teaching of the science and vocational school training equipment.

Hickok Technical Institute
2012 West 25th Street
Cleveland, Ohio 44113
(216) 696-2626
Private technical school for teaching vocational skills.

Directors: Edson W. Spencer*, chairman; Louis E. Navin*, William H. Donaldson, James J. Renier*, Alexander J. MacIntosh, Geri M. Joseph*, E. H. Clark, Jr., Elizabeth E. Bailey, Steven G. Rothmeier*, Vincent A. Sarni, Michael W. Wright, G. Greenwald.

* Member of the Executive Committee

Areas of Work: The Company's products and services involve four industry segments: Space and Aviation Systems, Defense and Marine Systems, Industrial Automation and Control, and Home and Building Automation and Control.

Divisions and Subsidiaries:

SPACE AND AVIATION SYSTEMS

Space Systems Group

Defense Communications and Production Division
Tampa, Florida
Military communications equipment.

Satellite Systems Division
Glendale, Arizona
Integrated high-speed data management systems, spacecraft attitude and positioning systems, precision pointing and isolation systems.

Space and Strategic Avionics Division
Clearwater, Florida
Guidance systems for launch and reentry vehicles, flight and engine control systems for manned spacecraft, precision components for strategic missiles, on-board data processing.

Commercial Flight Systems Group

Air Transport Systems Division
Phoenix, Arizona
Automatic flight control systems; electronic cockpit displays; flight management systems; flight reference sensors; navigation, surveillance and warning systems; inertial reference systems; air-data computers; communications systems; worldwide customer service centers.

Business and Commuter Aviation Systems Division
Glendale, Arizona
Automatic flight control systems; electronic cockpit displays; flight management systems; flight reference sensors; navigation, surveillance and warnings systems; inertial reference systems; air-data computers; communications systems; worldwide customer service centers.

Military Avionics Systems Group

Defense Avionics Systems Division
Albuquerque, New Mexico
Automatic flight control systems, electronic cockpit display systems, flight reference systems, cockpit systems integration, unmanned vehicle electronics.

Electro-Optics Division
Lexington, Massachusetts
Electro-optical systems and components, threat-warning systems, infrared sensors and seekers, mercury cadium telluride detectors, defensive electronic systems.

Military Avionics Division
Minneapolis, Minnesota
Laser inertial navigation and guidance systems, flight controls, inertial sensors, radar altimeters, automatic test systems, helmet-mounted display and sighting systems.

Training and Control Systems Division
West Covina, California
Training devices and systems, visual systems, naval combat systems, operational flight training and simulator systems.

DEFENSE AND MARINE SYSTEMS

Defense Systems Group

Armament Systems Division
Brooklyn Park, Minnesota
Ammunition and fuzing, infantry weapon systems.

Ordnance Division
Edina, Minnesota
Air-delivered conventional weapons, scatterable mines, land vehicle fire control systems, special power sources.

Precision Weapons Operations
Minnetonka, Minnesota
Precision munitions.

Marine Systems Group

Marine Systems Division
Everett, Washington
Sonar sensors and transmit systems, weapon sonars, specialty sensors, standard signal processor modules, embedded signal processor products, engineering services.

Undersea Systems Division
Hopkins, Minnesota
Torpedo systems and related products, ceramic components, software and simulation development, electronic component testing.

Advanced Marine Systems Operations
Hopkins, Minnesota
Unmanned underwater vehicles, advanced antisubmarine warfare systems, underwater television cameras.

INDUSTRIAL AUTOMATION AND CONTROL

Components Group

Keyboard Division
El Paso, Texas
Keyboards and touch panels for data entry and control.

Micro Switch Division
Freeport, Illinois
Solid-state sensors for position, pressure, air-flow, temperature and current; precision electromechanical switches; manual controls; advanced vision-based sensors; sensor interface devices; optoelectronic, fiber-optic and encoder systems and components.

Skinner Valve Division
New Britain, Connecticut
Solenoid valves.

Industrial Systems Group

Industrial Automation Systems Division
Phoenix, Arizona
Continuous and batch information and control systems for hybrid operations of process plants.

Industrial Controls Division
Fort Washington, Pennsylvania
Process control instrumentation, field instrumentation, industrial machinery, equipment controls, programmable controllers, communications systems for industrial automation.

Industrial Services Division
Fort Washington, Pennsylvania
Comprehensive support services for industrial control equipment and systems and third-party equipment, including computer-aided design and manufacturing, numerical machine control, computer systems and peripherals.

Test Instruments Division
Denver, Colorado
Magnetic tape recorders and reproducers, oscillographic and videographic recorders, test management systems, militarized airborne recorders, instrumentation, service support, product and component testing.

HOME AND BUILDING AUTOMATION AND CONTROL

Building Controls Division
Golden Valley, Minnesota
Heating, ventilating and air conditioning controls; lighting controls and building management systems for commercial buildings; burner and boiler combustion controls; hydronic controls; indoor air-quality diagnostic services.

Protection Services Division
Minneapolis, Minnesota
Security services for homes and commercial buildings, including burglary and fire protection, access control, closed circuit video, maintenance and 24-hour monitoring by customer service centers.

Residential Controls Division
Golden Valley, Minnesota
Air-quality products; automatic controls for heating, cooling, ventilating, air conditioning, humidifying equipment; systems for residences and small buildings.

Commercial Buildings Group
Minneapolis, Minnesota
Comfort controls, building management systems, fire alarm and security systems, energy retrofit systems and services, contract maintenance and building operations service for commercial buildings; integrated systems and service packages for specific customer segments.

INTERNATIONAL

Asia-Pacific
Honeywell Asia-Pacific Inc.
Hong Kong

Canada
Honeywell Limited
Toronto, Ontario, Canada

Europe
Honeywell Europe S.A.
Brussels, Belgium

Latin American Division
Minneapolis, Minnesota

CORPORATE

Honeywell Federal Systems, Inc.
McLean, Virginia
Field marketing and support to U.S. government computer customers.

Solid State Electronics Division
Colorado Springs, Colorado
Research, engineering, manufacturing and marketing of custom and semicustom microcircuits, sensors, transducers and advanced packaging.

Corporate Systems Development Division
Minneapolis, Minnesota
Systems engineering for integration of computers, communications and control systems for commercial buildings and manufacturing automation.

Physical Sciences Center
Minneapolis, Minnesota
Research in sensing and control technologies for automation.

Corporate Solid State Laboratory
Minneapolis, Minnesota
Long-range basic research in silicon integrated-circuit technology.

Sensors and Signal Processing Laboratory
Minneapolis, Minnesota
Research and development in sensing, control technologies for automation.

Systems and Research Center
Minneapolis, Minnesota
Systems analysis and applied research on systems, products for military, space and commercial aviation sectors.

Tetra Tech
Pasadena, California
Computer systems, software services, water and waste management.

Officers: Donald J. Harper, chairman, president & chief exec. officer; John A. McLendon, exec. v.p. & chief operating officer; Gregory B. Howey, exec. v.p.-planning & administration; George E. Peterson, Jr., v.p. & gen. counsel; Herbert F. Kahler, v.p.; William E. Beer, v.p.; John C. Scott, v.p.; Malcolm S. Todt, v.p. & treasurer; John J. Weber, v.p. & controller; Sherwood S. Willard, secretary; Randolph B. Marston, v.p. & pres.-Taylor Publishing Company.

Directors: Donald J. Harper, chairman; William O. Bailey, Wallace Barnes, Durand B. Blatz, Richard M. Bliss, Raymond D'Argenio, Bernard N. Kelly, Wendy Luscombe, Randolph B. Marston, John A. McLendon, Frank R. O'Keefe, Jr., James W. Taylor, Preston Townley.

Area of Work: In the area of electronics/communications, the Company's Basic Industries Division produces precision parts manufactured to close tolerances, principally for use in mainframe computer drives. The Computer Circuitry Group provides specialized wire harnesses, coaxial and multiconductor cable, and wire and cable assemblies to the computer and telecommunications industries. Signal Transformer Co., Inc. designs, manufactures and sells a full range of power transformers for use in electronic applications. Stewart Stamping manufactures and distributes formed wire and small precision stamped parts for the electronics and telecommunications industries and is licensed by Western Electric Company to manufacture and distribute telephone and computer connectors. Dual-Lite is engaged in the business of manufacturing and selling electrical products to the construction industry, including battery-powered emergency lighting equipment and systems and plug-in flexible wiring products.

In the area of metal parts, the Company's Steel Parts Corporation manufactures automobile parts, including clutch plates, suspension, engine and transmission component parts for original equipment automobile manufacturers. Thermal Components, Inc. designs and manufactures heat exchange products, including thin-walled tubing and air conditioning condensers and evaporators for the transportation and industrial equipment industries. Romac Metals, Inc. manufactures stainless steel tubing which is sold to broadly diversified markets. Thermalex Corporation, a joint venture between Thermal Components, Inc. and Mitsubishi Aluminum Co., Ltd., produces high-precision aluminum extrusions, principally for use in heat exchange applications. Valentec International Corporation manufactures components such as metal cartridges, cartridge link belts, and expendable projectiles primarily for the defense industry. Dayron Corporation manufactures mechanical and electromechanical fuses used in the defense industry.

Other Company operations include the supplying of paint, wallpaper and wallcoverings, high-school and college yearbooks and specialty book publishing, office products, and lighting equipment.

Integrated Circuits Incorporated

10301 Willows Road
P.O. Box 97005
Redmond, Washington 98073-9705
(206) 882-3100

Officers: Phillip C. Linwick, chairman & chief exec. officer; Peter H. van Oppen, president & chief operating officer; Russell F. McNeill, secretary; Milton A. Woods, exec. v.p.-marketing & sales & treasurer; Melvin O. Eide, v.p.-research & development; Harvey H. Stanley, v.p.-material & production control; J. T. Montgomery, v.p.-operations; Leslie S. Rock, chief financial officer & controller; Daniel J. Rana, v.p.-engineering.

Directors: Walter P. Kistler, Ross W. Anderson, Phillip C. Linwick, Russell F. McNeill, Peter H. van Oppen, Milton A. Woods, Christopher T. Bayley.

Areas of Work: Designs, manufactures and markets both custom and proprietary (standard) hybrid microcircuit products for the electronics industry. These microcircuits are used commercially in memory systems, industrial controls, testing equipment, computers and computer peripherals and medical electronics equipment. Aerospace applications range from aircraft instrumentation power supplies to research uses in satellites.

Scranton.

Areas of Work: The Company's operations are primarily in the field of information handling systems, equipment and services to solve the problems of business, government, science, space exploration, defense, education, medicine and many other areas of human activity. Products include information processing products and systems, program products, communications systems, workstations, typewriters, copiers, educational and testing materials, and related supplies and services.

Divisions:

Information Systems Group

National Distribution Division
Marketing responsibility in U.S. for selected systems and high-volume products delivered through alternate channels of distribution. Also responsible for manufacturing or procurement and marketing within the U.S. of IBM supplies and accessories.

North-Central Marketing Division
Markets the full standard line of IBM products in its geographic area.

South-West Marketing Division
Markets the full standard line of IBM products in its geographic area.

National Service Division
Provides service for assigned products; manages services business within the U.S. and its territories; and supports IBM's marketing efforts.

Information Systems and Technology Group

Data Systems Division
Worldwide development responsibility for large, complex systems, with primary emphasis on high-performance products and associated programming, plus U.S. manufacturing responsibility for those systems. Also supplies computer components, including logic and selected memory technologies, used in products that it and other IBM divisions manufacture in the U.S.

General Technology Division
Worldwide development and United States manufacturing responsibility for the component technology requirements of the low-to-moderate price computers made by the General Systems Division and products of the Office Products Division.

Systems Technology Division
Develops and manufactures intermediate processors and printers and develops programming systems.

General Products Division
Worldwide development and United States manufacturing responsibility for computer tape units, disk files and printers.

Information Systems and Communications Group

Communication Products Division
Worldwide development and U.S. manufacturing responsibility for communications equipment, terminal products and related communications, technologies and programming.

Entry Systems Division
Worldwide development and product management, and U.S. manufacturing responsibility for IBM's general purpose, low-cost, personal use computer systems and related software.

Information Systems and Products Group

Information Products Division
Markets disk packs and data modules; manufactures and markets data processing cards, magnetic tape and cards, business forms and other consumable products used in information-handling systems.

Systems Products Division
Worldwide development and United States manufacturing responsibility for central processor products including main storage, logic technologies, packaging technology, channels and cables; development and implementation of advanced design and manufacturing support systems.

Other Divisions

Federal Systems Division
Concentrates on advanced technology and systems for the ground-based, seaborne, airborne and spaceborne information-handling systems and control needs of the U.S. Government.

Real Estate and Construction Division
Arranges for the construction, purchasing or leasing of new company facilities. Develops technologies of potential long-range importance.

Research Division
Brings scientific understanding to bear on areas of company interest through basic research and development of technologies of potential long-range importance.

Subsidiaries

IBM Instruments, Inc.
Markets and services products in the analytical instruments field.

IBM Credit Corporation
Offers lease financing of IBM products, either directly or through partnerships, and finances installment receivables resulting from sales by IBM of its information processing systems and equipment to customers in the U.S. It also finances non-IBM equipment.

IBM World Trade Corporation
Conducts IBM's business outside the United States directly or through its subsidiaries.

Science Research Associates, Inc.
Develops, produces and markets textbooks, educational kits, learning systems, guidance products and testing materials and services for elementary and secondary schools, colleges and industry.

IBM World Trade Americas/Far East Corporation
Conducts IBM's business in 44 countries, including Australia, Brazil, Canada, and Japan.

IBM World Trade Europe/Middle East/Africa Corporation
Responsible for IBM operations in 77 countries, including the USSR, and the Eastern European countries.

Rolm Corporation
Has worldwide development, manufacturing and marketing responsibility for fully integrated computerized business communication systems including private branch exchanges, voice messaging systems, circuit switched data systems, desktop products, and related applications.

* Member of the Executive Committee

Areas of Work: The principal business of the company involves the development, manufacture and sale of products, systems and services for the desalination, processing, measurement and treatment of water and other liquids, principally utilizing separations technology and related methods.

Divisions and Subsidiaries:

Global Water Services, S.A.
Panama City, Panama

Ionics Italiana S.p.A.
Piazza IV Novembre 4
20124 Milan, Italy

Watlington-Waterworks Limited (23% owned)
Devonshire, Bermuda

Ionics Iberica, S.A.
Grand Canary, Spain

Household Water Division
65 Grove Street
Watertown, Massachusetts 02172
(617) 926-2500
Manufacture and sale of water desalination equipment, pollution monitoring instruments, food and chemical processing equipment; research and development activities in electrochemistry and pollution control.

Bridgeville Division
P.O. Box 99
Bridgeville, Pennsylvania 15017
(412) 343-1040
Manufacture and sale of water softening and conditioning equipment, custom-fabricated components for the nuclear, food and chemical industries, and custom-designed air recovery and heat transfer systems; financing activities related to sales of domestic water softening equipment.

General Ionics, Inc.
4178 Market Street
Youngstown, Ohio 44512
Home water softener dealership.

Ionics Ultrapure Water Corporation
Campbell, California
Services ultrapure water systems for the electronics, pharmaceutical and power industries in northern California and the Southwest.

Yuasa-Ionics Co. Ltd. (50% owned)
No. 12-11, 2-Chome
Higashi-Shinbashi
Minato-ku Tokyo 105 Japan
Supplies pollution abatement products in Japan and the Far East.

Italba, S.p.A. (87.7% owned)
Via Mauro Macchi 26
20124 Milan, Italy
Design and construction of water and waste treatment plants in Europe.

Ionics, Inc.
Hong Kong

Ionics (UK) Ltd.
London, England

Saif-Ionics (50% owned)
Damman, Saudi Arabia

Jalal-Ionics, Ltd. (40% owned)
Manama, Bahrain

Oasmar, S.A.
Grand Canary, Spain

Ionics (Bermuda) Ltd.
Hamilton, Bermuda

Elite Chemicals Pty. Ltd. (50% owned)
Brisbane, Qld., Australia
Production of specialty chemicals.

Ionics Pure Solutions
Phoenix, Arizona
Albuquerque, New Mexico
Sale and service of ultrapure water systems for the electronics and pharmaceutical industries.

Areas of Work: Engaged in the development, production and servicing of computer systems designed for building automation, fire safety and security and energy systems; manufactures and markets auto batteries and automotive seating; manufactures plastic containers and plastics blow-molding machinery.

Divisions:

Systems & Services Division
507 E. Michigan Street
P.O. Box 423
Milwaukee, Wisconsin 53201
(414) 274-4000
Provides building automation systems and products which can monitor and control every phase of a building's operations including energy conservation, fire safety and security.

Systems Engineering & Construction Division
207 North Jefferson Street
P.O. Box 423
Milwaukee, Wisconsin 53201
(414) 274-4815
Designs, installs and maintains industrial instrumentation and process control systems.

Control Products Division
1250 E. Diehl
Naperville, Illinois 60540
(312) 654-4900
Designs, produces and distributes energy related products to original equipment manufacturers. Products include a complete line of automatic temperature pressure and flow controls for air conditioning, refrigeration, commercial and residential heating, water pumping and gas burning equipment.

Battery Group
5757 N. Green Bay Avenue
P.O. Box 591
Milwaukee, Wisconsin 53201
(414) 228-1200
Manufactures and sells automotive and other rechargeable lead-acid batteries.

Automotive Systems Group
825 Victors Way
P.O. Box 1033
Ann Arbor, Michigan 48106
(313) 665-1500
Designs and manufactures complete seating systems and foam and metal seating components for cars, trucks and vans. Designs and manufactures window regulators, latches, locks and other automotive components.

Plastic Technology Group
912 City Road
P.O. Box 129
Manchester, Michigan 48158
(313) 428-8371

Plastic Container Division
Supplies plastic soft drink bottles for the U.S. market.

Plastics Machinery Division
Design and assembly of blowmolding machinery.

Engineered Plastics Division
Manufactures plastic components for automotive applications such as radiator end caps, gears and power steering reservoirs.

Kevex Corporation

1101 Chess Drive
Foster City, California 94404
(415) 573-5866

Officers: Glenn T. Seaborg, chairman of the board; Richard S. Frankel, president & chief executive officer; Michael A. Kelly, exec. v.p. & chief operating officer; LeRoy H. Scharpen, v.p. chief financial officer & secretary/treasurer; John W. Colby, v.p.; Brian Skillicorn, v.p.; Robert L. Chaney, v.p.; Janet M. Tallon, controller.

Directors: Glenn T. Seaborg, chairman of the board; Clifford H. Higgerson, William E. Terry, Richard S. Frankel, Henry P. Massey, Jr., Michael A. Kelly.

Business Activities: The company designs, manufactures and markets analytical instruments known as X-Ray energy spectrometer (XES) systems, which are used to determine the concentration of various chemical elements in organic and inorganic materials without altering or destroying the specimen being examined. The XES systems are used in the semiconductor industry to analyze thin films and coatings on silicon wafers. Other applications include medical research, industrial alloy analysis and bulk analysis of minerals, ores, oil and oil additives.

Divisions:

X-Ray Tube Division
X-Ray Instruments Division
Glenn T. Seaborg Laboratory

Subsidiaries:

Surface Science Laboratory, Inc.
Mountain View, California
Designs, manufactures and markets surface analysis equipment and provides surface analysis services.

Board of Directors: Kazuo Inamori, chairman & representative director; Shingo Moriyama, vice chairman & representative director; Kinju Anjo, president & representative director; Asa Jonishi, Haruki Tomonoh, Ryozo Endo, senior advisors and directors; Kensuke Itoh, executive v.p. & representative director; Toshinori Inamori, Masaaki Hiwatashi, Yoshimichi Aoyama, Shoichi Hamamoto, Yoshiteru Hamano, Keisuke Hasegawa, Yoshizo Yasuda, senior managing directors; Masayuki Yamamoto, Kenichi Okagawa, Moritaka Arasaki, Katsumi Nishimura, Masao Kadota, managing directors; Ryusho Nagai, Kikuo Nomura, Yoshiro Kawakami, Takashi Nakayama, Kenjiro Kimura, Shunji Nosaka, Toshihiko Teshirogi, Taiichi Akiyama, Koichi Nakamura, Masao Hori, Stuart Lubitz, directors.

Areas of Work: The Company is primarily engaged in the manufacture and sale of products in three major segments: ceramic and related products for the electronics and other industries; electronic equipment consisting of communications, audio and business equipment; and optical and precision instruments consisting of cameras and camera lenses.

Major ceramic products included alumina substrates, substrates for volume control and resistors, multiform glass for color TVs, parts for machine tools, pump and valve components, sliders, automotive components, and connectors for optical fiber glass cable. Major semiconductor products include cerdips, chip carriers and mother boards, pin grid arrays, and metallized microwave packages. Major electronic components products include chip capacitors, ceramic filters, resonators, chip resistors, thermal printheads, amorphous silicon drums, and liquid crystal displays. Consumer-related products include jewelry (Crescent Vert), dental implant and orthopedic devices (Bioceram), solar water heaters, solar cells, cutting tools, and ceramic scissors. Major products in the area of electronic equipment include transceivers, navigation equipment, compact disc players, MSX, desk-top computers, and compact laser printers. Major products in the area of optical and precision instruments include single lens reflex cameras (Contax, Yashica, Kyocera), 35mm cameras, lenses for single lens reflex cameras, and 8mm video camcorders.

Areas of Work: Retail tag-making equipment and supplies; navigation and control systems, including aircraft inertial navigation systems, missile inertial guidance systems, marine navigation instruments and systems, and automated ship control systems; communications and electronic data systems, including command and control systems, shipboard electronic systems, tactical communications and systems, tactical air support equipment, airborne warning and control systems, electronic surveillance systems, radio navigation systems; marine engineering and production, including naval surface ships, and marine design and engineering; machine tool systems, including disc and surface grinding machines, automatic bar and chucking machines, boring, milling and drilling machines, drills, taps, dies and cutting tools, and specialty metal products; bulk material handling systems, and unit handling conveyor systems; electronic and electrical components, including computer components and subassemblies, microwave devices and laser materials, servo components and potentiometers and printed circuit boards; medical and electronic products, including electronic diagnostic and patient monitoring equipment, microwave cooking products; also engaged in resource exploration.

Divisions and Subsidiaries:

Advanced Circuit Design
114 Lost Creek Boulevard
Suite 131
Austin, Texas 78746-6318
(512) 327-1088

Advanced Circuitry
4811 West Kearney Street
Mail to: P.O. Box 2847 CS
Springfield, Missouri 65803-0847
(417) 862-0751
Printed and multilayer circuit boards, artwork design, board loading, back panels.

Aero Products
6101 Condor Drive
Moorpark, California 93021-2699
(805) 378-2000
Navigation and guidance systems for commercial airlines, general aviation and military air transport. Omega navigation systems, attitude reference systems, inertial reference systems (laser); specialized systems for search, surveillance and photogrammetric precise track guidance technology; ground proximity warning systems

also at:

Marketing Representation
2121 Newmarket Parkway
Bldg. 5, Suite 146
Marietta, Georgia 30067
(404) 955-0629

1626-1 Locust Avenue
Bohemia, New York 11716
(516) 589-5523

490 L' Enfant Plaza East, S.W.
Suite 8602
Washington, Washington D.C. 20024
(202) 554-2570

(Litton Worldwide Services, Inc.)
Guardian House
Room 1306
32 Oi Kwan Road
Causeway Bay, Hong Kong

9 Avenue Franklin Roosevelt
Paris 7008, France

Aero Service
8100 Westpark Drive
Mail to: P.O. Box 1939
Houston, Texas 77251-1939
(713) 784-5800

also at:

7229 South Alton Way
Englewood, Colorado 80112
(303) 779-4024
Photogrammetric and SLAR engineering, airborne and ground geophysical surveys, geophysical mapping, simulation sciences, resources exploration and evaluations, digital graphics, LANDSAT data processing

Aero Service (Great Britain)
c/o Western Geophysical Company
P.O. Box 18, 455 London Rd.
Isleworth, Middlesex TW7 5AB England
Airborne geophysical and photogrammetric surveys.

Airtron
200 East Hanover Avenue
Morris Plains, New York 07950
(201) 539-5500
Microwave components, including waveguides and ferrite devices; optical and magnetic crystals; bubble memory substrates; jewelry and simulated diamonds, stripline and microstrip components.

also at:

54 Horsehill Rd.
Cedar Knolls, New York 07927
(201) 539-5500
Sale of laser rods to the research and industrial markets.

6481 S. 136th Street
Tukwila, Washington 98168
(206) 433-1571

Amecom
5115 Calvert Road
College Park, Maryland 20740
(301) 864-5600
Electronic warfare systems; RF communications systems; shipboard monitor and control systems; integrated communication switching systems for air traffic control; defense telecommunication systems including local area bus networks.

Applied Technology
4747 Hellyer Avenue
P.O. Box 7012
San Jose, California 95150-7012
(408) 365-4747
Threat warning systems; military minicomputers; optical signal processors; spectran analysers; reconnaissance systems; support equipment; simulation, test and training systems; and hybrid microelectronics.

also:

1901 N. Moore Street #908
Arlington, Virginia 22209-1706
(703) 522-2050

Suite 225
4130 Linden Avenue
Dayton, Ohio 45432-3018
(513) 253-3194

1230 N. Carl Vinson Pkwy.
P.O. Box 700
Warner Robins, Georgia 31099
(912) 953-0015

25 Gladedale Drive
Pinner, Middlesex HA5 2PP Great Britain

Theaterplatz 3
D-5300, Bonn 2, West Germany

Clifton Precision
Broadway and Marple Avenues
Clifton Heights, Pennsylvania 19018
(215) 622-1000
Synchros, resolvers, torquers, D.C. motors.

also:

1554 Delmar Drive
Folcroft, Pennsylvania 19032-2102
(215) 622-1000

Union County Industrial Park
Beasley Street
P.O. Box 1399
Blairsville, Georgia 30512-1399
(404) 745-9605

3124 Slow Creek Road
P.O. Box 160
Murphy, North Carolina 28906-0160
(704) 837-5115
Synchros; resolvers; motors; AC & DC fractional horsepower; permanent magnet; stepping; brushless.

Clifton Precision-Instruments & Life Support
2734 Hickory Grove Road
P.O. Box 4508
Davenport, Iowa 52808-4508
(319) 383-4000
Developer of instruments, such as pneumatic & electropneumatic altimeters, Mach air speed indicators and life support equipment, such as liquid oxygen systems (LOX); onboard oxygen generating systems (OBOGS); and nitrogen inerting units (NIU). Also, self-contained cleaning and recharging stations for high pressure containers used in cryogenic cleaning.

Clifton Precision-Special Devices
750 West Sproul Road
Springfield, Pennsylvania 19064-4099
(215) 328-4000
Digital and analog signal conversion, communications interface equipment, aircraft navigation and engine instrumentation, engine performance computers, custom military display systems, radar indicators and distribution systems.

also at:

Route 113
P.O. Box 305
Frederica, Delaware 19946
(302) 335-5465

Core Laboratories, Inc.
1300 E. Rochelle Blvd.
Irving, Texas 75062-3963
(214) 570-5055
Scientific and engineering services to the petroleum industry worldwide.

also:

75 Grosvenor Road
London EC1, England

24-A Lim Tek Boo Road
Singapore 1953
65-2821222/284
0331

1540 25th Avenue, N.E.
Calgary, Alberta T2E 7R2 Canada
(403) 250-5600

Core Research, Inc.
1500 Salado Drive
Suite 101
Mountain View, California 94043-1102
(415) 960-0965
Special core analysis, automated core measurement systems, microprocessor high-pressure pumps.

Data Command Systems
29851 W. Agoura Road
Agoura, California 91301
(818) 991-9660
Systems design, engineering, program management, installation, test and logistics support (maintenance, spares supply and training) for international turn-key command, control and communications systems.

also at:

(Litton Saudi-Arabia Ltd.)
P.O. Box 7949
Jeddah, Saudi Arabia

P.O. Box 7529
Riyadh, Saudi Arabia

Data Images, Inc.
1283 Algoma Road
Ottawa, Ontario K1B 3W7 Canada
(613) 744-3773
Design, manufacture and sale of twisted nematic and dichroic liquid crystal display products.

Data Systems
800 Woodley Avenue
Van Nuys, California
(818) 902-4000
Tactical communications systems, tactical data links, communications control systems, data processing and equipment, ground support equipment, air defense systems, command and control system, data processing and display systems, military recording systems, analog/digital conversion equipment, tactical air support, airborne warning and control, integrated ship control, light emitting diode displays, automatic test equipment.

also at:

425 East Filmore Street
Colorado Springs, Colorado 80907
(303) 473-7220
Fabrication and assembly of electronic equipment and systems.

2460 Waynoka Place
Colorado Springs, Colorado 80915-1612
(303) 591-0071
Microelectronics center, hybrid circuit assembly.

1142 Brownswitch Road
Slidell, Louisiana 70461-9504
(504) 646-2141
Fiber optic engineering center.

1755 Jefferson Davis Highway
#902
Arlington, Virginia 22202-3509
(703) 920-4100

2810 Old Mobile Highway
Pascagoula, Mississippi 39567-3524
(601) 935-1122
Ship electronic system design.

Marketing Representation:
59 bis, rue du bon Pasteur
1140 Brussels, Belgium
32-2-216-8057

Downhole Seismic Service
1500 Fourth Street
P.O. Box 836
Harvey, Louisiana 70059-0836
(504) 393-9770
Downhole geophysical surveys.

also:

3600 Briarpark
P.O. Box 2469
Houston, Texas 77252-2469

Electron Devices
960 Industrial Road
San Carlos, California 94070
(415) 591-8411
Microwave tubes, including magnetrons, traveling wave tubes and klystrons, solid-state microwave oscillators, cathode ray tubes and tube related equipment; basic and applied research in electron devices; image intensifiers, night vision devices.

also at:

1215 S. 52nd Street
Tempe, Arizona 85281
(602) 968-4471
Production of night vision devices.

1035 Westminster
Williamsport, Pennsylvania 17701-3911
(717) 326-3561
Production of magnetrons.

1755 Jefferson Davis Highway
#902
Arlington, Virginia 22202-3509
(703) 920-4100

Encoder
20745 Nordhoff Street
Chatsworth, California 91311
(818) 341-6161
Encoders which provide shaft angle positions to interface with digital computer circuitry or computers in military, industrial and commercial systems.

Eureka X-Ray Tube
325 North Kilpatrick Avenue
Chicago, Illinois 60641
(312) 545-3126
X-ray tubes for medical, dental, industrial and related accessories. Collimators and cassette trays.

Guidance & Control Systems
5500 Canoga Avenue
Woodland Hills, California 91367
(818) 715-4040
Inertial Navigation Systems, Attitude and Heading Reference Systems, Inertial Platforms & Inertial Measurement Systems for all classes of military vehicles. Digital computers for military application in strategic missiles, space, tactical electronic warfare, special display systems, and ships communication and control systems. Special test & other unique support equipment. Production of advanced inertial systems utilizing floated dry-tuned rotor, laser gyros employing either gimballed/isolated instruments or in strapdown application. Advanced research and development in inertial systems and sensors including laser and fiber optic techniques. R&D/Production of ships control systems including propulsion, steering, and auxiliary control subsystems and bridge control systems and equipment.

also at:

1001 Redwood Highway Spur
Grants Pass, Oregon 97526
(503) 479-7541
Assembly of electronic printed circuits and components for inertial navigation systems.

2211 W. No. Temple
Salt Lake City, Utah 84116
(80) 539-1200
Fabrication assembly and test of electronic equipment for inertial navigation systems and other electronic components.

Marketing representation:
325 Hospitality Lane
Suite 106
San Bernardino, California 92408-3210
(714) 381-7402

490 L'Enfant Plaza East S.W., Washington D.C. 20024-2179
(202) 554-2570

333 West First Street
Dayton, Ohio 45402-3044
(513) 223-3285

Industrial Automation Systems Group
7300 Turfway Road #410
Florence, Kentucky 41042-1863
(606) 283-2202
Total manufacturing and support services for the implementation of automated manufacturing systems, advanced material handling systems, warehousing systems, machine tools and state-of-the-art controls.

Automated Systems
2200 Litton Lane
P.O. Box 179
Hebron, Kentucky 41048-0179
Automated storage and retrieval systems, flexible assembly systems and integrated material handling systems.

also:

280 East Riley Street
Zeeland, Michigan 49464-9786
(616) 772-6321
Driverless, automatically guided material handling vehicles.

Diamond & CBN Products
121 Industrial Parkway
P.O. Box 84
Chardon, Ohio 44024-0084
(216) 285-9181
Manufactures industrial diamond products including diamond dressing tools, polycrystalline diamond and CBN cutting tools, diamond and CBN wheels and diamond rotary and block form dressers.

Disc Grinders & Abrasives
481 Gardner Street
South Beloit, Illinois 61080-1394
(815) 389-2251
Disc grinders, surface grinders, abrasive disc wheels and disc grinding systems.

also:

Rt. #6, Bellwood Road
P.O. Box 969
Calhoun, Georgia 30701-0969
(404) 625-1270
Production of grinding wheels.

Engineered Systems
7100 Industrial Road
Florence, Kentucky 41042-2906
(606) 525-5700
Flexible machining systems; engineered conveyor systems; unit handling and overhead conveyor systems and equipment.

Grinding Machines
East Sixth Street
Waynesboro, Pennsylvania 17268-9990
(717) 762-2161
Precision cylindrical production grinding machines and systems.

Grinding Machines-United Kingdom
(Division of Litton U.K. Ltd.)
Cross Hills, Keighley
W. Yorkshire BD20 7SD England
Precision cylindrical production grinding machines and grinding machine systems.

Identification Products-U.S.
7900 Tanners Gate
Florence, Kentucky 41042-1863
(606) 283-2202

also:

6750 Belt Circle Drive
Bedford Park, Illinois 60638-4792
(312) 585-0541
Printed and die cut self-adhesive labels. Retail stock control and identification systems, including integrated data processing equipment and supplies for punched holes, OCR, and optical marked recognition tickets. Machines for producing punched holes. OCR tags and labels and bar code tags and labels. Electronic tag reading equipment. Stock inventory of data processing labels, file cards, and rotary index cards.

151 Cortland Street
Belleville, New Jersey 07109-9962
(201) 759-6500
Product identification tags, multipart airline baggage tags and various transportation tags and labels. Bar code laser scanner and on-demand small baggage tag bar code printers.

Identification Products-Canada
85 Advance Road
Toronto, Ontario M8Z 2S9 Canada
(416) 233-1135
Tickets, tags, labels and imprinters for industrial, retail, and OCR applications. Bar code printers.

Identification Products-Europe
Gubelstrasse 28
Ch-8050 Zurich, Switzerland
Headquarters for identification products in Europe.

Identification Products-Great Britain
Six Totman Crescent
Weir Industrial Estate
GB-Rayleigh, Essex SS6 7SB England
Manufacturing and sales of printed tags and labels, overprinters and label applicators and bar code printers.

Identification Products-Holland
Marconistraat 7
P.O. Box 70
NL-6900 AB Zevenaar, Netherlands
Famos thermal and matrix marking machines. Labels of self-adhesive and thermal paper, cardboard, P.V.C. and thermal tags. Automated label applicators and bar code based systems.

Integrated Systems
2300 Litton Lane
Hebron, Kentucky 41408-9645
Technologies for evaluation and implementation of computer-integrated manufacturing processes.

also:

5825 Oberlin Drive
San Diego, California 92121-3702
(619) 587-0040
System software for automated storage and retrieval, flexible assembly and flexible manufacturing systems.

Machining Centers
12302 Kirby Avenue
Cleveland, Ohio 44108-1687
Machining centers; boring, milling and drilling machines (horizontal); largely equipped with numerical controls; flexible manufacturing systems.

Turning Machines
P.O. Box 2200
South Street
New Britain, Connecticut 06050-2200
(203) 229-1641
Flexible manufacturing systems, multiple spindle automatic bar machines, multiple spindle automatic chucking machines, twin and single spindle vertical and horizontal numerically controlled chucking machines, vertical and horizontal precision contour boring and turning machines, and surface grinding and honing machines.

Unit Handling Systems
2100 Litton Lane
P.O. Box 10
Hebron, Kentucky 41048-0010
(606) 334-2400
Conveyor products and systems.

also:

P.O. Drawer 1969
1316 North Long Street
Salisbury, North Carolina 28145-1969
(704) 636-3041
High-speed process conveyor for the food and beverage industries.

3101 Old Haynsville Road
P.O. Drawer 177
Montgomery, Alabama 36195-6101
(205) 269-2355
Palletizers and depalletizers.

Ingalls Shipbuilding
1000 West River Road
P.O. Box 149
Pascagoula, Mississippi 39568
(601) 935-1122
New construction of naval and commercial ships; rail cars, oil rigs and platforms and other industrial products; advanced naval and commercial ship design; engineering and systems analysis.

also at:

2711 South Jefferson Davis Highway
Suite 1200
Arlington, Virginia 22202
(703) 979-0300

Interconnection Products
(Division of Litton U.K. Ltd.)
71B Whitecraigs Road
Whitehill Industrial Estate
Glenrothes, Fife KY7 5PR Scotland

Inter-Pak Electronics (Advanced Circuitry)
2500 Airport Commerce Center
P.O. Box 2847
Springfield, Missouri 65803
(417) 869-3933
Press fit printed wiring backpanels; pinned assemblies; back panels (press fit pin); circuit boards, printed, single-sided, double-sided, multi-layer.

Itek Encoder
27 Christiana Street
Newton, Massachusetts 02164-1596
(617) 969-7300
High accuracy, high resolution shaft angle position encoders for military tracking systems, fire control systems, space vehicle applications and precision industrial applications.

Itek Optical Systems
10 Maguire Road
Lexington, Massachusetts 02173-3199
(617) 276-2000
Optical and electro-optical systems for reconnaissance and surveillance in both strategic and tactical military applications. Geodetic systems including space and airborne mapping and multi-spectral sensors, exploitation equipment and services. Advanced technology in image acquisition and exploitation.
Telecopier Xerox 400(617) 276-3306

Area of Work: Designs, develops and manufactures electronics products including systems and components for airborne and shipboard self-protection, antisubmarine warfare, scene correlation guidance and target recognition including high-resolution imaging, C3 (command, control, communications) reconnaissance, and simulation for military training.

Divisions and Subsidiaries:

Loral Systems Group

Loral Defense Systems-Akron
1210 Massillon Road
Akron, Ohio 44315
(216) 796-4929
Manufactures undersea warfare systems; tactical ordnance systems; guidance & control systems; digital data processors; recovery and retardation systems; simulators and trainers.

Loral Defense Systems-Arizona
100 South Litchfield Rd.
Goodyear, Arizona 85340-0085
(602) 925-7000
Manufactures synthetic aperture airborne reconnaissance systems; radar systems; guidance & control systems; simulators & trainers; geoscience mapping services; target recognition image processor, missile ground support, transport & launch systems; shelters; transparent plastic products.

Loral Engineered Fabrics
669 Goodyear St.
P.O. Box 548
Rockmart, Georgia 30153
(404) 684-7855
Manufactures aircraft and ground vehicle fuel tanks; crashworthy fuel tanks; self-sealing coatings for fuel tanks & lines; fire-retardant foams for fuel tanks; fabric tanks for fuel storage; erosion coatings & cements; special purpose coated fabric products; electric aircraft ice protection equipment.

Loral Aircraft Braking Systems
1210 Massillon Rd.
Akron, Ohio 44315
(216) 796-4929
Manufactures wheels, brakes & brake friction materials; skid control systems; brake temperature monitoring systems; helicopter rotor brakes; industrial and special purpose wheels and brakes.

Loral Electronic Systems
Ridge Hill
Yonkers, New York 10710
(914) 968-2500
Develops and manufactures airborne radar warning receivers, self-protection systems, electronic surveillance systems, targeting systems, electronic environment simulators.

Loral Conic
9020 Balboa Avenue
San Diego, California 92123
(714) 279-0411
Supplies telemetry equipment for military applications.

Loral Randtron Systems
130 Constitution Drive
Menlo Park, California 94025
(415) 326-9500
Advanced microwave antenna assemblies.

Loral International
999 Central Park Avenue
Yonkers, New York 10704
(914) 964-6534
Systems design and foreign marketing.

Loral Rolm Mil-Spec Computers
One River Oaks Place
San Jose, California 95134
(408) 432-8000
Militarized computers and software for defense electronic systems in shipboard, airborne, and ground-based applications.

Loral Electro-Optical Systems
P.O. Box 7101
300 North Halstead Street
Pasadena, California 01109
(818) 351-3555
Infrared countermeasures, laser-based simulation systems for military training, electro-optical devices, space power sub-systems.

Loral Instrumentation
8401 Aero Drive
San Diego, California 92123
(619) 560-8260
Data acquisition and analysis systems for real time applications.

Loral Information Display Systems
6765 Peachtree Industrial Boulevard
Atlanta, Georgia 30360
(404) 448-1604
Information and graphic display systems.

Narda Microwave
435 Moreland Road
Hauppauge, New York 11788
(516) 231-1700
Passive and active microwave components, integrated microwave assemblies, test equipment.

Narda Microwave Western Operation
214 Devcon Drive
San Jose, California 95112
(408) 995-0600
Passive and active microwave components, GaAs FET semiconductors, integrated assemblies.

Frequency Sources
16 Maple Road
Chelmsford, Massachusetts 01824
(617) 256-4113
Passive and active microwave components, specialized semiconductors, integrated assemblies.

Frequency West
1841 Zanker Road
San Jose, California 94112
(408) 436-4500
Microwave signal sources, dielectric resonator oscillators, integrated assemblies for the telecommunications industry.

Loral Terracom
9020 Balboa Avenue
San Diego, California 92123
(619) 278-4100
Portable microwave and high-frequency tactical radios.

Loral American Beryllium
P.O. Box 117
Tallevast, Florida 34270
(813) 355-5105
Precision-machined exotic metals for aerospace and energy applications.

Loral Hycor
North Woburn Industrial Park
Woburn, Massachusetts 01801
(617) 935-5950
Radar and infrared expendable countermeasures systems for shipboard and aircraft defense.

Wavecom
9036 Winnetka Avenue
Northridge, California 91324
(818) 882-3010
High-reliability microwave filters, electro-mechanical switches, and components for satellite applications.

Goodyear Aerospace Corporation
1210 Massillon Road
Akron, Ohio 44306
(216) 796-2121
Products include civil and military aviation landing gear products, weapons systems which utilize miniaturized digital computers, and micro-processors for undersea warfare as well as missile guidance. Also involved in the improvement of existing airborne radar systems and the manufacture of a radar recording device for use in NASA's space shuttle program.

Low & Bonar PLC

Bonar House
Faraday Street
Dundee DD1 9JA Scotland
0382 818171

Directors: Sir Dermot de Trafford, chairman; R. J. Jarvis, managing & group chief executive; G. C. Bonar, B. H. Lewis, W. L. Telfer, finance & deputy group chief executives; Sir Jack Stewart-Clark, M. G. T. Long, secretary; W. H. Jones, chief executive-UK/Europe Packaging Division; J. W. Leng, chief executive-UK/Europe Plastics Division; N. Jones, chief executive-Textiles Division; R. Young, chief executive-Electronics Division; G. R. McKenzie, president-Bonar Inc.; L. A. Williams, chief executive-Africa Division; H. E. Levy, director of new ventures, Low & Bonar UK Limited; N. D. McLeod, deputy group finance director.

Areas of Work: In the electronics area, the Company manufactures products in the areas of power supplies, instrumentation, control systems, and remote switching equipment.

The Company provides very specialized power supplies to applications such as ion implanters, electron microscopes, laser and aircraft cockpit displays systems; designs and manufactures high specification, low voltage, electronic power supplies; and manufactures high performance custom power supplies for applications such as telephone exchanges and cellular radio installations.

In the instrumentation area, the Company manufactures a wide range of analog and digital recorders and plotters, together with digital storage oscilloscopes.

In the control systems and remote switching equipment areas, the Company produces remote switching equipment for fighting ships, including submarines, and fault tolerant computing systems for process control applications.

Other Company activities include the production of packaging products, plastics and textile products.

* Member of the Executive Committee

Areas of Work: A multi-industry operating company involved in steel, aerospace/defense and energy products. It is a primary supplier of steel products to the automotive, appliance and construction industries; missiles, aircraft components, tactical wheeled vehicles and electronics to the defense and commercial aerospace markets, and tubular products, oil field supplies, and drilling and production equipment to the petroleum industry.

Divisions and Subsidiaries:

LTV Energy Products Company

Continental-Emsco Company

Product line includes a complete range of drilling equipment such as derricks, drawworks, mud pumps, swivels, blocks, rotary machines and other complementary equipment for landbased and offshore rigs, surface and subsurface production equipment and slurry pumping equipment. Also manufacturers marine transfer systems used to load and unload large volumes of petroleum products to and from oil tankers.

LTV Aerospace & Defense Company

Vought Aero Products Division
P.O. Box 5907
Dallas, Texas 75222
(214) 742-9555

Primarily engaged in the design, development and production of military aircraft, commercial aircraft components, missiles, space launch vehicles and other aerospace products, and in furnishing related administrative and technical support services. Also engaged in the research, design, and development of surface transportation systems.

AM General Corporation

Manufactures a High Mobility Multi-purpose Wheeled Vehicle, known as the Hummer, and the M939 heavy-duty 5-ton truck, for sale to the U.S. Army and foreign militaries.

Sierra Research Division
247 Cayuga Road
Buffalo, New York 14225
(716) 631-6200

Designs, develops, and manufactures highly advanced computer-controlled electronic systems for a wide range of applications in both government and industry, including radar, data transmission, aircraft navigation, and factory data collection.

LTV Steel Company, Inc.

Jones & Laughlin Steel Corporation
3 Gateway Center
Pittsburgh, Pennsylvania 15263
(412) 565-3240

Fully integrated steel producer offering a diversified line of carbon steel products which includes hot and cold rolled sheet, tin mill and other flat rolled coated products, light plates and structural shapes and the mining of iron ore. Youngstown Sheet & Tube Company operations complement those of Jones & Laughlin.

McPhee, asst. treasurer; Ralph V. G. Bakkeman, asst. secretary & associate corp. counsel; Richard B. Hart, asst. secretary & associate corp. counsel.

Directors: Frank A. Brand, Thomas F. Burke, Venancio G. Chipas, Richard T. DiBona, Nelson S. Gifford, Irving J. Heiman, George N. Hutton, Jr., George Ingram, Sidney S. Kahn, Robert E. LaBlanc, James D. Meindl, E. James Morton, William F. Pounds, John G. Puente, Paul E. Tsongas.

Areas of Work: Manufactures microwave and millimeter wave components and integrated assemblies, utilizing advanced microwave and semiconductor technology, for defense applications in radar, electronic warfare, missile guidance and communications systems. Digital equipment and software are manufactured by the Company for defense applications principally in satellite systems. The Company also manufactures microwave transmission equipment for commercial terrestial communication applications.

Divisions and Subsidiaries:

M/A-COM Semiconductor Division
Silicon and gallium arsenide RF, microwave and millimeter wave diodes, transistors and monolithic integrated circuits.
M/A-COM Semiconductor Operation
M/A-COM Power Hybrid Operation
M/A-COM Advanced Semiconductor Operation

M/A-COM Solid State Circuits Division
Microwave detectors, mixers, control circuits and modules.

M/A-COM Radar Products Division
Microwave and millimeter components: ferrite components, control assemblies and components, waveguide components and magnetron tubes.

M/A-COM General Products Division
Microwave connectors and adaptors, stripline and coaxial passive components, electromechanical switches.
M/A-COM Component Operation
M/A-COM Interconnect Operation
M/A-COM Puerto Rico, Inc.

M/A-COM, Ltd.
Microwave semiconductors, passive components, discrete devices and subsystems for the international market.
Microwave Associates, Ltd.
Omni Spectra, Ltd.

M/A-COM Active Assemblies Division
Amplifiers, oscillators and subsystems for defense applications operating in the 1 GHZ to 20 GHZ range.

M/A-COM Subsystems Division
High power solid state amplifiers and complex, multifunction assemblies and subsystems for defense electronic warfare, missile guidance and radar systems.
M/A-COM Radar Subsystems Operation
M/A-COM Missile Subsystems Operation
M/A-COM EW Subsystems Operation

M/A-COM Government Systems Division
Digital and secure equipment and software for defense communications networks.

M/A-COM MAC Division
Point-to-point analog transmission equipment for the broadcast and private communications market, microwave radios for very small aperture earth stations.

M/A-COM Corporate Technology Center
Development of advanced microwave technology, subassemblies, antenna arrays.

M/A-COM MDM Operation

M/A-COM Corporate Marketing
Worldwide marketing network.

M/A-COM Government Relations
Activities in research and development, public policy and defense technology issues.

Areas of Work: The Company's Astronautics Group is engaged in the design, development, engineering and production of space launch vehicles, spacecraft, space-and ground-based strategic systems, the Space Shuttle External Tanks, and associated electronics and instrumentation.

The Electronics & Missiles Group is engaged in the design, development, engineering, and production of missiles and missile launching systems; electronic systems for precision guidance and air defense programs; electro-optical target acquisition, designation, and navigation systems; under-

ion systems; ordnance; and aircraft components manufacturing and assembly.

The Information Systems Group is engaged in the design, integration, and servicing of a broad range of information management and engineering systems, combining high-speed communications and information processing for such purposes as command, control, and communications; air traffic control; telecommunications; and integrated communications networks.

The Materials Group consists of aggregates operations principally engaged in producing and selling crushed stone and gravel, primarily for highway and general construction and railroad ballast; and magnesia specialties operations, which produce and sell refractory materials and other magnesia products used in steel production, chemical processing, and various industrial applications.

Officers: Ted Valpey, Jr., chairman & chief exec. officer; Neil S. Bernstein, president & chief operating officer; Michael J. Kroll, v. p. & treasurer; John J. McArdle, III, secretary.

Directors: Ted Valpey, Jr., chairman; Neil S. Bernstein, Richard Damon, Eli Fleisher, Robert B. Gill, Lawrence Holsborg, John D. Hunt, Joseph Tiberio, Robert W. Valpey.

Areas of Work: Operates in three industry segments: Steel Cable, Electronics, and Diffusion Coating

Subsidiaries:

Alloy Surfaces Company, Inc.
100 Locke Road
Wilmington, Delaware 19809
(302) 792-8900
Application of corrosion-resistant coatings to gas turbine engines; production of proprietary specialty chemicals sold to gas turbine engine manufacturers; production of pyrophoric materials for military countermeasure application.

Bergen Cable Technologies, Inc.
Gregg Street
Lodi, New Jersey 07644
(201) 487-3521
Manufacturers mechanical cable and cable assemblies.

Crystal Biotech, Inc.
New Englander Industrial Park
Holliston, Massachusetts 01746
(617) 429-5977
Designs and produces ultrasonic doppler systems for measuring blood flow in research and clinical applications.

Fiberoptic Fabrications, Inc.
56 Hudson Street
Northboro, Massachusetts 01532
(617) 393-3753
Produces a wide variety of custom-built fiberoptic components for industrial, medical, military and scientific customers.

Metric Instruments, Inc.
75 South Street
Hopkinton, Massachusetts 01748
(617) 435-9039
Designs and manufactures high-powered pulsed radio frequency (RF) instruments.

MEKontrol, Inc.
56 Hudson Street
Northboro, Massachusetts 01532
(617) 393-2451
Designs and manufactures photoelectric controls.

Valpey-Fisher Corporation
Frequency Control Division
75 South Street
Hopkinton, Massachusetts 01748
(617) 435-6831
Manufactures quartz crystals and crystal oscillators.

Valpey-Fisher Corporation
Ultrasound Division
75 South Street
Hopkinton, Massachusetts 01748
(617) 435-6831
Fabricates a broad range of piezoelectric components for industrial, medical, military and research applications.

Affiliates

Sawyer Research Products, Inc. (34.2% interest)
Produces single crystal cultured quartz used extensively in electronic and optional applications.

Officers: Sheldon Weinig, chairman, president & chief executive officer; Garrett E. Pierce, exec. v.p., treasurer & chief financial officer; Nancy M. Jakobs, v.p.; Melvin H. Lipton, v.p.; Daniel F. Yorke, v.p.; Frank Shemanman, v.p.; Thomas S. Catalano, v.p. & controller; Herbert Stoller, secretary.

Directors: Sheldon Weinig, Herbert Stoller, Joseph C. Abeles, Luther H. Hodges, Jr., Edward E. David, Jr., Robert E. Davis, Garrett E. Pierce.

Areas of Work: Supplies high purity metals, ceramics, sputtering and etching equipment to the electronics and telecommunications industries.

Divisions:

Advanced Materials Division
Refines and fabricates high purity metals and alloys into the forms required for industrial thin-film application.

Hybrid Products Division
Manufactures highest purity ceramic substrates for such hybrid circuit applications as microwaves and telecommunications.

Process Equipment Division
Designs, develops and manufactures thin film deposition and etching equipment (sputtering equipment).

Micom Systems, Inc.

4100 Los Angeles Avenue
P.O. Box 8100
Simi Valley, California 93062-8100
(805) 583-8600

Officers: William A. Norred, chairman; Roger L. Evans, president & chief executive officer; Christoper G. Kember, v.p.-marketing; Gilbert Cabral, v.p.-manufacturing; Michael E. Barker, v.p. & pres.-MICOM-Interlan, Inc.; Raymond V. Thomas, v.p.-finance & administration, chief financial officer & secretary; Alexander W. Saunders, v.p.-product operations; Robert A. Weaver, v.p.-industry relations; Roger D. Shober, v.p. & pres.-sales division.

Directors: William A. Norred, chairman; Roger L. Evans, David M. Goodenan, Francis F. Lucier, Thomas F. Stephenson, Sally B. Thornton, John M. Thornton, Charles P. Waite, Bertram H. Witham.

Areas of Work: The company is a leading producer of micro-computer-based data communications products. MICOM's products enable its customers, primarily mini-computer users, to move economically and efficiently communicate data among computer terminals and computers. The products are in three major categories: remote communication applications, where data are transmitted primarily over leased telephone lines; local network applications, where terminals and their host computers are located within a building or complex of buildings; and cabling sales of low-cost data communications devices.

Microsemi Corporation

2830 South Fairview Street
Santa Ana, California 92704
(714) 979-8220

Officers: Philip Frey, Jr., chairman of the board, president & chief exec. officer; Richard L. Geiger, vice chairman of the board; Jiri Sanders, v.p.-engineering; David R. Sonksen, v.p.-finance, chief financial officer, treasurer & secretary.

Directors: Richard L. Geiger, chairman; Philip Frey, Jr., Lester Kilpatrick, Jiri Sanders, Fred Burns, Brad Davidson, Herman Fialkov.

Areas of Work: The Company designs and manufactures a broad line of discrete semiconductors and other electronic component products and provides related services principally for military, aerospace, medical, computer, telecommunications and other electronics markets. Major products are silicon rectifiers, zener diodes, low leakage and high voltage diodes, temperature compensated zener diodes and a family of subminiature high power transient suppressor diodes.

Subsidiaries:

Microsemiconductor Ltd.
Hong Kong
Manufacturer of semiconductor products.

Microsemi Corp.- Scottsdale
Scottsdale, Arizona

Microcap, Inc.
San Diego, California
Manufacture of multilayer ceramic capacitors.

Semcon Electronics Ltd.
Bombay, India

Bikor Corporation
Torrance, California
Manufactures power supplies for the telecommunications industry.

Acquisitions:

Hybrid Components, Inc.
Beverly, Massachusetts
Screens and tests components.

Omni Technology Corporation
Fremont, California
Screens and tests components.

Salem Scientific, Inc.
Salem, Massachusetts
Distributes specialty semiconductor dice.

Vitrarel Microelectronics, Inc. (60% owned)
San Diego, California
Manufactures microelectronic hybrid circuits.

Coors Components, Inc.
Golden, Colorado
Manufactures and markets power semiconductors.

Areas of Work: The Company's operations are organized into four sectors: Industrial and Electronic; Information and Imaging Technologies; Life Sciences; and Commerical and Consumer.

Operating Units

INDUSTRIAL AND ELECTRONIC

Abrasives, Cleaning Products and Industrial Minerals Group
Principal products include pressure-sensitive tapes; coated abrasives; low-density abrasives, adhesives, coatings and sealants; fluorochemicals; specialty films and chemicals; roofing granules; fastening systems; floor pads; floor maintenance products; non-slip surfacing materials; advanced ceramic materials; energy control products; decorative marking films; tape dispensing/application equipment; electric/electronic connectors; wiring and cabling products; insulating and conductive materials; flame-retardant materials; shielding and protective products; test and measuring products; and fiber-optic products and systems.
Chemicals, Film and Allied Products Group
Electro-Telecommunications Group
Tape and Automotive Group

INFORMATION AND IMAGING TECHNOLOGIES

Audio Visual and Commercial Graphics Group
Principal products include lithographic plates and films; color proofing systems; photographic films; x-ray films and screens; overhead projection systems; graphic film materials; digital image processing systems; micrographic products; audio, video and computer tapes; diskettes and data cartridges; dry silver films; and laser-based optical media.
Imaging Systems Group
Memory Technologies Group

LIFE SCIENCES

Health Care Group
Principal products include disposable diaper closures; garment insulation and specialty fabrics; respiratory protection products; traffic control materials and systems; surveillance and monitoring devices; security films; filtration systems; optical components; pharmaceuticals; surgical drapes and masks; tapes and dressings; wound closures; vision care products; casting materials; powered surgical instruments; dental materials; orthodontic products; electrodes; heart-lung machines; oxygenators; intravenous infusion systems; drug-delivery components; infection control products; electronic pain control devices; animal care products; diagnostic products; health information systems; surgical prepping solutions; skin and internal staplers; and stethoscopes.
Traffic and Personal Safety Products Group

COMMERCIAL AND CONSUMER

Advertising Services Group
Principal products include household cleaning devices; chemical cleaners and protectors; window insulating systems; caulks; pressure-sensitive tapes; repositionable paper products; carbonless papers; coated abrasives; personal care products; outdoor advertising; print media advertising; shopping mall directories; computer software for publishers; and music/messaging systems.
Commercial Markets Group
Consumer Products Group

Areas of Work: The company manufactures products and supplies services in the following areas: electronics, metal fabrication, and utility products.

Divisions:

Electronics Group
Piggott, Arkansas
Manufactures high quality printed circuit boards and a wide variety of electronic assemblies.

Utility Products Group
Hoffman, Illinois
Manufactures and sells a line of mobile power equipment containing electrical generating capacity and other support equipment used by underground utility system construction and maintenance crews and also manufactures asphalt paving equipment.

Metal Fabrication Group
St. Charles, Mississippi
Performs general job shop fabrication services involving machining, welding, and sheetmetal forming operations.

Acquisition:

Stewart Equipment Company
Manufactures Asphalt Pavers.

Transfer Agent(s):

Ameritrust Company
Cleveland, Ohio

Mitsubishi Electric Corporation

Mitsubishi Denki Building
2-3, Marunouchi 2-chome
Chiyoda-ku, Tokyo 100, Japan
(03) 218-2111

Officers: Nihachiro Katayama, chairman; Moriya Shiki, president; Shinichi Yufu, exec. v.p. & gen. mgr.-International Operations Group; Fukuichi Hirose, exec. v.p. & gen. mgr.-marketing; Yasuo Endo, exec. v.p. & gen. mgr.-Information and Communications Systems Group; Bujiro Kobayashi, sr. managing director & gen. mgr.-Electronic Devices Group; Kunikazu Sakata, sr. managing director & gen. mgr.-corp. strategic planning office; Hisao Oka, sr. managing director & gen. mgr.-research & development; Hideo Mori, sr. managing director; Hiroshi Morikawa, managing director & gen. mgr.-Electronic Products and Systems Group; Akimi Kamiya, managing director & gen. mgr.-Consumer Products Group; Takashi Kai, managing director & gen. mgr.-Energy and Industry Systems Group; Koichi Ando, managing director & gen. mgr.-Kansai Branch Office; Junnoke Amano, managing director; Tsuyoshi Haruta, managing director; Yohei Mimura, director; Yoshimasa Yonemura, deputy gen. mgr.-Information and Communication Systems Group; Ratio Sakai, gen. mgr.-Personnel Affairs and Labor Relations Dept.; Sensuo Mokiti, deputy gen. mgr.-Consumer Products Group; Takashi Aita, deputy gen. mgr.-Electronic Products and Systems Group; Kazuhiro Ihara, deputy gen. mgr.-International Operations Group; Tetsuo Tokuchi, deputy gen. mgr.-Energy and Industry Systems Group; Takashi Kitaoka, gen. mgr.-Kita-Itami Works; Keijiro Ikeda, gen. mgr.-Communications Equipment Works; Hajime Okamoto, gen. mgr.-Itami Works; Toshio Ito, gen. mgr.-Central Research Laboratory and Manufacturing Development Lab.; Tadao Amakasu, gen. mgr.-Power and Industrial Systems Center; Kenzo Shimozuma, gen. mgr.-Kyoto Works.

Areas of Work: Communication and Information Processing products include mobile telephone systems and equipment; information network systems and equipment; radar and guidance systems; computers; peripherals, including flexible- and hard-disk drives, printers, and CRT display monitors; terminals, including POS systems and facsimile transceivers; and Diamond Vision and Diamond Vision Mark II.

Electronic Devices include ICs, LSIs, and VLSIs; power semiconductor devices; optical semiconductor devices; transistors and diodes.

Consumer Products include color and projection TVs, VCRs, radios, tape recorders, stereo sets, amplifiers, turntables, speaker systems, and CD players; room and central air conditioners, clean heaters, fan heaters, ventilators, and electric fans; refrigerators, microwave ovens, rice cookers, tabletop grills, toasters, juicers, and blenders; washing machines, clothes dryers, water heaters, bedding air-dryers, electric irons, vacuum cleaners, and centralized vacuum-cleaning systems; electric shavers, hair dryers, and other personal-care electric aids, and dry-cell batteries; fluorescent and mercury-vapor lamps and luminaires.

Space Development products include satellite-communication systems and equipment; and satellite spacecraft and attitude-control systems; Energy products include generators -- steam-turbine, hydroturbine, diesel, motor, high-frequency, AC, and DC types; nuclear-power equipment; and substations -- transformers, rectifiers, circuit breakers, gas-insulated substations, switchgear, surge arresters, control centers, controllers, uninterruptible power supplies, blowers, modular- and mobile-type substations, and other static machines.

Building Equipment and Systems include elevators, escalators, moving walks, building automation systems, service modules for buildings, and air-conditioning, refrigeration and freezing equipment.

Transportation products include electric-propulsion equipment -- traction motors, main drive gears, traction-control gears, main transformers, rectifiers, main alternators, and VVVF inverters; electric locomotives; rail-system auxiliary electrical equipment; automatic train-control equipment; train air-conditioning equipment; and electrical automotive equipment.

Industrial Equipment includes motors -- small and medium-sized, standard AC and DC, specialized, geared, and submersible types; magnetic contactors and starters, programmable controllers, inverters, electromagnetic clutches and brakes; molded-case circuit breakers, air and vacuum circuit breakers, watthour meters, industrial time switches, electric meters, instrument transformers, and distribution transformers; welding equipment, electrical-discharge machines, laser processing machines, NC equipment, and industrial robots; specialized alloys, ferrite products, life preservers, rafts and boats, and spiral escape chutes; industrial blowers and fans, hoists, pumps, and industrial sewing machines; palm-recognition systems, Linacs, and water-quality monitoring systems; and digital-audio recorders.

Areas of Work Engaged in the worldwide manufacture and sale of a widely diversified line of chemical and agricultural products, prescription pharmaceuticals, low caloric sweeteners, industrial process control equipment, man-made fibers, plastics, and electronic materials. In the electronics field, the Company manufactures silicon materials, semi-conductor materials, process controls, develops and produces power sources for the Atomic Energy Commission, space programs, the life sciences and oceanographic research.

Operating Units:

Monsanto Agricultural Company
Monsanto Chemical Company
Monsanto Electronic Materials Company
Fisher Controls International, Inc.
G.D. Searle & Co.
The NutraSweet Company

Electronics & Related Subsidiaries:

Fisher Controls International, Inc.
Manufactures and markets process measurement and control equipment.

Monsanto Enviro-Chem Systems, Inc.
Develops and markets engineered chemical facilities and pollution abatement systems.

Monsanto Research Corporation
Conducts research for government agencies and for Monsanto; produces nuclear sources; operates a government-owned laboratory for the Atomic Energy Commission.

Monsanto do Brasil, S.A.
Manufactures rubber chemical, phosphates and process control equipment.

Monsanto Electronics
Sendirian Berhad, Malaysia
Processes silicon wafers from slicing through polishing.

Kemp Company of Maryland
Designs and manufactures gas processing equipment.

Moog Inc.

East Aurora, New York 14052
(716) 652-2000

Officers: William C. Moog, president & chairman; Jerald D. Bidlack, v.p. & pres.-International Group; Richard A. Aubrecht, admin. v.p. & secretary; Robert T. Brady, v.p. & president-Aerospace Group; Robert R. Banta, v.p.-finance; Daniel C. Clark, v.p. & president-Industrial Controls Group; Kenneth D. Garnjost, v.p.-engineering; Joe C. Green, v.p.-human resources; Robert H. Maskrey, v.p.; William J. Thayer, v.p.; William P. Burke, treasurer.

Directors: William C. Moog, Jerald D. Bidlack, Jane B. Moog, Kenneth J. McIlraith, Arthur S. Wolcott, Joe C. Green, Richard A. Aubrecht, Peter P. Poth, Steven B. Sample, Robert T. Brady, William B. Cutting, Director Emeritus.

Areas of Work: Manufactures advanced controls and control systems which utilize high performance servovalves for industrial and aerospace applications.

Divisions:

Industrial Controls Group
Manufactures electrohydraulic controls for the guidance systems of space boosters, missiles, and aircraft. For industrial markets, produces controls for machine tools, computer memory access systems, construction equipment, plastic molding equipment, and other process control systems.

Electronic Motion Controls Division
Manufactures and markets electronic motion controls products.

International Controls Division
Identifies and develops markets outside North America for precision control components and systems.

Aerospace Group

Missile Systems Division
Supplier of servovalves for missiles.

Aircraft Controls Division
Manufactures various types of servoactivators, hydromechanical control systems and helicopter products.

Space Products Division
Produces components for propulsion systems to control flight path.

Engine Controls Division

Electronics & Systems Division
Product lines include plastic controls, secure radio controls, custom control systems, and specialized electronics assemblies.

Automotive Systems Division

Johnston, Jr., group v.p.-salt; Robert B. Covalt, group v.p.-chemicals; John R. Bowen, v.p.-finance & treasurer; Perry R. Grace, v.p.-management information and services; Hugh C. Marx, v.p.-human resources; James A. Robertson, v.p.-government relations; Thomas S. Russell, v.p.-corp. development & strategic planning; James R. Stanley, v.p.-legal affairs & general counsel; Thomas F. McDevitt, controller; P. Michael Phelps, secretary.

Directors: Charles S. Locke, chairman of the board; Ralph M. Barford, William T. Creson, Dennis C. Fill, Everett A. Gilmour, Robert C. Hyndman, Robert T. Marsh, Neil McKay, Barry J. Shillito, S. Jay Stewart, A. Dean Swift, Harry H. Wetzel.

Areas of Work: The Company operates in three business segments: aerospace, specialty chemicals, and salt.

The aerospace segment consists of propulsion and ordnance products and services performed principally under contracts and subcontracts with various U.S. government agencies and aerospace prime contractors. Propulsion includes research, development, and production of solid propellant rocket motors systems for space vehicles, such as the Space Shuttle (booster motors); to position satellites in orbit; for strategic missiles, such as the Trident (submarine launched) and Peacekeeper; and for tactical missiles, such as the Maverick, Sidewinder and HARM.

This propulsion technology has also been applied in the manufacture of gas generators for use in automobile passive restraint systems. Ordnance includes the development and production of air-dropped flares, ground-launched flares, munitions simulators for training, and conventional artillery munitions. Services include launch and recovery operations for the Space Shuttle.

The specialty chemical segment manufactures high technology chemical products for a wide variety of customer applications. The largest product group consists of laminating adhesives and coatings designed primarily for use in the manufacture of food packaging materials from paper, film and foil. The second largest group consists of chemicals for the electronics market, including principally dry film photoresists and curable screen resists used as part of a process to imprint patterns onto printed circuit boards and semiconductors (silicon chips).

The salt segment produces and sells salt principally in the U.S. and Canada under the MORTON and WINDSOR trademarks, for human and animal consumption, water conditioning, and highway ice melting, as well as for industrial and chemical uses.

Areas of Work: Engaged in the design, manufacture and sale of a diversified line of electronic equipment and components, including two-way radios and other forms of electronic communication systems; semi-conductors, including integrated circuits, discrete semiconductors, and microprocessor units; information systems products such as multifunction computer systems, low, medium and high speed modems, multiplexers and network processors and multifunction computer systems for distributed data processing and office automation applications; electronic equipment for military and aerospace use; electronic engine controls; digital appliance controls, automobile radios and other automotive and industrial electronic equipment.

Divisions:

Automotive and Industrial Electronics Group
1299 East Algonquin Road
Schaumburg, Illinois 60196
(312) 397-8000

Products include automotive engine control systems, recording and monitoring systems for trucks, very- and ultra-high resolution monochrome monitors for use in the phototypesetting industry, cellular telephone equipment, and controls for appliances.

Automotive Powertrain and Chassis Electronics Division
Automotive Body and Appliance Electronics Business
Sensors and Power Controls Business

* Member of the Executive Committee

Areas of Work: Develops, manufactures, markets, installs and services total business information processing systems for selected worldwide markets. These markets are primarily in the retail, financial, commercial, industrial, healthcare, education, and government sectors. Computers range from small business systems to powerful general-purpose processors, and are supported by a spectrum of terminals, peripherals, data communications networks and an extensive library of software products. Supplemental services and products include field engineering, data centers, systems services, educational centers, and a line of business forms and supplies. Also manufactures components, including semiconductor products and component subassemblies, which are marketed to other manufacturers.

Divisions and Subsidiaries

Data Processing Group
Direct Marketing and Customer Support

NCR markets its products through 1,200 offices in more than 120 countries. It operates 87 facilities worldwide for the development and manufacture of products and systems. Operates 48 Data Centers worldwide. Products and systems are marketed through 831 districts in the United States and, internationally, through 72 company-owned organizations and 21 authorized distributors.

The Systemedia Group

Business Forms and Supplies Division
Business forms and supplies are manufactured in 9 U.S. plants and 46 overseas facilities, and are sold to both NCR and non-NCR equipment users.

The Micrographic Systems Division
Mountain View, California
Manufactures and markets a complete line of Computer Output Microfiche recorders, duplicators, and readers, and is a supplier of COM equipment.

Direct Marketing Division
Provides catalog sales of business forms and supplies for smaller users.

Source Document Services Division
Kettering, Ohio
Markets conventional microfiche and ultrafiche processing systems and related equipment for publishers, printers, and libraries.

NCR Comten, Inc.
St. Paul, Minnesota
Produces, markets, and services programmable communications processors, proprietary communications software, and computer performance measurement systems.

Independent Marketing Organization
Responsible for new markets not covered by the traditional direct sales organization. Markets NCR computers, terminals and subsystems to independent software houses, system integrators, distributors, dealers and manufacturers of information processing equipment.

Development and Production Group
Consists of 5 divisions: Retail Systems, General Purpose Systems, CI/MEO Systems, Financial Systems and Microelectronics. Comprises 24 operating units in 9 countries.

Applied Digital Data Systems, Inc.
Hauppauge, New York
Manufactures and markets a line of general-purpose computer video display terminals and small business computers.

Areas of Work: The Company is engaged in four basic areas: consumer products; electrical/electronic components; lighting products, and professional equipment. Products included Magnavox, Philco and Sylvania home entertainment products, Norelco electric razors and coffee makers, Philips lamps, medical systems, and electronic instruments, Genie garage door openers, Ohmitre resistors, Dialight indicators, Selmer musical instruments, and Plumbicon TV camera tubes, among others.

Divisions and Subsidiaries:

Advance Transformer Company
2950 North Western Avenue
Chicago, Illinois 60618
Ballasts for fluorescent and high intensity discharge lamps; dimming and control systems; power units for microwave cooking.

Amperex Electronic Corporation
Slatersville, Rhode Island
Electron tubes, electro-optical devices; semiconductors; integrated circuits; electronic components.

Consumer Products Divisions
Stamford, Connecticut
Norelco electric shavers; hearing aids; personal care and home appliances; electrical housewares; tape recorders and blank cassettes; AKG microphones and headphone; Norelco Service, Inc. for service, parts and accessories.

Dialight Corporation
Manasquan, New Jersey
Indicator lights, numeric readouts, LED devices, switches, plugs, mounting accessories, electronic educational kits.

Electrical Industries
691 Central Avenue
Murray Hill, New Jersey 07974
Hermetic glass-to-metal seals for component manufacturers; glass preforms; wire preforms; metal stamps; coined component parts; screw machine products.

N.A.P. Consumer Electronics Corp.
Knoxville, Tennessee
Manufactures home entertainment products including complete television-stereo consoles, radio-phonograph components and components systems, portable table and clock radios, tape recorders, cassette changers and accessories.

Magnavox Government and Industrial Electronics Company
1700 Magnavox Way
Fort Wayne, Indiana 46804
Engaged in the areas of defense communications, minicomputers and computer terminals, airborne submarine surveillance systems and position-location and navigation systems.

Magnavox Advanced Products and Systems Company
Torrance, California

Magnavox Electronic Systems Company
Fort Wayne, Indiana

Airpax Corporation
Cheshire Industrial Park
Cheshire, Connecticut 06410
Electro-mechanical and electronic timing and control systems; timing, control and stepper motors; aircraft timing systems; microminiature and subminiature electro-mechanical and electronic relays.

North American Philips Lighting Corporation
Somerset, New Jersey
Mercury vapor lamps, sodium lighting products, reflector-type lamps; projections lamps for movies and slides; spotlights and floodlights; flashbulbs; miniature and subminiature lamps; special discharge lamps; lighting fixtures.

Ohmite Manufacturing Company
3601 Howard Street
Skokie, Illinois 60076
Wirewound power resistors and rheostats; power tap switches, variable transformers; relays, solid state power controls and other components.

Philips [illegible] Systems, Inc.
Wo[illegible] York 11797
[illegible]ems including desk, portable and pocket [illegible]room equipment; pocket paging systems; office computers and peripherals.

Philips Electronic Instruments, Inc.
Mahwah, New Jersey 11797
Analytical instrumentation and systems; transmission electron microscopes; X-ray diffraction and spectrographic equipment; X-ray radiographic equipment; IRS, UV, VIS and AA spectrophotometers; liquid chromatographs; air and water pollution monitors; X-ray baggage inspection equipment; canning electron microscopy.

Mepco/nCentralab, Inc.
Rivera, Florida

Philips Laboratories
345 Scarborough Road
Briarcliff Manor, New York 10510
Research and development in electro-optics with related programs in solid state electronics and instrumentation.

American Color & Chemical Corporation
Charlotte, North Carolina

Anchor Brush Company, Inc.
Montgomery, Illinois

Philips ECG, Inc.
Seneca, New York

The Selmer Company
Elkhart, Indiana

Magnavox CATV Systems, Inc.
Manlius, New York

Philips Medical Systems, Inc.
710 Bridgeport Avenue
Shelton, Connecticut 06484
Diagnostic and therapeutic X-ray systems for medical, dental, podiatry and veterinary applications; medical electronic systems; hospital planning and equipment and supplies consulting.

Philips Home Products, Inc.
Akron, Ohio

* Member of the Executive Committee

Divisions:

Aircraft Division
One Northrop Avenue
Hawthorne, California 90250
Aircraft research, development and manufacturing.

Advanced Systems Division
8900 E. Washington Boulevard
Pico Rivera, California 90660-3737
Advanced systems research and development.

Defense Systems Division
600 Hicks Road
Rolling Meadows, Illinois 60008
Military electronic warfare systems.

Precision Products Division
100 Morse Street
Norwood, Massachusetts 02062
Gyroscopes, accelerometers, and inertial guidance and control systems.

Electronics Division
2301 West 120th Street
Hawthorne, California 90251
Electronics research, development, and manufacturing.

Ventura Division
1515 Rancho Conejo Boulevard
Newbury Park, California 91320
Unmanned aircraft and aircraft sub-assemblies.

Electro-Mechanical Division
500 East Orangethorpe Avenue
Anaheim, California 92801
Electronic sensor and tracking systems, automatic test equipment, and fabricated products.

Northrop Research and Technology Center
One Research Park
Rancho Palos Verdes, California 90274
Advanced technology research programs.

Subsidiaries:

Northrop Services, Inc.
108 Powers Court
Sterling, Virginia 22170
Managerial and technical support services.

Northrop Worldwide Aircraft Services, Inc.
21 Northwest 44th Street
Lawton, Oklahoma 73505
Aircraft maintenance and base support services.

Affiliated Companies:

Construcciones Aeronauticas, S.A. (casa) (13.5% owned)
Calle del Rey Francisco, 4, Apartado 193
Madrid 28008 Spain
Military and commercial aircraft development and manufacturing.

Electronica Basica, S.A. (5.2% owned)
Carretera Nal., 2 KM 577, 3 Superragoera
Barcelona, Spain
Printed circuit boards.

N.V. Koninklijke Nederlandse Vliegtuigenfabriek Fokker (19.9% owned)
P.O. Box 12222
1100 AE, Amsterdam-Zuidoost, The Netherlands
Commercial and military aircraft development and manufacturing.

Areas of Worth: Manufactures and markets controls and components for gas and electric appliances, low power rotary and other switches, and quartz oscillators and filters used in consumer, industrial and military products; produces communications equipment for use in cable television systems and satellite television systems.

Divisions and Subsidiaries:

Oak Switch Systems, Inc.
Crystal Lake, Illinois 60014
Lower power rotary, pushbutton, keyboard, membrane and lever switches.

McCoy Electronics Company
Mt. Holly Springs & Mercersberg, Pennsylvania 17065
High-frequency and low-frequency crystals, crystal filters and oscillators for communications equipment.

O/E/N India Limited (45% owned)
Cochin, Kerala, India
Assembles and markets switches and relays.

Harper-Wyman Company
Lisle, Illinois
Gas controls and components; electric range controls, gas grills.

Diamond H. Controls Ltd.
Volcan Road North
Norwich, NOR 85N
Norfolk, England
Thermostats; energy regulators; thermal switches; relays, time delay units and solenoids, rotary and toggle switches; snap-in devices, rotary, lever, modulise switches; indicator lights, electronic temperature and process controls.

Oak Communications Inc.
Rancho Bernardo, California
Manufactures converters, decoders, and other equipment used to receive cable television programs and encoding and decoding devices for satellite transmissions.

Oak East Industries Ltd.
Taipei, Taiwan, Republic of China
Manufactures pay-television decoders and cable television converters.

Crowen Crystals Ltd.
Whitby, Ontario, Canada

Houston Electronics Corp.
Kane, Pennsylvania

Ownaire-Audio-Carpenter
Charlottesville, Virginia
All involved in the manufacture of quartz crystal components.

Nordco, Inc.
Milwaukee, Wisconsin
Supplies the railroad transportation industry with equipment to maintain and repair railroad tracks and roadbeds.

Pacific Scientific Company

1350 South State College Boulevard
Anaheim, California 92803
(714) 535-8141

Officers: Harry R. Goff, chairman of the board; Edgar S. Brower, president & chief executive officer; Richard V. Plat, sr. v.p.-finance & administration and secretary; Charles A. Collins, v.p.; Robert J. Del Porto, v.p.; Douglas D. Fockler, v.p.; Jerald F. McNeil, v.p.; William L. Nothwang, controller; Peer A. Swan, treasurer.

Directors: Harry R. Goff, chairman; Walter F. Boras, Ralph O. Briscoe, Edgar S. Brower, James D. Hodgson, William A. Preston, Thomas P. Stafford, Harry W. Todd.

Areas of Work: Operates in three areas: Advanced Technology; Instruments and Components; and Motors and Controls.

Divisions and Subsidiaries:

Kin-Tech Division
Anaheim, California
Develops and markets mechanical shock arrestors, restraint equipment and other safety devices for nuclear power plants; manufactures restraint systems, electro-mechanical flight control components, and hydraulic actuators for military and commercial aircraft.

Instrument Division
Silver Spring, Massachusetts
Manufactures instruments for the measurement and control of appearance properties, colorimeters for use in the textile and food markets, and related software; manufactures a line of near-infrared analyzers used in the analysis of agricultural and industrial products to measure proteins, moisture, fiber, oil and similar components in organic substances; also manufactures electro-optical instruments that measure size and distribution of particles in fluids, air and powders.

IMEC Corp.
Boston, Massachusetts
Produces electronic controllers for the robotic, machine tool, and process machinery markets

Bellfab Division
Daytona Beach, Florida
Manufactures welded and formed metal bellows, and mechanical seals.

Motor & Control Division
Rockford, Illinois
Manufactures low inertia, permanent magnet DC and brushless motors.

Electro Kinetics Division
Santa Barbara, California
Manufactures AC and DC generators and electromechanical actuators.

Pacific Scientific, Ltd
Bucks, England

Pacific Scientific ATG, Ltd.
Bourne End, England

Pacific Scientific, GmbH
Leonberg, West Germany

Pacific Scientific, S.A.R.L.
Palaiseau, France

Pacific Scientific International Sales Corp.
St. Thomas, U.S. Virgin Islands

Sigma Instruments, Inc.
Braintree, Massachusetts
Designs, manufactures and markets electrical and electromechanical products for electric utilities and other industries, as well as stepping motors and associated electronics systems for automation applications.

Sigma de Puerto Rico
Hatillo, Puerto Rico

HTL Industries, Inc.
Duarte, California
Manufacturers fire detection and suppression equipment, alternators, pneumatic and electro-mechanical actuators, and other aerospace components.

HTL Caribe, Inc.
Luquillo, Puerto Rico

HTL Energy Systems Division
Chandler, Arizona

Subsidiaries:

United Aircraft Products, Inc.
Manufactures heat transfer components primarily for the aerospace market.

Compumotor Corporation
Manufactures electronic components and systems used to control motion.

Metal Bellows Corporation
Manufactures precision welded bellows, pumps, accumulators and fabricated assemblies for aerospace and other high technology applications.

Spaulding Instruments Inc.
Manufactures sophisticated electromechanical encoders.

Parker Digiplan
Manufactures electronic drives and controls for a variety of microstep and linear-step motors.

Commercial Filters
Manufactures cartridge filters and wound filter elements.

Schrader Bellows Inc.
Manufactures pneumatic products and automation systems for domestic and international markets.

Areas of Work: The company manufactures products and supplies services in the following areas: defense, telecommunications, and energy.

Divisions and Subsidiaries:

Penn Central Federal Systems Company
Alexandria, Virginia
(703) 739-2400

Penn Central Technical Security Company
Marlton, New Jersey
(609) 983-0909
Design, engineering and installation of complex security systems.

Vitro Services Corporation
Ft. Walton Beach, Florida
(904) 244-7711
Manufacture of precision tracking and meteorological radar systems.

QualCorp, Inc.
Danbury, Connecticut
(203) 796-5000
Provides engineering, technical services, quality assurance and quality control instruments, systems and services through the following units: Automation Industries Pty. Ltd., Automation Systems, Conam Inspection, Nuclear Energy Services, Sperry Products and Sperry Rail Service.

Vitro Corporation
Silver Spring, Maryland
(301) 231-1000
Systems and software engineering for the design, coordination and integration of components into unified and effective weapons systems for the U.S. Navy.

Penn Central Telecommunications Company
Woodcliff Lake, New Jersey
(201) 573-8200
Manufactures and markets a broad range of wire and cable products for voice, data, and electrical transmission. Other products include high-performance connectors for defense applications and installation and monitoring equipment for communications networks.

General Cable Company
Woodbridge, New Jersey
(201) 636-3500
Manufacture of wire and cable and related products for the telecommunications market.

General Cable International
Woodcliff Lake, New Jersey
(201) 573-8200
Manufacture of wire and cable related products for the telecommunications market through foreign equity investments in Brazil, Colombia, Venezuela and Spain.

Gulf Energy Development Corporation
San Antonio, Texas
(512) 340-4070
Natural gas gathering, processing and marketing.

Marathon Manufacturing Companies
Houston, Texas
(713) 659-7444

Marathon Battery Company
Waco, Texas
(817) 776-0650
Manufacture of nickel-cadmium and magnesium batteries.

Marathon Alcad Limited
Redditch, Worcestershire, England
011-44527623S1
Manufacture of nickel-cadmium batteries.

Marathon Flite-Tronics Company
Burbank, California
(818) 841-3210
Manufacture of static inverters.

Marathon LeTourneau Company
Houston, Texas
(713) 659-7444
Manufacture of mobile offshore oil and gas drilling rigs and components; marine repair and parts services; manufacture of heavy equipment.

Marathon LeTourneau Offshore Pte. Ltd.
Republic of Singapore
011-65-8612744
Manufacture of mobile offshore oil and gas drilling rigs and components; marine repair and parts services.

Oilfield Services Companies
Houston, Texas
(713) 659-7444

Butler-Johnson, Inc.
Shreveport, Louisiana
(318) 226-0731
Contract oil and gas drilling.

Cubby Drilling, Inc.
Midvale, Ohio
(614) 922-9431
Contract oil and gas drilling.

Western Oil Well Service Co.
Billings, Missouri
(406) 245-7109
Oil well service and workover.

Willis Drilling Co. Inc.
Edinburg, Texas
(512) 383-3888

Pentron Corporation

(formerly Pentron Industries, Inc.)

3000 Executive Parkway, Suite 236
San Ramon, California 94583
(415) 867-4474

Officers: Paul C. Knauff, chairman & chief exec. officer; Robert H. Chappell, vice chairman; Samuel F. Quartarone, president & chief operating officer; Marc L. Berman, v.p.; Irving Cooper, v.p.; Stephen J. Russo, v.p. & chief financial officer; Elaine A. Wolfe, secretary.

Directors: Paul C. Knauff, chairman; Robert H. Chappell, Marc L. Berman, Irving Cooper, William A. Morse, Edward F. Crawford, Stephen W. Curran, John K. Sands.

Areas of Work: Distributes and markets electronic measuring and testing products to the consumer and industrial automotive aftermarket; electrical power conditioning products to the telecommunications and microcomputer industries; electrical power source protectors to the personal computer industry; electronic home security sensing devices; peripheral information input products and related software for certain personal computers; and head-mounted, battery-operated lights for hands-free use. Also manufactures and markets lithographed metal housewares, large plastic containers and other plastic items.

Divisions and Subsidiaries:

Pentron Products, Inc.
San Jose, California

PTI Industries
Scotts Valley, California

Sparex/VHT Corporation
Gardena, California

Pacific United Company, Inc.
Taiwan, Republic of China

Ice Creations Unlimited, Inc.
Denver, Colorado

Koala Technologies Corporation
Scotts Valley, California
Produces and markets a line of computer digitizing tablets for applications in the graphics and desk-top publishing markets.

Rotational Molding, Inc.
Gardena, California
Manufactures and distributes molded plastic containers.

Areas of Work: The Company manufactures and distributes products in the areas of Lighting; Consumer Electronics; Domestic Appliances; Professional Products and Systems; Components; and Miscellaneous.

Lighting products include incandescent, halogen, and automobile lamps; high- and low-pressure gas-discharge lamps and ballasts; luminaires and lighting electronics; lighting projects; batteries; glass, diamond drawing dies, wire and other components.

Consumer Electronics products include television and radio receivers; monitors; audio and video recorders; video camera recorders; audio and video cassettes; playback equipment for sound and vision; sound and vision carriers; home computers, videotex terminals and other home interactive systems; and hearing aids.

Domestic Appliances include washing machines and dryers; dishwashers; refrigerators and freezers; cookers; microwave ovens; fitted kitchen equipment; vacuum cleaners; electric irons; food preparation machines, food processors, mixers and other small kitchen appliances; coffee makers and toasters; deep-fat friers and grills; fan and heaters; clocks; and electric shavers, hair dryers, solaria and other personal care products.

Professional Products and Systems include telecommunications systems; cable products and systems; defense systems; road, water and air traffic control systems; ground weather stations; mobile radio; dictation machines; office automation and communication systems; medical systems for diagnosis and therapy; analytical equipment; electronic test and measuring instruments; process and systems for factory automation and process automation; automation projects; audio-visual communication systems; electronic security systems; and machines and tools.

Components include picture tubes and television glass; integraicd circuits and discrete semiconductors; passive components and materials; special tubes and professional components; optical and magnetic data storage products; display products; glass, metal and plastic components; and printed circuit boards.

Miscellaneous products include musical instruments; brush products and plastics products; and electrical parts.

The Company also engages in extensive research and development activities.

Areas of Work: Broad line distributor of electronic components used in the production and maintenance of equipment, a supplier of maintenance products for industrial, commercial and institutional applications, and a manufacturer of high-performance fire-fighting accessories.

Divisions and Subsidiaries:

Electronics Distribution Group

Newark Electronics
500 North Pulaski Street
Chicago, Illinois 60624
(312) 638-4411
Electronic components and equipment including semiconductors, integrated conductors, integrated circuits, switches, relays, test and sound equipment, capacitors, resistors and connectors.

Cadillac Electric
20700 Hubbell Avenue
Oak Park, Michigan 48237
(313) 967-1221
Electrical items including wire and cable, roughing-in materials, motor controls, distribution equipment, lamps, fuses, wiring devices and other electrical maintenance products.

Hoffman Products
170 Allen Boulevard
Farmingdale, New York 11735
(516) 293-5244
National supplier of electrical and related products.

Car-lac Electronics
75 Orville Drive
Bohemia, New York 11716
(516) 567-4200
Electronic interconnection devices and associated hardware.

MCM Electronics
858 E. Congress Park Drive
Centerville, Ohio 45459
(513) 434-0031
Electronic components and equipment for the installation and repair of consumer and commercial equipment.

Maintenance Products Group

Brooks Technology
3304 East 87th Street
Cleveland, Ohio 44127
(216) 641-5100
Industrial and specialty greases, open gear lubricants, gear oils, corrosion preventives, cutting and grinding fluids, wire rope lubricants, roll oils, and drawing and forging compounds.

C-T Engineering
4500 Euclid Avenue
Cleveland, Ohio 44103
(216) 391-8300
Heavy-duty fasteners, special hardware and parts for construction transportation equipment.

Certanium Alloys and Research
4500 Euclid Avenue
Cleveland, Ohio 44103
(216) 391-8300
Special welding electrodes, brazing alloys, fluxes, solders, and welding aids.

Premier Fastener
4500 Euclid Avenue
Cleveland, Ohio 44103
(216) 391-8300
High performance cap screws, nuts, washers, screws, specialty fasteners and industrial shop supplies.

Premier Autoware
4500 Euclid Avenue
Cleveland, Ohio 44103
(216) 391-8300
Replacement parts for cars and trucks, including special hardware and shop supplies.

J.I. Holcomb
4500 Euclid Avenue
Cleveland, Ohio 44103
(216) 391-8300
Cleaners, disinfectants, degreasers and protective coatings for industrial, commercial, and institutional applications. Insecticides, floor conditioners and floor maintenance products.

Kent Industries
4500 Euclid Avenue
Cleveland, Ohio 44103
(216) 391-8300
Adhesives, cements, sealants, caulks, cleaners and related application equipment for the automotive and marine industries.

Rotanium Products
4500 Euclid Avenue
Cleveland, Ohio 44103
(216) 391-8300
Electrical systems components and other specialty products such as industrial lamps, terminals, connectors, fittings, clamps and building hardware.

TPC Wire & Cable
20700 Hubbell Avenue
Oak Park, Michigan 48237
(313) 967-0582
Extra heavy-duty electrical cord, cable and associated devices.

D-A Lubricant Company, Inc.
1340 West 29th Street
Indianapolis, Indiana 46208
(317) 923-5321
Engine oils and greases for heavy-duty diesel driven equipment.

Maintenance, Inc.
1051 West Liberty Street
Wooster, Ohio 44691
(216) 264-6262
Coatings to protect and color off-street asphalt and concrete pavements and recreational areas.

Fire-Fighting Products Group

Akron Brass Co.
Spruce Street
P.O. Box 86
Wooster, Ohio 44691
(216) 264-5100
Fire-fighting components including nozzles, hose couplings, valves and specialized fire-fighting equipment.

Western Fire Equipment Co.
440 Valley Drive
Brisbane, California 94005
(415) 467-5650
Forestry, municipal and industrial fire-fighting equipment, including portable tanker units, protective clothing and specialized fire-fighting tools.

Annual Meeting Manufactures engineered systems and components for the aerospace, communications, defense, transportation, energy and environmental industries. It is involved in the specialized markets for aircraft seating, food-service equipment, truck trailers, weapons systems components, refuse disposal equipment, and fluidhandling systems.

Divisions and Subsidiaries:

Resco Technology Corporation
Manufactures and tests electronic assemblies and subassemblies such as firing devices, timers, fuses and safing and arming devices for the Department of Defense and industry.

Peabody Galion
Manufactures solid waste collection disposal and compaction equipment for municipalities and private haulers. Also manufactures dump truck bodies and hydraulic hoists.

Peabody Myers Corporation
Manufactures and distributes pneumatic equipment for municipal and industrial waste clean-up of streets, sewers and wastewater lines.

Peabody Floway, Inc.
Manufactures vertical turbine pumps for moving high volumes of liquid with minimum energy consumption.

Peabody Barnes, Inc.
Manufactures a broad line of self-priming, centrifugal and submersible pumps.

Peabody ABC
Manufactures products consisting of fiberglass reinforced plastic ducting, plastic laminated materials for general industrial use and flame retardant fabric used to control air and dust movement in coal and metal mines.

Star Manufacturing Company
Manufactures concessionary food preparation equipment.

Peabody Engineering
Engineers and manufactures a variety of energy conversion devices, including burners and burner management systems.

Elastomer Products Division
Custom designs and manufactures engineered products of elastomers (rubber) and metal for a wide range of applications to insulate noise and isolate vibration or shock.

Perraloy Division
Manufactures custom-designed powdered metal components for a wide range of industrial and consumer products applications.

Peabody TecTank
Manufactures bolted and welded tanks for bulk storage of liquids and solids in a corrosion-resistant and contamination-free environment.

Trailmobile
Manufactures truck trailers.

PTC Aerospace, Inc.
Manufactures aircraft seating, galleys, and food service systems.

Acquisition(s):

Clevite Industries Inc.

Eastman Division
Produces rubber and thermoplastic hose, couplings and hose assemblies for a wide variety of hydraulic applications.

Imperial Division
Manufactures fittings, valves and tube working tools for the industrial, automation and process industries.

Waterman and Bruning Division
Produces hydraulic control components such as valves, couplers and cylinders.

Racal Electronics Plc

Western Road
Bracknell, Berkshire RG12 1RG, England
(0344) 481222

Directors: Sir Ernest Harrison, chairman & chief executive; D. C. Elsbury, deputy chief executive; Sir Edward Ashmore, B. J. Clarke, J. E. Cotton, P. G. Crossland, J. E. Diggins, O. J. Lomer, D. J. Peacock, M. R. Richardson, D. A. Webb, G. A. Wheat, D. Whittaker, secretary.

Areas of Work: In the area of Data Communications, the Company provides corporate data networks, data communications equipment and systems, data encryption equipment, digital communications for voice and data, local area communications, network management, image processing systems, and turnkey data networks.

In the area of Radio Communications, the Company provides communications electronic warfare of Radio Communications, the Company provides communications electronic warfare systems, communications simulation and training, communications security, satellite communications, tactical trunk communications, military tactical communications for land, sea and air, paramilitary, police and special forces communications, and strategic radio systems: fixed, mobile and transportable.

In the area of Marine and Energy Electronics, the Company provides marine radars and navigation equipment, integrated naval and ship electronic systems, mine countermeasures support, marine measurement and control systems, marine communications, marine distress and safety equipment, marine simulation and training, marine service, precise positioning systems, satellite and terrestrial radio navigation systems, and survey and positioning services.

In the area of Defence Radar and Avionics, the Company provides avionics management systems, ground movement radar, low level air defence surveillance radars, naval and land based command information systems, navigation computers and sensors, non-communications electronic warfare systems, and microwave components and sub-systems.

In the area of Telecommunications, the Company provides cellular radio network operations, data transmission over cellular radio networks, digital cellular radio systems, value added network services, mobile and hand-portable cellular telephones, private mobile radio, and radiopaging.

In the area of Security, the Company provides building locks and hardware, data security and payment terminal systems, fire detection and extinguishing equipment, intruder alarms and monitoring systems, integrated security and access control systems, safes, strongrooms and fire resistant cabinets.

Specialized Business Activities include Acoustics, whose product range for both military and civil communication markets consists of transducers, microphones, headsets, headsets, protective communication helmets, field telephones, intercom systems, and on-board audio management systems for trains and aircraft; Health & Safety, whose products include the Classic range of hearing protectors, the ultra-lightweight Jupiter anti-dust helmet, a Dual-Air protection system and the Zephyr powered respirator for dentists; Microelectronics & Information Displays, which includes specific integrated circuits and other customized devices and liquid crystal information display systems; Customer Training & Education; Electronic Design Automation, which includes computer-aided engineering/computer-aided design for electronics industries and software systems for computers; Intruder alarm sensors; Automated Test and Repair services; Antennas; and advanced Instrumentation.

Officers: Paul M. Cook, chairman of the board & chief executive officer; Robert M. Halperin, president & chief operating officer; Robert Saltich, sr. v.p.; William A. Berry, v.p. & chief admin. officer; Michael T. Everett, v.p., secretary & chief legal officer; James B. Spradling, v.p.; Harry O. Postlewait, v.p.; Frederick M. Grafton, v.p.; Gerald R. Delaney, v.p.; Joachim H. Ohme, v.p.; Edward A. Keible, Jr., v.p.; David D. Taft, v.p.; Thomas S. Huseby, v.p.; William E. Mitchell, v.p.; Raymond J. Sims, treasurer; Francis J. Lunger, controller.

Directors: Paul M. Cook , chairman; Robert G. Engel, Detlev K. Rohwedder, Robert M. Halperin, J. Kenneth Jamieson, James F. Gibbons.

Areas of Work: The Electronics business segment includes the development, manufacture and sale of electrical and electronic interconnection systems, wire and cable, heat-shrinkable insulation, circuit protection devices, connectors, fiber optics, heating devices and fluid fittings.

The industrial business segment consists of the development, manufacture and sale of electric heat-tracing systems, power cable accessories, electric insulation products, heat-shrinkable sleeves and coatings for pipeline protection, leak detection systems and cathodic protection products.

The Telecommunications business segment consists of the development, manufacture and sale of systems that connect, protect, repair and seal outside-plant telecommunication networks. Products include telephone cable splice cases, aerial closure systems, cable repair sleeves and cable termination products.

The Ventures and Other business segment includes the research and development, manufacture and sale of thin film conductive coatings on continuous substrates, liquid crystal displays, packages for single and multiple integrated circuits, optic technologies and systems, and touch screen systems.

Directors: Thomas L. Phillips, chairman; Charles F. Adams, Harvey Brooks, James N. Land, Jr., Richard D. Hill, Colman M. Mockler, Jr., Albert L. Nickerson, Francis H. Burr, Joseph J. Sisco, Theodore L. Eliot, Jr., R. Gene Shelley, Ferdinand Colloredo-Mansfeld, Barbara B. Hauptfuhrer.

Areas of Work: Engaged in the design, engineering, manufacture and servicing of advanced electronic devices, equipment, and systems for both commercial and government customers. Energy services include geophysical exploration and the design, engineering and construction of refineries, petrochemical facilities, and electrical generating plants. Manufactures and markets consumer appliances, and heating and cooling equipment. Also designs and manufactures aircraft used primarily for business flying.

Divisions, Subsidiaries & Affiliates:

D.C. Heath and Company
Lexington, Massachusetts; Indianapolis, Indiana
Produces and distributes textbooks and coordinated instructional materials, and science learning apparatus.

Seismograph Service Corporation
Tulsa, Oklahoma
Geophysical exploration.

The Badger Company, Inc.
Cambridge, MA; Houston, TX; New York, NY;
Tampa and Lakeland, Florida
Design, engineering and construction of petroleum, coal, petrochemical, chemical and fertilizer processing plants.

Amana Refrigeration, Inc.
Amana, IA; Fayetteville, Tennessee
Electric ranges, refrigerators, freezers, room and central air conditioners, heat pumps, microwave ovens.

Microwave and Power Tube Division
Northborough, Waltham, Burlington & Quincy, MA;
Stamford, Connecticut;
Chicago, Illinois
Microwave tubes; solid state microwave devices, lasers, broadcast and X-ray tubes; power supplies, industrial microwave heating systems, transformers; receiving and industrial tubes; particle accelerators; electronic hardware; night vision devices; molded plastic products, image intensifiers, light amplifier tubes, infrared detectors, medical electronics.

Caloric Corporation
Topton, Pennsylvania
Gas and electric ranges, microwave ovens, dishwashers, and related kitchen products.

Equipment Division
Sudbury, Wayland, and Waltham, Massachusetts
Surface and shipboard radar and navigation systems; military communications; radar instrumentation; air traffic control systems, data display systems; missile guidance electronics; software systems, vehicle traffic control systems.

Semiconductor Division
Mountain View, California
Transistors, diodes, and microelectric circuits.

Raytheon Marine Company
Hudson, New Hampshire
Marine radars, depth sounders, radiotelephones, direction finders, and related navigation aids.

Sorensen Company
Paxton, Delaware
Power supplies, power regulating equipment, precision welders, ultrasonic grinders.

Research Division
Materials and components for electronics.

Missile Systems Division
Bedford, Andover, Tewksbury, Lowell, MA;
Bristol, TN;
Oxnard, California;
Manchester, New Hampshire
Air defense and tactical airborne systems; related radar, command and control systems, avionics.

Electromagnetic Systems Division
Santa Barbara, California
Re-entry systems, electronic counter-measures.

Submarine Signal Division
Portsmouth, Rhode Island
Anti-submarine warfare systems, submarine and airborne sonar, transducers, ocean systems and equipment.

Raytheon Service Company
Burlington, Massachusetts
Installation and maintenance of electronic systems and equipment; education and training.

Switchcraft, Inc.
Chicago, Illinois
Switches, jacks, plugs and connectors and audio accessory components.

Cedarapids, Inc.
Cedar Rapids, Iowa
Aggregate producing and asphalt mixing plants and paving equipment. Stationary and portable cone-type rock crushing machinery.

United Engineers & Constructors Inc.
Philadelphia, PA; Boston, Massachusetts
Design, engineering and construction of conventional and nuclear power facilities and general industrial plants.

Raytheon Canada Limited
Waterloo, Ontario, Canada
Surface and shipboard radar and navigation systems; military communications, air traffic control systems, data display systems, shipboard defense systems.

Cossor Electronics Limited
Harlow, Essex, England
Air traffic control radar, transponders, marine equipment, VHG radios, instruments, displays.

Lacroix & Kress, Klasing G.m.b.H. & Co.
Bramsche, West Germany
Ultra-fine wire, small diameter cable.

Sterling Greengate Cable Company Ltd.
Aldermaston, Berkshire, England
Electric power cables for military and industrial use, welding and power cables.

TAG Semiconductos Ltd.
Zurich, Switzerland
Semiconductor devices.

Data Logic Ltd.
England
Computer software and systems.

Electrical Installations Ltd.
England
Commercial installation of electrical systems.

SEDCO Systems, Inc.
Melville, New York
Ferrite components; phased array antennas for electronic countermeasures.

Beech Aircraft Corporation
Wichita, Kansas
Designs and manufactures commuter, executive, personal military and special mission aircraft, cryogenic systems, air-frames, logistic support and target missiles.

Manufactures ultrasonic machine components for defense, aerospace, and commerical applications. Also produces electronic assemblies and custom designed interconnect harness systems.

Laminex, Inc.
Charlotte, North Carolina
Manufactures security/identification and graphic laminating systems.

Packaging Machinery
Sarasota, Florida
Designs and manufactures machines that horizontally form, fill, and seal packages made from flexible materials.

Carton, Film & Label Packaging
Greensboro, North Carolina
Manufactures printed paperboard, films pressure sensitive labels, and combinations plastic packaging for hosiery, textiles, cosmetics, pharmaceuticals, personal care, consumer electronics and hardware.

National Spectrographic Laboratories
Instrumentation and precision analytical testing for the aerospace, metals, energy, ceramics and chemical industries.

Flexible Packaging
Edinburgh, Indiana
Manufactures printed, coated, and laminated papers, films, foils for convenience foods, tobacco, photographic and health care products.

Industrial Films
Lancaster, South Carolina
Develops, technical coatings and laminations of foils, tissues, and films for the electronic, automotive, and photographic industries, and is engaged in the field of commerical chemical analysis.

Lamotite, Inc.
Cleveland, Ohio
Coated products and film, foil, fabric and paper laminates for construction, automobiles, and other specialities.

Production Graphics Corporation
Guaynabo, Puerto Rico
Manufactures printed folding cartons and labels for the pharmaceutical and personal care industries.

Areas of Work: The Company is a multi-industry corporation engaged in research and development, and the manufacture and sale of many products for commercial and government markets. The Company is organized into four business segments: Aerospace, Electronics, Automotive and General Industries.

Business Segments and Subsidiaries:

Aerospace
The principal space activity is the Space shuttle program for NASA. The Company has developed and is producing the shuttle orbiter and, through its Rocketdyne Division, the orbiter main engines. It also assists NASA in the integration of the overall space transportation system. The Rocketdyne Division works under a United States Air Force contract for the engineering development of the Peacekeeper missile; develops and manufactures large liquid rocket engines for space and military applications and small rocket engines for altitude and reentry control.

The Company also engaged in various research and development activities, such as those related to advanced space-based surveillance systems and directed energy weapons, and technology development and systems analysis efforts, such as those relating to advanced military aircraft.

North American Space Operations

El Segundo, California 90245
(213) 647-5000

North American Aircraft Operations
100 N. Sepulveda Boulevard
El Segundo, California 90245
(213) 647-1000

Electronics
This division manufactures high technology electronic equipment and systems for military navigation, command, control, communications and intelligence, missile systems and other special applications for the United States and foreign governments; also manufactures a broad spectrum of radio transceivers for various military applications that range from very low frequency to extremely high frequency. These products are combined with other ancillary items to form integrated command, control, communications and intelligence systems.

The division is the principal supplier of the inertial navigation systems for the Navy's ballistic missile and attack submarine fleets, supplies component and services related to the guidance and control systems of the Minuteman intercontinental ballistic missile fleet and works under contracts for both ground and airborne high frequency communication equipment for the modernization programs for the United States and NATO forces.

In commercial electronics, the Company supplies avionics, telecommunications and semiconductor products and systems to commercial and government customers worldwide. Electronics supplies communications, navigation, flight control, and other avionics systems to the air transport, general aviation and government markets. Products include telecommunications, transmission and switching systems and telephone products which are supplied to a broad range of customers in the United States and foreign countries.

Allen-Brady Company
Milwaukee, Wisconsin
Supplies programmable controllers to the factory automation market. Also produces standard control products, computer numerical control systems, drives and passive electronic components.

Electronics Corporation of America
Waltham, Massachusetts
Manufactures photoelectric controls and flame monitoring systems.

Design Engineering Laboratories
Huntington Beach, California
Defense electronics.

General Industries
The Graphic Systems Division manufactures and sells high-speed printing presses and related equipment and principally for printing newspapers. Products include the Metroliner press designed for large metropolitan daily newspapers and the HV, Urbanite and community presses designed for medium size daily and weekly newspapers and commercial printers. The division also manufactures and sells automatic mailroom equipment and purchases for resale a line of commercial sheetfed presses and related equipment.

The Company manufactures, purchases for resale, and sells industrial sewing machines to the textile industry. The Power Tool Division manufactures stationary woodworking machinery and pneumatic and specialty tools for the general industrial and construction markets.

The flow control and the municipal & utility division manufacture and sell control and measurement equipment for gas, water and other fluids in the energy, utility and construction markets and a broad line of valves used for a variety of applications in nuclear and fossil systems for the energy and power generation markets. Other products include valve lubricants, pipe clamps and couplings. Primary customers for these products are electric, gas and water utilities, oil companies, chemical companies, municipalities and building contractors, as well as chemical companies.

The Energy Systems Group participates in the development of the liquid metal fast breeder reactor, the production of safety equipment for conventional light water nuclear reactors and the decontamination and decommissioning of nuclear facilities. The Group also operates a liquid metal development center for the fast breeder effort of the Department of Energy (DOE) and is active in the development of other alternative energy sources.

The Group provides chemical processing, water management and site support services at the DOE's Hanford Project near Richland, Washington, and operates the DOE's Rocky Flats Plant near Denver, Colorado, which is engaged in nuclear weapons components manufacturing, plutonium recovery and waste treatment. The Group is continuing development work under DOE contracts in the coal gasification and liquefaction processes. The Group also supplies commercial flue gas cleaning systems and environmental monitoring systems to utilities and industry.

Automotive
Automotive businesses' principal activity is the manufacture and sale of various proprietary components for heavy-duty vehicles used on and off the highway. Automotive designs and manufactures a broad line of axles for heavy-duty applications for on- and off-highway vehicles, including single and tandem drive axles, driving and non-driving front axles, trailer axles, rigid and steering planetary axles and driving steering axles. The businesses design and manufacture a complete line of heavy-duty brakes and brake assemblies and components for use in the transportation, construction, mining, agriculture, forestry and industrial fields. The businesses also manufacture and sell special drives and transmissions, universal joints and drivelines, gear boxes, springs and plastic hood, door and fender assemblies for these vehicles.

The Automotive businesses also manufacture and sell springs and plastic components and accessories for light trucks and passenger cars, and steel and cast aluminum wheels, wheel covers, sun roofs, window regulators, door latches and door locking systems for passenger cars. In addition, the businesses manufacture and sell large steel castings, including those used in military cast armor programs and diesel locomotives.

The Company's automotive products are nearly all sold directly to manufacturers of original equipment, some of which are also competitors in that they produce for their own use many of the products manufactured by the Automotive businesses.

Rogers Corporation

One Technology Drive
Rogers, Connecticut 06263
(203) 774-9605

Officers: Norman L. Greenman, president & chief exec. officer; Harry H. Birkenruth, sr. vice president-polymer products group; Richard C. Berry, sr. v.p.-technology; Aarno A. Hasell, v.p.-electronic materials group; William Schoppenhorst, v.p.-human resources; Paul L. Anderson, v.p.-sales; Stuart J. Saffi, v.p.-finance; A. David Chesmer, v.p.-manufacturing; Robert M. Soffer, treasurer; Howard A. Raphaelson, controller; David M. Elwood, clerk.

Directors: Harry H. Birdenruth, Wallace Barnes, Carl N. Hansen, Norman L. Greenman, Charles F. Spiro, Brage Golding, Leonid V. Azaroff, Mildred S. Dresselhaus, Donald J. Harper.

Areas of Work: The Company's operations consist of two segments: Interconnection Products, which are primarily interconnection circuits and components, keyboards, and microwave and circuit materials; and Polymer Products, including primarily molding materials, elastomeric products, polyurethane materials and components, and Durel electroluminescent lamps.

Divisions:

Molding Materials Division
Mill and Oakland Streets
Manchester, Connecticut 06040
(203) 646-5500
(203) 643-5162
Manufactures fiber reinforced thermosetting molding materials including phenolic and diallyl phthalate engineering plastics.

Poron/Composites Division-Composites Plant
One Technology Drive
Rogers, Connecticut 06263
(203) 774-9605
Manufactures RT/duroid and R/flex.

Poron/Composites Division-Poron Plant
P.O. Box 158
E. Woodstock, Connecticut 06244
(203) 928-7931
Manufactures Poron PVC and polyurethane-based microcellular materials.

Polymer Products Group-Willimantic Division
Route 32
Willimantic, Connecticut 06226
(203) 423-6323
Manufactures Nitrophyl carburetor and fuel tank floats, Endur engineered parts and assemblies.

Bus Products Division - Interconnection Products Group
5750 East McKellips Road
Mesa, Arizona 85205
(602) 830-3370
Manufactures Mektron laminar power distribution bus bars, Quik/Bus conductors, and Strip/Bus bus strips.

Circuit Components Division - Interconnection Products Group
(602) 830-3370
Manufactures components mounted on printed circuit boards.

Flexible Interconnections Division
Dobson and Williams Field Road
Chandler, Arizona 85224
(602) 963-4684
Manufactures flexible circuits.

Circuit Materials Division - Interconnection Products Group
Dobson and Williamsfield Road
Chandler, Arizona 85224
(602) 963-4584
Manufactures R/flex materials for flexible circuit substrates and integrated circuit bonding tape carrier materials.

Microwave Materials Division
Microwave Products Group
Chandler, Arizona 85224
(602) 963-4584
Manufactures RT/duroid laminate materials for microstrip circuits, stripline circuits, and microwave antennas.

Soladyne Division of Microwave Products Group
San Diego, California
Manufactures microwave stripline and microstrip circuits and bonded assemblies.

RTE Corporation

175 N. Patrick Boulevard
Brookfield, Wisconsin 53005-5884
(414) 792-9300

Officers: Loren D. Barre, chairman & chief executive officer; Michael Allik, president & chief operating officer; Marion D. Huggins, v.p.-small power transformers; Richard L. Ruth, v.p.-components; Donald A. Fancher, v.p.-distribution transformers; Michael W. Gregg, v.p.-finance & chief financial officer; James A. Chokey, v.p., general counsel & secretary; Robert C. Haebig, v.p.-human resources; G. S. Wooldridge, v.p.-sales; Douglas W. Haag, treasurer; John J. Kita, asst. treasurer.

Directors: Loren D. Barre*, Michael Allik, Duane L. Burnham, Richard L. Harrington, John F. McKeon, Robert D. Musgerd, Byron O. Pond*, Donald E. Ramlow, Vinson R. Simpson, Bernard W. Kittle, William T. Ylivuaker*.

* Member of the Executive Committee

Areas of Work: The company is primarily a manufacturer of distribution and small power transformers and related equipment for the electric utility industry. Other products include capacitors and power supplies which are sold to manufacturers of consumer appliances, lighting products, telecommunications equipment, computers, word processors, electronics instrumentation and robotics. The company operates in two groups: The Electrical Equipment Group produces transformers, components (connectors, fuses, surge arresters, fault indicators) and insulating fluids which are sold to the utility, industrial and transformer markets; the Electronics Group's products include power supplies, capacitors, power line filters, and uninterruptible power supplies. Markets include electronics manufacturers, consumer appliance manufacturers, industrial and international.

Divisions and Subsidiaries:

RTE Electrical Equipment Group

Distribution Transformer Division
Produces single phase pole and padmount transformers as well as padmount switchgear.

Small Power Division
Produces three phase padmount distribution and small power transformers. These transformers are sold to electric utilities, industrial firms and electrical contractors.

RTE Fluids Division
Manufactures and markets biodegradable and high-fire-point electrical insulating fluids used in transformers and circuit breakers.

RTE Components Division
Produces a variety of high voltage connectors, terminators, transformer components and fuses. These are sold to utilities, original equipment manufacturers and industrial customers worldwide.

RTE Far East
Taipai, Taiwan
Manufactures high voltage electrical components and electronic filters for the Far East and U.S. market.

RTE Electronics Group

RTE Aerovox
New Bedford, MA
Glasgow, Kentucky
Amherst, Nova Scotia, Canada
Manufactures a variety of AC and aluminum electrolytic capacitors for industrial, commercial, consumer and research applications.

RTE Deltec
San Diego, California
Manufactures line conditioners and uninterruptible power systems, power regulators and isolation transformers.

RTE Power/Mate
San Diego, California
Produces a broad line of power supplies serving the electronics field. These are used in computers, work processors, electronic instrumentation, telecommunications, robotics and medical equipment.

Areas of Work: Current activities of the Company include distribution of microcomputers and related products and services; design, production and sale of office workstation systems, microcomputer software systems, telecommunications equipment, and industrial products and services; and ownership and management of commercial real estate.

Subsidiaries.

Center Core, Inc. (74.4%-owned)
Designs, manufactures and markets space-efficient modular office furniture workstation systems designed to address the needs of electronically oriented offices. Also distributes high-density, mobile-aisle filing systems.

CompuCom Systems, Inc. (56%-owned)
Markets and distributes microcomputers, related peripheral equipment and software.

Unison Technologies, Inc. (82%-owned)
Mission Viejo, California
Develops, manufactures and markets products that provide supplemental power for personal computers.

PowerTech Systems
Aberdeen, South Dakota
Manufactures and markets a board line of products that enable power sources to more effectively drive mechanical and hydraulic systems. These products include enclosed gear drives, mounted bearings, and other specialty items used in power transmission.

Coherent Communications Systems Corporation (98%-owned)
Develops, manufactures and markets sophisticated data and voice communications equipment, involving the integration of voice/data multiplexing and transmission, modems and telephone-telegraph transmission equipment.

Sanchez Computer Associates (40%-owned)
Malvern, Pennsylvania
Develops and markets proprietary computer software products for financial institutions.

Pioneer/Norelkote
Minneapolis, Minnesota & Green Bay, Wisconsin
Provides a variety of metal finishes for aluminum and steel products.

Blue Chip Products, Inc. (24%-owned)
Manufactures and distributes remanufactured automotive parts, including water pumps, clutches, starters and alternators.

The Nichols Company (40%-owned)
Commercial real estate development company.

QVC Network (5%-owned)
Markets a variety of consumer products and services through a cable home shopping network.

Novell (13%-owned)
Designs, manufactures and markets a family of local area network and communication products which allow personal computers to share files, data and resources.

Rabbit Software Corporation (22%-owned)
Designs, develops, and markets communications software products.

DDI Financial Systems, Inc. (20%-owned)
Provides financial management systems and specialized accounting software to financial institutions.

PictureWare, Inc. (19%-owned)
Develops, markets and sells image management software products for IBM PCs and compatibles.

Surgilase, Inc. (37%-owned)
Develops, markets and sell medium and high power carbon dioxide surgical lasers based on state-of-the-art 'sealed tube' technology; also markets low power CO2 lasers used in out-patient facilities and the physician office environment.

Laser Communications, Inc. (49%-owned)
Designs, develops and produces laser products which have the ability to simultaneously transmit and receive all known forms of electronic data and communications through the atmosphere in all climate conditions for distances up to one mile.

* Member of the Executive Committee

Areas of Work: Provides measurement and control instruments and systems, computer-aided design, manufacturing and testing services, and electronic components for consumer, industrial and commercial applications. Also offers well-site and contract drilling services to the oil industry on a worldwide basis.

Divisions and Subsidiaries:

Schlumberger Industries

Defense Systems
Data acquisition and magnetic tape recording systems; signal processing and electronic countermeasures systems; control equipment for nuclear power systems; miniature CCD cameras and high performance reconnaissance cameras; training systems.

Electronic Transactions
Electronic payment terminals, smart cards, card-operated public payphones; fuel dispensing systems; parking terminals.

Electricity Management Division
Electricity meters and equipment for electric power distribution, load and rate management systems; network protection systems; instrument transformers for electric power transmission; remote meter reading and billing.

Water and Gas Division
Water meters and distribution equipment; gas meters and distribution equipment.

Process, Control and Transducers
Process control equipment; nuclear valves; transducers.

Wireline, Seismic and Testing Services

Wireline and Testing Services
Wireline service companies provide measurements of physical properties of underground formations which help locate and evaluate oil and gas reservoirs and assist in completion, development and production phases of oil wells. Well Testing, pressure measurement; completion workover, and production services.

Drilling Services

Sedco Forex
Drilling offshore and on land.

Anadrill
Well-site computer analysis of surface and downhole drilling and geological data; directional drilling services; drilling tool rentals.

Seismic Services

GECO (50%-owned)
Marine seismic data acquisition and processing services.

Pumping Services

Dowell-Schlumberger (50%-owned)
Well cementing and stimulation.

Schlumberger Technologies

Automated Test Equipment
Systems for testing and design verification of semiconductors and printed circuit boards.

Computer Aided Design and Manufacturing
Software and computer systems for design and manufacturing processes of mechanical and electronic products.

Graphics
Plotters to print images generated by computers.

Instruments
Electronic instruments for design verification, and test and measurement, primarily in telecommunications and mechanical industries.

Officers: Sidney Topol, chairman of the board; William E. Johnson, vice chairman & chief executive officer; John H. Levergood, president & chief operating officer; Jules E. Kadish, vice president; Leo E. Ramsauer, Jr., vice president; James H. Hart, vice president; M. Allen Ecker, vice president; Sezer M. Soylemez, vice president; David A. Eggers, v.p., secretary & general counsel; Julian W. Eidson, v.p. & controller; Margaret W. Jones, asst. secretary; Russell E. Cogan, acting v.p.-human resources.

Directors: Wilbur B. King, Sidney Topol, William B. Harrison, James V. Napier, Alonzo L. McDonald, John H. Levergood, Wickham Skinner, William E. Johnson, David J. McLaughlin.

Areas of Work: Designs, manufactures and markets commercial electronic signal generating and receiving equipment consisting of a variety of standard and proprietary communications and instrumentation products. Communications products are used in satellite earth stations, cable television receiving and distribution systems, wireless home security systems and energy management systems. Communications products include antennas, recivers, transmitters and related electronic equipment. The Company's instrumentation products are used by a wide range of industrial and military customers to electronically test, measure and help control various equipment and processes. Instrumentation products consist of spectrum analyzers and systems, instruments to test and measure the quality and performance of various types of telecommunications equip-

ment, antenna test and measurement products, and cabinets and enclosures. The Government Systems Group manufacturers telemetry, electronic warfare, anti-submarine warfare and acoustic communications products and systems for the U.S. and foreign governments.

McMasters, controller; James T. Preece, v.p.-Nashua Division; Eric D. Horning, gen. mgr.-Symbolic Displays, Inc.; Thomas J. Schneiders, v.p.-marketing.

Directors: Gerald E. Magnuson, John P. Robinson, Richard S. Wilcox, James S. Womack, John G. Kassakian, Wesley M. Mader.

Area of Work: Provides technological services and manufacturing to customer specifications; manufactures electrical materials, flexible circuitry, electronic connectors and terminals.

Divisions:

Electronic Materials/Engineered Products
Flexible electronic materials are the 'raw materials' from which flexible circuits are made. For the most part, they are laminates of metallic foils - commonly copper - bonded to a variety of dielectric substrates as well as coverlay materials to insulate the complete circuit. Both the electronic materials and coverlays are produced by Sheldahl in industrial size rolls, ready for conversion into flexible circuitry components.

Engineered products include aerostats for telecommunications, a 'padeye' systems for transloading ships at sea, helicopter blade liners, special fabrications, tambour covers, splicing tapes, coated products, tapes and laminated, and vacuum metalized materials.

Flexible Circuits/Membrane Switches
Flexible circuits are preassembled 'interconnect' products - generally free of defects and adaptable to a constantly growing number of applications. Because they are indeed flexible, they can conform to almost any configuration on multiple planes, while retaining their electrical/electronic function. Typical applications for flex circuits include telephones and communication switching equipment, computer memory storage systems, cameras, hand-held calculators, automobiles and medical instrumentation.

Sheldahl's FLEXSWITCH membrane switches make up the company's newest product line - for the membrane switch keyboard market. In composition, the FLEXSWITCH keyboard consists of a three-layer polyester film sandwich bonded together by means of a special Sheldahl proprietary adhesive. A flexible circuit, an integral part of the membrane switch, provides interconnection. Typical applications for FLEXSWITCH include electronic educational devices, control panels for washers and dryers, medical instrumentation control panels, automotive electronics and plain paper copiers.

Cirtel Division
2302 Barranca Road
Irvine, California 92714
Designs and manufactures complex, high-technology printed circuits for high-reliability applications.
ECI.

Nashua Division
100 Northeastern Blvd.
Nashua, New Hampshire 03061
Manufactures single-side, double-sided, sculptured, multi-layer, ridig-flex circuitry and assemblies for military and commercial applications.

Subsidiaries:

Directors: Christoph Tribull*, chairman; Walter E. Hinds*, Raimon Conlisk*, John C. Janneck, Saleem S. Naher.

* Member of the Executive Committee

Areas of Work: Manufactures and markets high technology transparency products for the aerospace and industrial markets.

Divisions and Subsidiaries:

Transflex Division
Bell, California
(213) 269-9100
Designs and manufactures flexible circuits and sensors, touch panels, composite heaters and anti-icing systems for both commercial and military applications.

Harrison Division
3020 Empire Avenue
Burbank, California 91504
(213) 849-6581
Specializes in the design and manufacture of patented hydraulic components and seals of pneumatic fluid and nuclear power applications.

Magnedyne Division
2258 Rötherford Road
Carlsbad, California 92008
(619) 438-3321
Manufactures precision servo motors and tachometers for aerospace and industrial applications.

TransTech Division
12780 San Fernando Road
Sylmar, California 91342
(818) 362-6811
Manufactures high-impact windshields for railroad locomotives, rapid transit vehicles, custom VIP vehicles and ships security glazing for architectural applications.

Sylmar Division
12780 San Fernando Road
Sylmar, California 91342
(818) 362-6711
Engaged in the production of transparencies for aircraft.

Intrex Products
Manufactures coates film products.

Silicon General, Inc.

85 West Tasman Drive
San Jose, California 95134
(408) 943-9403

Officers: Q.T. Wiles, chairman of the board; William D. Rasdal, president & chief exec. officer; Paul N. Risinger, exec. v.p.-advanced marketing & technology; Charles C. Thompson, exec. v.p. & gen. mgr.-Semiconductor Division; Robert M. Austin, exec. v.p. & gen. mgr.-Telecom Solutions Division; Richard I. Powers, exec. v.p. & gen. mgr.-Analog Solution Division; M. J. Narasimha, v.p.-Telecom Solutions Technology; John L. Kehoe, v.p.-finance, chief financial officer & secretary.

Directors: Q.T. Wiles, chairman; William R. Hambrecht, Daniel A. McMillan, William D. Rasdal, Allen M. Peterson.

Areas of Work: The Company, including its wholly-owned subsidiaries, manufactures telecommunications equipment for local telephone companies, data conversion subsystems and components, and linear and digital integrated circuits.

Divisions:

Analog Solutions
85 West Tasman Drive
San Jose, California 95134
(408) 433-1900
Produces precision analog signal conversion products and custom DC:DC power conversion products.

Semiconductors
11861 Western Avenue
Garden Grove, California 92641
(714) 898-8121
Designs, manufactures and markets specialized linear circuits and hybrid circuits for the military and industrial market.

Telecom Solutions
85 West Tasman Drive
San Jose, California 95134
(408) 433-0910
Supplies specialized transmission equipment, to local telephone companies for subscriber loop applications.

Areas of Work: Defense Electronics and Training Systems products include a broad line of navigation systems for aircraft, spacecraft, and marine vessels; guidance systems for missiles; anti-submarine warfare systems; aircraft, spacecraft, marine and industrial simulators; large-screen display systems; electronic intelligence systems; telecommunications; terminals; and related systems and products. Electro-Mechanical Products include floor care equipment, meter, and motor products such as vacuum cleaners and power tools manufactured for Sears Roebuck & Co.

Divisions

Defense Electronics Group

The Singer Company

Kearfott Guidance and Navigation
1225 McBride Avenue
Little Falls, New Jersey 07424
(201) 785-6000

Products: Airborne inertial, Doppler and hybrid navigation and guidance systems; time ordered ranging systems; analog computers; digital computers; analog-digital/digital-analog converters; airborne multiplex systems; digitally controlled support equipment; test equipment platforms, gyros, accelerometers and inertial packages; electronic assemblies; servomechanism components including synchros, resolvers, servomotors and tachometers; synchronous and stepping motors; electromechanical and hydraulic actuators.

Electronic Systems
164 Totowa Road, CN975
Wayne, New Jersey 07474-0975
(201) 785-6000

HRB
P.O. Box 60
Science Park Road
State College, Pennsylvania 16804
(814) 238-4311

ESM Systems which include system engineering and analysis, airborne reconnaissance systems; fixed and mobile signal processing, graphic computer analysis techniques, special signal anayus techniques, quick reaction capability, special purpose displays and EW simulation.

Librascope
833 Sonora Avenue
Glendale, California 91201
(818) 244-6541

Products: Naval weapon control systems, underwater acoustic systems, computing and data processing systems for shipborne antisubmarine warfare applications; mobile command/control and communications systems for the army; fixed station command/control systems for air defease including real-time displays ranging from CRT to very large screen; computer peripheral equipment such as disc memories and encoders.

Dalmo Victor
1515 Industrial Way
Belmont, California 94002-4095
(415) 595-1414

Products: Electronic warfare systems, principally radar-threat warning devices for aircraft, helicopters, and ships; antennas; surveillance systems; naval electronic countermaneuvers; and software systems.

Training Systems Group

Link Flight Simulation
Binghamton, New York 13902-1237
(607) 721-5465

Products: Simulators for aircraft flight and mission, missile and spacecraft, and visual; general aviation flight trainers.

Link Simulation Systems
11800 Tech Road
Montgomery Industrial Park
Silver Spring, Maryland 20904
(301) 622-4400

Products: Simulators for ASW flight and tactics, helicopter, locomotive, ships handling, VTOL trainers for aircraft flight, cockpit procedures, flight procedures; Part task, radar, submarine, power generating station simulators.

Simuflite
P.O. Box 619119
D/FW Airport, Texas 75261
(214) 456-8000

Products: Flight simulators for coporate/commercial aviation.

Allen
209 Madison Street
Alexandria, Virginia 22314
(703) 548-4200

Design: high-technology training programs and produces related courseware.

Education
80 Commerce Drive
Rochester, New York 14623
(716) 334-8080

Products manufactured for the consumer.

Electro-Mechanical Products

Motor Products
Pumpkington Highway
P.O. Box 35
Pickens, South Carolina 29671
(803) 878-6331

Portable electronic power tools, aluminum die castings, small universal motors, floor care products.

Meters
13500 Philmont Avenue
Philadelphia, Pennsylvania 19116
(215) 673-2100

Products: Flow meters, flow control instruments, large gas meters, gas equipment accessory apparatus, turbine meters, laboratory apparatus.

Sippican Inc.

(formerly Sippican Ocean Systems, Inc.)

7 Barnabas Road
P.O. Box 861
Marion, Massachusetts 02738
(617) 748-1160

Officers: Richard I. Arthur, president & chief executive officer; Richard W. Bixby, v.p.-engineering; David P. Gagnon, v.p.-manufacturing, sonobuoys; Stephen S. Galliker, v.p.-finance & treasurer; Henry C. Hall, v.p. & controller; John Kelso, v.p.-manufacturing, standard products; William E. Walsh, Jr., sr. v.p.-engineering, marketing & program management; Howard C. Mott, v.p.-quality systems; Richard Testa, secretary.

Directors: Thayer Francis, Jr., chairman; Robert S. Ames, Richard I. Arthur, Alfred M. Bertocchi, Ruel C. Mercure, Jr., Daniel Semels, Alfred J. Whittle, Jr.

Area of Work: The company designs, develops, manufactures and markets expendable oceanographic instrumentation and associated support systems, sonobuoys, acoustic and radio frequency communications devices and mine actuators, and is developing underwater training targets, for use primarily by the United States and other free world navies, as well as by the scientific community. The Company's products are utilized in antisubmarine and mine warfare and for submarine command, control and communication. Sippican's expendable temperature probes are used to predict sonar detection ranges, a critical input to tactical deployment of antisubmarine warfare forces. The Company's products are also employed by oceanographers to compute current flow, ocean-atmosphere heat transfer and other variable physical phenomena, in the study of energy transport in the ocean, and in other scientific applications.

Pfeffer, Jr., Henry Wendt, Drew Lewis, George W. Ebright, Hanziel E. Evans, Thomas W. Langfitt, Harold W. Pote, Linda Gosden Robinson, Leon E. Rosenberg.

Areas of Work: Engaged in the fields of health care and high technology. Markets a broad line of prescription and proprietary products for human and animal health as well as diagnostic and analytical products and services that facilitate the detection and treatment of disease and the advancement of biomedical research.

Products for the separation of biological materials include ultracentrifuges, low-speed centrifuges and high-performance liquid chromatography systems. Products for the detection, monitoring and quantification of biological materials include spectrophotometers, nuclear counters and electrochemical instruments. Instrumentation for analysis of molecular structure and composition includes an amino acid analyzer and an instrument for determining protein and peptide sequences. The Company also produces a DNA synthesizer which uses licensed phosphoramidite chemistry and microprocessor control to speed and simplify the synthesis of nucleic acids and a peptide synthesizer which enables scientists to duplicate or make analogs of the structures of natural peptides or small proteins. The Company has also introduced an automated laboratory work station using robotics technology.

*Members of the Executive Committee.

Areas of Work: Manufactures a wide variety of video equipment, audio equipment, televisions, electronic components, information processing equipment, and telecommunications systems.

Subsidiaries (Japan):

Sony Ichinomiya Corporation
Manufactures color TVs and VTRs (video tape recorders).

Sony Kohda Corporation
Manufactures VTRs.

Sony Kisarazu Corporation
Manufactures VTRs, CD (compact disc) players, and flat TVs.

Sony Minokamo Corporation
Manufactures video equipment.

Sound System Corporation
Manufactures key components for VTRs and CD players.

Sony Inazawa Corporation
Manufactures color TV tubes.

Sony Denshi Corporation
Manufactures color TV and TV components.

Motomiya Denshi Corporation
Manufactures security systems, flat display tubes, and key components for televisions and VTRs.

Sony Audio Inc.
Manufactures audio/video/camera/optical systems for home and industrial use.

Sony Mizunami Corporation
Manufactures color TV tubes.

Taron Corporation
Manufactures audio and video equipment.

Sony Bonson Corporation
Manufactures tape recorders (including Walkmans), flat TVs, and car audio products.

Sony Tsukuba Corporation
Manufactures audio products.

Toyo Electronics Corporation
Manufactures audio products.

Sony Magnetic Products, Inc.
Manufactures audio and video recording tapes and ferrite products.

Sony Kokubu Semiconductor Corporation
Manufactures semiconductors.

Sony Shiroishi Semiconductor Inc.
Manufactures semiconductors.

Sony Oita Corporation
Manufactures semiconductors.

Tohkai Electronics Corporation
Manufactures printed circuit boards.

Sony Asco Inc.
Manufactures micro floppydisk drives.

Sony Haneda Corporation
Plating.

Sony Chemicals Corporation
Manufactures videotapes, adhesives, and electronic components.

Sony Telecom Inc.
Sale of information and telecommunications systems.

Sony Video Software International Corporation
Manufactures and markets video software.

Aiwa Co., Ltd.*
Manufactures and markets tape recorders, hi-fi audio systems, and VTRs.

Sony Magnescale Inc.*
Manufactures and markets Magnescale digital position readout systems, digital gauging systems, Magnescale CNC systems, instrumentation tape recorders, and Sprinter high-speed video duplicating systems.

CBS/Sony Group Inc.*
Manufactures and markets phonograph records, music tapes, and compact discs.

Sony/Tektronix Corporation*
Manufactures and markets oscilloscopes. *Unconsolidated subsidiaries and affiliated companies.

Subsidiaries (United States)

Sony Corporation of America
9 West 57th Street
New York, New York 10019
(212) 371-5800
Manufactures and sale of Sony products in the United States.

Digital Audio Disc Corporation
Manufactures compact discs.

Areas of Work: The Company is involved in two business segments: electrical equipment and electronic products. The electrical equipment group manufactures and markets electrical products including switches, circuit breakers, panelboards, switchboards, transformers, motor starters, relays and accessories such as pushbuttons, limit, pressure and vacuum switches. The products are marketed to electrical contractors, electrical utilities and industrial plants.

The electronic products segment is engaged in the manufacture and sale of electrodeposited copper foil, semiconductor devices, power conditioning equipment, programmable controllers, energy management systems, infrared radiation thermometers and pyrometers, computerized control and data gathering systems, snap dome switches and other electronic devices.

Areas of Work: The Electronics Group manufactures electronic components, inductors, capacitors, connectors, EMI/RFI filters, microcoils, reed switches and reed relays. the Industrial Group manufactures embossing rolls and plates, mold engraving, specialty converting and finishing machinery and systems; ducting for heating, air-conditioning, and ventilation systems; power metal spinning of components for aerospace, energy systems, and industrial applications. The Consumer Products Group manufactures and sells pine furniture and furnishings through its Yield House mail order operation and manages a chain of 20 Yield House retail stores; sells grapefruit and other gift packages and fund raising supplies through other mail order operations. The Institutional Products Group manufactures patient feeding systems, handblown glassware, barbecuing and baking equipment, candle-lamps and candles, food waste disposers, refrigeration equipment, slicing machines and choppers, casters and wheels, and food racks, cabinets and carts. The Graphics Group publishes religious literature and manufactures election supplies; manufactures commercial printing products and educational materials and specialized binding systems; operates a chain of 17 Berean religious retail bookstores.

Electronics Divisions & Subsidiaries:

B.F. Standex Electronics
4538 Camberwell Road
Cincinnati, Ohio
(513) 871-3777
Manufacturer of electronic components and assemblies for the color television, automotive and communications industries.

Van Products
4538 Camberwell Road
Cincinnati, Ohio
(513) 871-3777.
Manufacturer of hermetic electrical connectors for the refrigeration and air conditioning industries.

Standex Electronics (UK) Limited
Morley Road
Tonbridge, Kent, England
Tonbridge, 0732 358023 England
Manufacturer of the full range of standard reed switches; also vacuum and high pressure reed switches and DIP reed relays, for the telecommunications and electronics industries.

Standex Electronics (Haiti) S.A.
Avenue Haile Selassie
Rt. Simmonds
Port au Prince, Haiti
Manufacturer of fixed precision mica capacitors and variable mica capacitors for the automotive and communications industries.

Paul Smith Company (Douglas)
323 G Avenue
Douglas, Arizona 85607
(602) 364-7964
Manufacturer of electronic components.

Standex Electronics
P.O. Box 10147
3750 Prospect Avenue
Riviera Beach, Florida 33404
Manufacturer of EMI/RFI filters and quality control and warehousing operations supporting Standex Electronics (Haiti) S.A.

S.I. de Mexico S.A. de C.V.
Calle Primera #2550
Agua Prieta
Sonora, Mexico
(602) 364-7966
Manufacturer of electronic components.

Paul Smith Company
4538 Camberwell Road
Cincinnati, Ohio 45209
(513) 871-3777
Manufacturer of fixed and variable precision inductors for the color TV and communications industries; also of custom designed, high voltage transformers for solid state furnace ignition systems.

Gerald L. Green Company
Fountain Valley, California
Designs, manufactures and installs digital measuring and monitoring equipment for cranes and other large lifting devices.

Areas of Work: Engaged in the design, manufacture and marketing of diagnostic, test and service equipment for the transportation industry, utilizing microcomputer applications and advanced electronics. The company serves primarily the vehicle service industry, consumers, and motor vehicle manufacturers in more than 100 countries. Sun Electric's product line includes engine and emissions analyzers, wheel service equipment, including balancers, aligners and brake service equipment; a line of hand-held engine test equipment for home mechanics and repair professionals; and air conditioning and electrical systems testers. These products aid in vehicle maintenance, improve fuel economy, monitor exhaust emissions and check compliance with safety standards.

Officers: Yutaka Otoshi, chairman; Hiroshi Sato, president; Sho Masujima, executive managing director; Makoto Komoda, executive managing director; Goro Suzuki, executive managing director; Masao Chihara, executive director; Hiroshi Sawano, executive director; Yasuo Imaoka, executive director; Takao Masaki, executive director; Sadao Iwaya, executive director; Matsuo Takeuchi, executive director; Fukujiro Sono, executive director & adviser; Katsuro Kamiya, executive director & adviser; Toyohiko Maruta, auditor; Akira Iizuka, auditor.

Areas of Work: The Company is the world's leading manufacturer of magnetic recording tapes and ferrite products and a major producer of coil, ceramic, and other components. These components include ferrite cores and magnets, rare-earth cobalt magnets, magnetic heads, inductors/coils, transformers, switching power supplies, DC-DC converters, noise filters, composite components, high-voltage units, thermal reed switches, microwave components, ceramic capacitors speakers, chip composite components, hybrid integrated circuits, varistors, thin-film heads, and MR sensors.

Subsidiaries (Japan):

Iida TDK Co., Ltd.
Production of TV and radio coil components.

Tsuruoka TDK Co., Ltd.
Production of coil components.

Yuza TDK Co., Ltd.
Production of ceramic components.

Kinagata TDK Co., Ltd.
Production of ceramic components.

Yashima TDK Co., Ltd.
Production of rotary transformers and noise filters.

Ujo TDK Co., Ltd.
Production of ceramic components.

TDK Service Co., Ltd.
Administration of welfare facilities for TDK and its employees.

TDK Design Core Co., Ltd.
Advertising services mainly for TDK.

TDK MCC Co., Ltd.
Production of multilayer ceramic capacitors.

Iwaki Kogyo Co., Ltd.
Plating of TDK metallic parts.

Yuri TDK Co., Ltd.
Production of coil components.

Konoura TDK Co., Ltd.
Production of coil components.

TDK Core Co., Ltd.
Production and sale of educational tapes.

Ouchi TDK Co., Ltd.
Production of coil components.

TDK Distributor Co., Ltd.
Warehousing of TDK products.

Sakata TDK Co., Ltd.
Production of coil components.

Honjo TDK Co., Ltd.
Production of alumina substrates and hydrid ICs.

Kofu TDK Co., Ltd.
Assembly of magnetic floppy heads.

Yuzawa TDK Co., Ltd.
Assembly of noise-suppression connectors and antenna terminal capacitor units.

Toso TDK Co., Ltd.
Assembly of microwave components.

Tech-Sym Corporation

10500 Westoffice Drive
Houston, Texas 77042
(713) 785-7790

Officers: Wendell W. Gamel, chairman of the board & president; Robert E. Moore, v.p., secretary & general counsel; Ray F. Thompson, treasurer, controller & president-Syntron, Inc.; Coy J. Scribner, v.p. & president-Metric Systems Corp..

Directors: Keith R. Beeman, Wendell W. Gamel, Robert E. Moore, Joal A. Teruko, Coy J. Scribner, Rollin J. Sloan, Christopher C. Kraft, Jr., Albert A. Gallotia, Jr., Charles K. Watt.

Divisions and Subsidiaries:

TRAK Microwave Corporation
4726 Eisenhower Boulevard
Tampa, Florida 33634
(813) 884-1411

Designs, manufactures and markets a variety of electronic microwave components that are sold to manufactures of electronic systems.

TRAK Microwave Company Limited
3 Lindsay Court
Dundee Technology Park
Dundee DD2 1TY Scotland
0382 561509

Manufactures a broad range of ferrite isolators and circulators, along with a variety of other passive microwave components, for commercial applications.

Metric Systems Corporation
645 Anchors Street
Fort Walton Beach, Florida 32548
(904) 244-9600

Produces military electronics, industrial and commercial data interface, monitoring and data processing. Military electronic products include timing terminals, the IRIG Time Reader, real time interface systems, meterological data processing systems, and other computer oriented systems. Produces monitoring and controls products and systems for paper mill boiler operations, paper production and electric power companies. Has developed a microprocessor, a small scale digital computer designed around a central integrated circuit. The Aeromechanics Division of Metric Systems Corporation is a supplier of materials and equipment for the domestic military transportation market; products include aerial delivery equipment.

Enterprise Electronics Corporation
Industrial Boulevard
P.O. Box 1216
Enterprise, Alabama 36331
(205) 347-3478

World-wide supplier of radar systems for meterology. The systems detect, analyze and display information on weather patterns.

Tecom Industries, Inc.
9324 Topanga Canyon Blvd.
Chatsworth, California 91311
(818) 341-4010

Manufactures antennas for surveillance, communications, electronic warfare, missiles, and telemetry. Other products include positioners and controllers.

Acquisition:

Syntron, Inc.
3000 Hayes Road
Houston, Texas 77082
(713) 531-1100

Manufactures marine seismic equipment.

Teledyne, Inc.

1901 Avenue of the Stars
Los Angeles, California 90067
(213) 277-3311

Officers: Henry E. Singleton, chairman of the board; George A. Roberts, chief exec. officer & president; Leo W. Killen, vice president; G. Williams Rutherford, vice president; Allen H. Orbuch, vice president; Jerrold V. Jerome, vice president; Hudson B. Drake, vice president; William P. Rutledge, vice president; Gordon J. Bean, treasurer; Judith R. Nelson, secretary.

Directors: Henry E. Singleton, chairman; George Kozmetsky, George A. Roberts, Arthur Rock, Fayez Sarofim.

Areas of Work: The Company's major business segments include aviation and electronic products, industrial products, specialty metal products, and consumer products. Aviation and electronic products include aircraft engines, airframe structures, remotely piloted vehicles, drone systems, spacecraft and avionics. This segment also includes the manufacture of semiconductors, relays, aircraft monitoring and control systems, military electronic equipment and other related products and systems. Internal combustion engines are the major product of the industrial segment, including the manufacture of air and water cooled, gasoline and diesel fueled engines. Other products in this segment include machine tools, dies and consumable tooling. Specialty metal products include zirconium, high-speed and alloy steels, tungsten and molybdenum. Other operations in this segment include processing, casting, rolling and forging metals. The consumer segment includes oral hygiene products, shower massages, water filters, high fidelity speakers and other products and service. The Company also conducts insurance operations.

Divisions and Subsidiaries:

Aviation and Electronics

Teledyne Aerospace Systems
1007 E. 10th Street
Fairmont, Minnesota 56031
Designs and produces high quality multi-conductor electrical cable assemblies and wiring harnesses.

Teledyne Avionics
Charlottesville-Albemarle Airport
Charlottesville, Virginia 22906
Produces angle of attack instrumentation, pneumatic instrumentation such as the IVSI (Inertial-lead Vertical Speed Indicator), and audiometers used to screen children for hearing disabilities.

Teledyne Battery Products
840 West Brockton
Redlands, California 92374
Designs and manufactures dry charged lead acid batteries for military trucks, aircraft, standby power, and other specialty applications.

Teledyne Brown Engineering
Cummings Research Park
Huntsville, Alabama 35807
Manufactures missile components and subsystems and targets and drones for the military; performs tasks ranging from ground test support for the main engine to the role of payload integration, in the U.S. Shuttle program.

Teledyne CAE
1330 W. Laskey Road
Toledo, Ohio 43612
Designs, develops and manufactures gas turbine engines.

Teledyne Camera Systems
131 North Fifth Avenue
Arcadia, California 91006
Manufactures photographic instrumentation, photo-optical systems and components including specialized airborne cameras, underwater photographic equipment and infrared detection systems.

Teledyne Continental Motors Aircraft Products
Brookley & Industrial Complex
Mobile, Alabama 36615
Produces aircraft piston engines.

Teledyne Controls
12333 W. Olympic Boulevard
Los Angeles, California 90064
Produces a wide variety of electronic equipment for commercial military and other applications, including airborne electronic equipment utilizing automatic digital communication.

Teledyne Crystalonics
147 Sherman Street
Cambridge, Massachusetts 02140
Manufactures high reliability semiconductors and specializes in the redevelopment of silicon transistor, tuning and current regulator diodes and hybrid microcircuits.

Teledyne Electro-Mechanisms
110 Lowell Road
Hudson, New Hampshire 03051
Produces flexible etched circuitry used in high reliability aerospace and electronic applications where space and weight requirements must be kept to a minimum.

Teledyne Electronics
649 Lawrence Drive
Newbury Park, California 91320
Designs, develops and manufactures airborne and ground based identification systems and test equipment (Identification Friend or FOE/Air Traffic Control). Also produces telemetry transmitters, multiplexers and signal conditioning equipment.

Teledyne Hastings-Raydist
804 Newcombe Avenue
Hampton, Virginia 23661
Provides products and services for navigational purposes such as precise radio location and positioning in inland and coastal waterways.

Teledyne Kinetics
410 South Cedros Avenue
Solcna Beach, California 92075
Designs and manufactures proprietary electro-mechanical products including motor drive switches for use on missiles and space vehicles and printed circuit connectors.

Teledyne Lewisburg
Industrial Park
Lewisburg, Tennessee 37091
Manufactures high reliability electronic and electromechanical equipment for defense, space and industrial applications including UHF radio communications systems, fixed station transceivers, process control equipment for nuclear energy plant safety systems and data acquisition equipment for wind tunnel operation and control.

Teledyne McCormick Selph
3601 Union Road
Hollister, California 95023
Produces ordnance devices and specialty chemicals.

Teledyne MEC
3165 Porter Drive
Palo Alto, California 94304
Manufactures microwave devices for use in electronic counter measures.

Teledyne Microelectronics
12964 Panama Street
Los Angeles, California 90066
Manufactures custom, high-reliability hybrid microcircuits.

Teledyne Microwave
1290 Terra Bella Avenue
Mountain View, California 94043
Designs and manufactures passive and active microwave devices and subsystems including filters, multiplexers and integrated sub-assemblies; ferrite components including circulators and isolators; coaxial, SPDT, transfer and multithrow switches and voltage controlled oscillator systems.

Teledyne Neosho
Doniphan Drive
Neosho, Michigan 64850
Precision gear for jet, turbine, and reciprocating engines.

Teledyne Philbrick
Allied Drive at Route 128
Dedham, Massachusetts 02026
Manufactures hybrid and modular electronic components including data converters, linear circuit components, nonlinear components and power supplies.

Teledyne Relays
12525 Daphne Avenue
Hawthorne, California 90250
Manufactures hermetically sealed electromechanical relays and solid state relays for electronic applications.

Teledyne Ryan Aeronautical
2701 Harbor Drive
San Diego, California 92138
Designs and develops remotely piloted supersonic airborne vehicles, Doppler velocity sensors, radar and infrared altimeters, microwave and electronically scannable antennas and space landing radars.

Teledyne Ryan Electronics
8650 Balboa Avenue
San Diego, California 92123
Designs and manufactures high technology radar related navigation and avionic systems.

Teledyne Semiconductor
1300 Terra Bella Avenue
Mountain View, California 94043
Manufactures semiconductor components and integrated circuits.

Teledyne Systems
19601 Nordhoff Street
Northridge, California 91324
Engaged in the manufacture of airborne and spaceborne computers, intertial and radio frequency navigation systems, custom test and ground support systems. Sales are principally to government and defense.

Teledyne Thermatics
P.O. Box 909
Elm City, North Carolina 27822
Full service wire and cable company.

Directors: John H. Remer, L. K. Black, John J. Sickler, Lewis E. Hatch, Jr., Pemberton Hutchinson, Palmer E. Retzlaff, Donald Beckman, Lewis W. Bluemle, Jr., David S. Boyer, Richard A. Woodfield.

Areas of Work: Specialized mechanical, electromechanical, and hydraulic control systems including steering, engine controls, and cable linkages for aircraft, space vehicles, commercial ships and vehicular industries. Measurement and control systems for nuclear and chemical reactors, industrial processes, and other hostile atmospheres. Custom designed mechanical wire and cable controls including accelerators and cruise controls, hood releases, transmission and shift controls, disappearing tailgate window regulator system, heater, vent, and air conditioning controls, brake release controls, seat-back latches, and sunroof helical cable assemblies for automotive and motor truck industries. Engine control systems, electrical instrumentation systems, cables and wiring harnesses for buses, trucks, industrial and leisure vehicles. Mechanical steering systems, engine control systems and cables, electrical instrumentation systems and wiring harnesses for pleasure marine industry. Sermo-Tel inorganic corrosion resistant coatings and processes, ceramic compounds, and composites for aerospace, electronic, and industrial markets. Highly engineered fluoroplastic products including smooth wall and convoluted tubing, sleeving, and conduit, shapes, profile, custom linings and lined products, braided hose, custom wire products, rod and bending, and heat shrinkables for aerospace, automotive, industrial, medical and electronic applications.

Texscan Corporation

(Operating under Chapter 11 of the U.S. Bankruptcy Code.)

7320 East Butherus Drive, Suite 200
Scottsdale, Arizona 85261
(602) 998-1788

Officers: James R. Bonfiglio, chairman, president, chief exec. and operating officer; Rene L. Flores, v.p.-finance, chief financial officer & secretary; William P. Dawson, v.p. & gen. mgr.-Instruments Division; William L. Firestone, v.p. & gen. mgr.-Communications Products Division; John R. Smith, v.p. & gen. mgr.-European Operations; David W. Keller, v.p. & gen. mgr.-MSI; Norman R. Barnard, v.p.; Berthold L. Henscheid, v.p.; Raymond G. Pastie, v.p.

Directors: James R. Bonfiglio, chairman; William L. Firestone, Burton G. Mendelson.

Texscan Corporation

Areas of Work: Designs, manufactures and markets a broad line of CATV distribution and testing equipment which is sold under the Theta-Com trademark, and CATV character generation equipment which is sold under the MSI trade name. CATV distribution equipment includes trunk amplifiers, line extenders, passives, power supplies and subscriber taps. CATV character generation equipment is used primarily in weather reporting, news and other textual displays. Also designs, manufactures and markets multipoint distribution system ('MDS') down converters under the Theta-Com trademark. The principal purchasers of the Company's products are operators of CATV systems. In addition, the Company designs and manufactures RF testing equipment, including spectrum analyzers, sweep signal generators, oscilloscopes, microwave filters, and coaxial components for laboratory, communications and industrial uses under the Texscan trademark. Designs, manufactures and markets nonaddressable converters. Designs and manufactures standby power supplies for CATV systems.

Areas of Work: A multi-industry company with operations in three business sector: aerospace technology, commercial products, and financial services.

Divisions and Subsidiaries:

AEROSPACE TECHNOLOGY

Textron Lycoming
550 South Main Street
Stratford, Connecticut 06497
(203) 385-2000
Manufacturs gas turbine engines for the military.

Textron Aerostructures
P.O. Box 210
Nashville, Tennessee 37202
(615) 361-2000
A major subcontractor to the aerospace industry. Principal products are wings and tail sections for military aircraft.

Textron Specialty Materials
Two Industrial Avenue
Lowell, Massachusetts 01851
(617) 452-8961
Develops and manufactures advanced composite materials and components, particularly for high-temperature use.

Textron Defense Systems
201 Lowell Street
Wilmington, Massachusetts 01887
(617) 657-5111
Develops and produces advanced technology weapon systems for the U.S. Department of Defense. Products include the reentry system and the Mark 21 reentry vehicle and fuze for the Peacekeeper missile.

Ex-Cell-O Corporation
2855 Coolidge Road
Troy, Michigan 48084
(313) 637-1000
Major product lines of the company fall into three industry segments: Aerospace/Defense includes precision blades and vanes, turbomachinery rotating components, fuel metering devices, turret control and stabilization systems, lightweight armored vehicles, and related products; Automotive products include interior and exterior flexible urethane parts, gaskets, small DC motors, armatures, and windshield washer systems; industrial products include metal cutting and metal forming machine tools, cutting tools and abrasives, packaging and materials handling equipment, contractors' tools, power transmission equipment, computer-aided manufacturing controls.

Bell Aerospace Textron
P.O. Box One
Buffalo, New York 14240
(716) 297-1000
Rocket engines, communications and air cushion systems, aircraft landing systems, missile and spacecraft propulsion systems, rocket propellant tanks, inertial navigation instruments, gravity sensing systems, air cushion vehicles and surface effect ships.

Bell Helicopter Textron, Inc.
P.O. Box 482
Fort Worth, Texas 76101
(817) 280-2011
Military and commercial helicopters and vertical lift aircraft, systems integration, spare parts.

HR Textron Inc.
25200 West Rye Canyon Road
Valencia, California 91355
(805) 259-4030
System studies and analyses, flight control actuators, servovalve controls, cryogenic coolers, filters, automatic test equipment and product support.

Aircraft Engine Components
P.O. Box 11906
Wetington, Connecticut 06111
(203) 666-4601
Manufactures to customer design, gas turbine engine components such as discs, hubs, cases, frames and precision gears for engine producers and the spare market.

Airfoil Textron
P.O. Box 6427
Lima, Ohio 45802
(419) 226-2900
Produces titanium and superalloy compressor components, both forgings and finished parts, for the domestic and international gas turbine industry.

Fuel Systems Textron
700 North Centennial
Zeeland, Michigan 49464
(616) 772-9171
Major products are fuel nozzles, manifolds and augmentors for military and commercial customers.

Cadillac Gage Textron
P.O. Box 1027
Warren, Michigan 48090
(313) 777-7100
Produces lightweight armored combat vehicles, turrets and weapon/turret control and stabilization systems.

Textron Marine Systems
6800 Plaza Drive
New Orleans, Louisiana 70127
(504) 245-6600
Produces air cushion vehicles and surface effect ships, principally for the U.S. Department of Defense.

COMMERCIAL PRODUCTS

North American Machine Tool
P.O. Box 700
Walled Lake, Michigan 48088
(313) 624-7800
Designs and manufacture of proprietary production machine tools, components and systems for the automotive, applicance, aerospace, bearing off-highway and plastic components industries.

Davidson Exterior Trim Textron
Route 6, Box 10
Americus, Georgia 31709
(919) 924-6111
Manufactures and supplies exterior trim parts, principally fascia and body moldings, to manufacturers of cars and light trucks.

Davidson Instrument Panel Textron
875 Greenland Road
Building C
Portsmouth, New Hampshire 03801
(603) 433-4142
Develops, manufactures and markets high technology plastic instrument panels to car and light truck producers.

Davidson Interior Trim Textron
Industrial Park
Dover, New Hampshire 03820
(603) 742-0720
Designs, engineers, manufactures and markets polymer-based trim components for automobiles and light trucks.

McCord Winn Textron
620 Washington Street
Winchester, Massachusetts 01890
(617) 729-4400
Manufactures electro-mechanical components for automobile and light truck producers.

Contractor Tool and Equipment Textron
4455 Boeing Drive
Rockford, Illinois 61109
(815) 399-2078
Has two operations: Greenlee Tool Company, which produces conduit benders, cable pullers and punch and die metal hole-making systems for electricians; and Forest City Tool Company, which manufactures woodworking tools including wood augers, router bits and indexible tooling for the furniture and wood-working markets.

CWC Castings
Henry Street
Muskegon, Michigan 49441
(616) 733-1331
Iron castings for engine blocks, camshafts, cylinder heads, gears, manifolds, housings, transmission cases and other ferrous casting applications.

Randall
P.O. Box 46334
Cincinnati, Ohio 45246
(513) 896-9400
Manufactures metal and plastic parts and trim used in the automotive and appliance industries.

Speidel
70 Ship Street
Providence, Rhode Island 02903
(401) 421-8600
Watchbands, identification bracelets, analog quartz watches, jewelry, men's toiletries, and women's fragrances.

Camcar
600 18th Avenue
Rockford, Illinois 61108
(815) 226-3600
Cold-formed metal parts, proprietary and special fasteners for aerospace, automotive, railroad, and appliance industries.

Cherry
1224 East Warner Avenue
P.O. Box 2157
Santa Ana, California 92707
(714) 545-5511
Proprietary fastening systems for aerospace and commercial applications, lockout products and installation tools.

Townsend
5250-77 Center Drive
Suite 300
Charlotte, North Carolina 28217
(704) 525-8003
Special fasteners and cold-formed metal parts for aerospace, automotive, railroad, metal working, industrial construction industries and fastening systems.

Homelite
14401 Carowinds Boulevard
P.O. Box 7047
Charlotte, North Carolina 28241
(704) 588-3200
Chain saws, string trimmers, generators blowers, heaters, and pumps.

Jacobsen
1721 Packard Avenue
Racine, Wisconsin 53403
(414) 637-6711
Lawn mowers, snow throwers, lawn and garden tractors, commercial turf maintenance equipment.

E-Z-Go
P.O. Box 388
Augusta, Georgia 30913
(404) 798-4311
Produces gas and electric golf cars and utility vehicles.

FINANCIAL SERVICES

Textron Financial Corporation
P.O. Box 6687
Providence, Rhode Island 02940
(401) 272-8000
Financing and leasing programs to Textron Divisions to facilitate sale of their products.

Avco Financial Services
P.O. Box 19701
Irvine, California 92713
(714) 533-1200
Consumer finance.

Avco Insurance Services/Balboa Life and Casualty
P.O. Box 19702
Irvine, California 92713
(714) 533-0700
Collateral protection, credit life, disability and property casualty insurance.

Paul Revere Insurance Group
18 Chestnut Street
Worcester, Massachusetts 01608
(617) 799-4441
Principal product is individual noncancellable disability income insurance.

Thermo Electron Corporation

101 First Avenue
P.O. Box 9046
Waltham, Massachusetts 02254
(617) 890-8700

Officers: George N. Hatsopoulos, chairman of the board, president & chief executive officer; George Caryotakis, exec. v.p. and chief financial officer; Robert C. Howard, exec. v.p.; John N. Hatsopoulos, exec. v.p.; Peter G. Pantazelos, exec. v.p.; Walter J. Bornhorst, sr. v.p.; Arvin H. Smith, sr. v.p.; Paul F. Ferrari, treasurer & secretary; Jerry F. Davis, vice president; Firooz Rafeh, vice president; John P. Appleton, vice president; Marshall J. Armstrong, vice president; William A. Rainville, vice president; Paul F. Kelleher, v.p. & controller.

Directors: George N. Hatsopoulos, chairman; Robert A. McCabe, Donald E. Noble, Alexander V. d'Arbeloff, Peter O. Crisp, Frank Jungers, Roger D. Wellington, Elias P. Gyftopoulos, John M. Albertine, Hutham S. Olayan.

Areas of Work: Provides industry, utilities, and government with high technology equipment and services, in fields of energy conversion, cogeneration systems, instruments to monitor nuclear radiation, and critical air pollutants; equipment used in the manufacture of computers and electronics, magnetic tapes and films, and components for national defense. Six groups of operations include cogeneration systems, instruments, process equipment, metallurgical services, R & D Center, and thermedics.

Divisions and Subsidiaries:

Thermo Environmental Corporation (81%-owned)
Nuclear health physics, hazardous waste management, water management and civil engineering, environmental consulting and monitoring, and industrial hygiene.

Tecogen Inc. (74%-owned)
Packaged cogeneration equipment, gas-fired commercial cooling systems, and cogeneration operating and maintenance services.

Thermo Instrument Systems Inc. (87%-owned)
Environmental/pollution instruments, specialty process controls, nuclear radiation monitors, and analytical instruments.

Thermo Process Systems Inc. (87%-owned)
Metallurgical heat-treating systems, hazardous waste incinerators, and aerospace/defense heat-treating services.

Thermedics Inc. (67%-owned)
Heart assist devices, biocompatible polymers, wound dressing products, percutaneous access devices, enteral feeding products, instruments and detectors.

Officers: Alain Gomez, chairman of the board & chief executive officer; Alain Bougault, executive v.p.; Henri Starck, executive v.p.; Rene Anastare, executive v.p.-international operations; Pierre Gosselin, v.p.-manufacturing; Michel H. Carpentier, v.p.-research & development; Jean-Louis Vitalis, v.p.-public contracts administration.

Directors: Alain Gomez, chairman; Norbert Anaquer, Alain de Bouard, Alain Bougault, Gerald Cauvin, Claude Frejacques, Francois Gibault, Philippe Giscard d'Estaing, Jean-Claude Hirel, Michel Jaugey, Francois Monty, Jean-Benoit Rame, Joel Tasse, Rene Thomas, Alain de Wulf.

Areas of Work: Manufactures electronics and defense systems, electronic components, medical equipment, and television and professional video hardware.

In the area of electronics and defense systems, the Company manufactures airborne fire control and surveillance radar, airborne active and passive counter-measures systems, missile electronics, control and combat simulators for aircraft and AFV synthetic imaging and display systems, simulators for thermal and nuclear power stations, surface-to-air weapon systems and command/control centers, air navigation and landing aid equipment, radio transmission equipment, artillery and ground surveillance radar equipment, sonar and undersea weapon fire control equipment, high power grid tubes and RF devices, tubes for image detection, intensification and display, and solid state optoelectronic devices.

Thomson-CSF

In the area of electronic components, the Company manufactures semiconductor devices and passive components, including capacitors and ferrites, oscillators and piezoelectric fibers.

In the area of medical equipment, the Company manufactures diagnostic equipment, including conventional and digital radiology equipment, x-ray equipment, magnetic resonance imaging equipment, echographic equipment, scanner systems, and mammographic equipment.

Other industrial areas include the manufacture of the Betacam (OB camera with inbuilt video recorder), electronic microprobes, ionic micro-analysers, and electron scanner microscopes.

Levett, personnel-Lighting & Kenwood; G. G. Roberts, dir.-research.

Areas of Work: The Company's operations are divided into five areas: Rental and Retail, Technology, Music, Lighting, and Kenwood.

Rental and Retail activities include the operation of Radio Rentals, Le Set, and DER, all consumer electronics rental chains doing business in the U.K.; THORN EMI TV and Video Centres operates Multi-broadcast and Focus rental/retail consumer electronics stores in the U.K.; the Company also operates Rumbelows, a consumer electronics and appliance retail chain doing business in the U.K. under the Rumbelows and Hometech names; Overseas operations include THORN EMI International Rentals (which operates consumer electronics rental stores in 13 countries); FONA electronic retail stores and HMV music retailing outlets, which operate primarily in the U.K. and Denmark.

The Company's Technology Group Focuses on five major high-technology markets--defense electronics, software, security, telecommunications, and semiconductors. Principal products include radar integration systems, advanced ticket issuing systems, hand-held thermal imagers, manportable surveillance and target-acquisition radar, data distribution systems for naval vessels, mortar location radar, electronic countermeasures systems aircraft early warning radar, aircraft engine fire detection systems, fuzes for air-launched missiles, artillery shells, klystron tubes for earth resource satellites, low light level sensing devices, fire and security protection equipment, information technology systems for the military, electronic retail point-of-sale terminals, railway power conversion and industrial drive controls, fare-collection equipment for railways, decision support and management software, computer maintenance services, digital public telephone exchanges, high-capacity optical fiber data package switches and computer-controlled business telephone systems, private automatic branch exchanges, measurement instruments, transputer products used in a wide range of applications including robotics, computer graphics, artificial intelligence and digital signal processing, and high-performance static Random Access Memories (RAMs).

Music operations include the production of recorded music, music publishing, music videos, the supply of duplicator magnetic tape and acetate discs to the international record industry, and the manufacture of compact discs.

Lighting products include high-pressure sodium lamps and fittings, incandescent and fluorescent lamps, miniature low-voltage tungsten halogen products for display markets, among others.

The Kenwood segment manufactures and distributes a wide range of small kitchen appliances.

Areas of Work: The Company's lines of business span industrial electronics and electronic components, heavy electrical apparatus, consumer products, and materials, machinery and other products.

In the area of Industrial Electronics, the Company produces office automation equipment, including computers, workstations, optical document filing systems, word processors, printers, floppy disk drives, optical character readers, and copiers; telecommunications equipment including private branch exchanges, push-button telephones, packet switching systems, data switches, and local area network systems; broadcasting equipment, including radio and television transmitters and color cameras; airport equipment, including radar systems and runway lighting equipment; space-related products, including engineering test satellites and broadcasting satellites; aerospace equipment and defense products; medical equipment, including computed tomography scanners, ultrasound diagnostic equipment, and magnetic resonance imaging systems; and labor-saving automation equipment, including letter- and package-sorting systems and banking machines.

In the area of Electronic Components, the Company produces semiconductors products, including memories, microprocessors, gate arrays, standard cells, logic ICs, bipolar ICs, power devices, diodes, and transistors; electron tubes, including color picture tubes, display tubes and magnetron tubes; and other electronic components, including printed circuit boards, charge-coupled devices, surface acoustic wave devices, sensors, and semiconductor lasers.

In the area of Consumer Products, the Company produces video products, including video cassette recorders and cameras, camcorders, video disc players, video tapes, and color televisions; audio products, including stereo systems, compact disc players, radio cassette recorders, headphone-type compact stereo cassette players, and portable and clock radios; household appliances, including room air conditioners, heaters, electric fans, washing machines, clothes dryers, vacuum cleaners, refrigerators, microwave ovens, food processors, juicers, blenders, toasters, rice cookers, and meat grinders; and lighting equipment, including incandescent and fluorescent bulbs, lamps, and lamp fixtures.

In the area of Heavy Electrical Apparatus, the Company produces power plant systems, including equipment for nuclear, thermal, geothermal and hydroelectric power plants, substations, computer-controlled transmission systems and subsystems; industrial electrical apparatus and measuring instruments, including control equipment for steel mills, pulp and paper plants, induction/synchronous/direct current motors, and process control instruments; factory automation systems and equipment, including industrial robots, unmanned carriers, computers and computer-aided design/computer aided-manufacturing systems with specific factory automation applications; and transportation equipment, including mass transportation control systems, electric locomotives, electrical equipment for railway coaches, railway substations, elevators and escalators.

In the area of Materials, Machinery and other Products, the Company produces materials, including steel tubing, alloys, quartz glass, ceramics, insulating materials, resin, magnetic and nonmagnetic materials, silicone, tungsten, and molybdenum products; machinery, including machine tools, precision machinery, semiconductor manufacturing equipment, plastic-fabricating machines, and die-casting equipment; and other products, including prefabricated housing, optical equipment, lightwave telemeters, and clinical thermometers.

Transducer Systems, Inc.

1510 Delp Drive
P.O. Box 341
Kulpsville, Pennsylvania 19443
(215) 256-4611

Officers: Michael Nakonechny, chairman of the board & chief exec. officer; Thomas J. Carduff, president, chief operating officer & secretary; R. Phillip Wallauer, v.p.; Mark J. Kadish, chief financial officer & treasurer.

Directors: Michael Nakonechny, Thomas J. Carduff, Harvey Mahlig, Alfred A. Zollo, Alfred Lifton.

Areas of Work: The Company designs, manufactures and markets electro-magnetic and electronic components for use in a variety of applications. Principal products include: magnetic pickups, digital-output sensor, zero-speed sensors and velocity transducers, sold to the computer peripheral industry for use in disk drives and printers; inverters which convert voltage from DC to AC, used in electroluminescent lamps; and printed circuit boards, cable harnesses, coils, and electronic sub-assemblies, for use by major aerospace-electronics equipment manufacturers.

Directors: Arch C. Scurlock, chairman; Jefferson W. Asher, Jr., William O'Bowers, III, Frank L. Bryant, John N. Grover, Richard Mascuch, Dan McBride, Richard J. Riordan.

Areas of Work: Develops, manufactures and markets a wide range of technically sophisticated products.

Aerospace -Defense products include cargo restraint and control products -- principally helicopter rescue hoists and external hook systems, winches and hoists for aircraft and other weapon systems, and aircraft and cargo tie-down devices; metallized glass -- fiber products (referred to as chaff) and related devices and systems; high-reliability devices containing solid propellants, high explosives, or pyro-technic materials; tear gas and related law enforcement products; custom electrical interconnection systems and their components, including a broad line of high-quality connectors; and weather instruments.

Advanced-Technology products include sophisticated computer-aided design and drafting (CADD) display workstations; bank automation equipment -- advanced reader-sorters and related accessories, check repair equipment, and automated terminals; and state-of-the-art message switching terminals and systems.

Industrial products include gear-driven fasteners, tachometers and related equipment, and crane accessories; textile-finishing machinery and related supplies, and elastomer products.

Areas of Work:

Automotive
A range of steering, engine, safety, hydraulic, chassis, electrical, electronic, and other parts for passenger cars, trucks, buses, farm machinery and off-highway vehicles, sold to original equipment manufacturers and a variety of replacement parts distributors.

Products include manual and power rack and pinion steering gears, occupant safety systems, engine valves, hydraulic motors, hydraulic truck and off-highway vehicle steering systems, suspension systems, electronic monitoring and control systems, electromechanical assemblies, stud welding systems, and a service line of cars and trucks accessories, tools and car care products.

Space & Defense
Electronic components, including large-scale integrated circuits used in the telecommunications, computer, instrumentation, and automotive industries.

Computer-based and analytical services, including software systems and analytical services for space and defense; and rapid prototyping software systems that allow customers to determine through computer modeling whether a software system will meet their needs before it is designed.

Electronic systems, equipment, and services for defense and space applications, related research and analysis, and software and support services.

Spacecraft, including the design and manufacture of spacecraft and their subsystems and components, for defense, scientific research, and communications.

Information systems and services, including computer-based consumer credit information and real estate credit information.

Other
Pumps, valves, and energy services, including submergible electric pumping systems, solids control equipment, power cables, valves, pumps, pump parts and drilling tools for oil and gas exploration, production, pipeline transmission, and other industrial purposes. These products are distributed directly to end users and through independent distributors.

A complete line of solids control equipment for the petroleum drilling industry. Applications include the cleaning of drilling fluids and gas separation for both on shore and offshore use.

Oilwell Cable Division
P.O. Box 945
2400 Packer Road
Lawrence, Kansas 66044
(913) 841-5610
Electric cable for powering submergible oil pumps.

Mission Drilling Products Division
P.O. Box 40420
Houston, Texas 77240
(713) 460-6200
Provides products and services for the oil/gas exploration and production market.

Reda Pump Co.
P.O. Box 1181
Fourth and Dewey
Bartlesville, Oklahoma 74005
(918) 661-2000
A complete line of submergible electrically driven, multistage centrifugal pumps.

United-Carr Division of TRW Canada Limited
455 Arvin Avenue
Stoney Creek, Ontario L8G 3Y4 Canada
(416) 664-4401
Relays, timing devices, electromechanical assemblies, combination locks, deep draw metal parts and stampings.

TRW Information Systems
200 Oceangate, Suite 1200
Long Beach, California 90802
(213) 590-7500
Provides consumer and commercial credit reporting services on a nationwide basis to credit-granting organizations. Markets a broad range of information services to the real estate and financial industries.

Real Estate Information Division
200 Oceangate, Suite 1200
Long Beach, California 90802
(213) 590-7500
Computerized on-line access to title, tax, and real property information to title companies and lending institutions.

TRW Automotive Group
1900 Richmond Road
Cleveland, Ohio 44124
(216) 291-7000

TRW Steering Components Group
1900 Richmond Road
Cleveland, Ohio 44124
(216) 291-7000

Steering & Suspension Division
34201 Van Dyke Avenue
Sterling Heights, Michigan 48077
(313) 977-1000
Steering linkage, suspension ball joints and assemblies, manual and power rack and pinion steering gears.

TRW Engine & General Components Group
1900 Richmond Road
Cleveland, Ohio 44124
(216) 291-7000

Valve Division
1455 East 185th Street
Cleveland, Ohio 44110
(216) 383-2121
Engine valves, valve seat inserts, valve retainers, valve retainer locks, valve rotating mechanisms, and forged pistons.

TRW Controls & Fasteners Group
1900 Richmond Road
Cleveland, Ohio 44124
(216) 291-7000

TRW Automotive Aftermarket Division
1900 Richmond Road
Cleveland, Ohio 44124

Areas of Work: Manufactures microwave, power and special-purpose electron tubes and devices for defense and communications; analytical instruments for science and industry; wafer-fabrication equipment for the semiconductor industry; radiation equipment for cancer therapy; vacuum equipment and leak detectors for industrial and scientific processes.

Divisions and Subsidiaries:

Electron Device Group

Microwave Tube Division
611 Hansen Way
Palo Alto, California 94303
(415) 493-4000
Klystrons, traveling-wave tubes, gyrotrons.

Image Tube Division
601 California Avenue
Palo Alto, California 94304
(415) 493-1800
Night vision devices and microchannel plates.

EIMAC Division
301 Industrial Way
San Carlos, California 94070
(415) 592-1221
1678 S. Pioneer Road
Salt Lake City, Utah 84104
(801) 972-5000
Power grid tubes, and X-ray tubes.

Solid State Microwave Division
3251 Olcott Street
Santa Clara, California 95050
(408) 988-1331
Solid state oscillators and amplifers & YIG tuned devices.

Microwave Equipment Division
3200 Patrick Henry Drive
Santa Clara, California 95050
(408) 496-6273
Power amplifiers and power supplies, microwave components, electromagnets.

Beverly Microwave Division
8 Salem Road
Beverly, Massachusetts
(617) 922-6000
Magnetrons, cross-field amplifiers, modulators, solid state, microwave components, ring-loop traveling-wave tubes, radar subsystems and receiver protectors.

Canada Microwave Division
45 River Road
Georgetown, Ontario L7G 2J4 Canada
Klystrons, traveling and millimeter-wave tubes, power supplies.

III-V Device Center
Santa Clara, California
Gallium arsenide and indium phosphide devices and integrated circuits.

Continental Electronics Division
Dallas, Texas
High-power radio transmitters.

Thorn EMI-Varian Ltd. (affiliate)
248 Blythe Road
Hayes UB3 1HR England
Microwave tubes.

Instrument Group

Analytichem International, Inc.
24201 Frampton Avenue
Harbor City, California 90710
(213) 539-6490
Sample preparation products.

Palo Alto Instrument Division
611 Hansen Way
Palo Alto, California 94303
(415) 493-4000
Nuclear magnetic resonance (NMR) spectrometers.

Walnut Creek Instrument Division
2700 Mitchell Drive
Walnut Creek, California 94587
(415) 939-2400
Gas and liquid chromatographs, data systems, laboratory information management systems.

Varian Techtron Pty. Ltd.
679 Springvale Road
Mulgrave, Victoria 3170
Melbourne, Australia
Atomic absorption and UV-Vis spectrophotometers.

Medical & Industrial Products Group

Radiation Division
611 Hansen Way
Palo Alto, California 94303
(415) 493-4000
Medical and radiographic linear accelerators, electronic radiography imaging systems.

Varian TEM, Limited
Gatwick Road
Crawley, West Sussex, England
Radiotherapy planning simulator.

Vacuum Systems Operation
3580 Bassett
Santa Clara, California 95054
(408) 986-9888
Memory disk sputtering system.

Vacuum Products Division
121 Hartwell Avenue
Lexington, Massachusetts 02173
(617) 861-7200

3100 Jay Street
Santa Clara, California 95051

Leak detectors; gauges; vacuum pumps, systems, and accessories.

TEL -Varian Ltd. (affiliate)
2381 Ohara, Kita Oejo Fugii-cho
Nirasaki City
Yamanashi, Japan
Ion implanters.

Semiconductor Equipment Group

Extrion Division
Blackburn Industrial Park
P.O. Box 1226
Gloucester, Massachusetts 01930
(617) 281-2000
Ion implantation equipment, rapid thermal processing equipment.

Thin Film Technology Division
611 Hansen Way
Palo Alto, California 94303
(415) 492-4000
Sputtering systems, molecular beam epitaxy systems, memory disc sputtering systems.

Special Metals Division
3515 Grove City Road
Grove City, Ohio 43123
(614) 875-7912
Special materials used in thin and thick film coating.

Fremont Division
Fremont, California
Chemical vapor deposition systems, dry etching systems.

Corporate Manufacturing

Tempe Electronics Center
Tempe, Arizona
Printed circuit board assembly.

Directors: Gary B. Rappaport, chairman; Henri M. Jacob, Edward E. Grossmann, Herbert Schelberg, Michael R. Sill, Frank D. Trestman.

Areas of Work: Through its wholly owned subsidiary, Napco International, Inc., the Company is a supplier of a wide variety of defense-related products to the U.S. government and to the governments of over 60 nations throughout the world.

Divisions:

Ordnance Division
Markets space and replacement parts for virtually every U.S.-made military wheeled and tracked vehicle.

Defense Electronics Division
Markets a broad range of electronic security and communications equipment, including a full spectrum of military radios and spare parts, and mobile support communications command posts.

Aerospace Division
Supports maintenance programs, and supplies spare parts and ground support equipment worldwide, for U.S.-manufactured planes and helicopters.

Special Products Division
Markets a wide range of weapons systems. Also markets the Napco RAIDER patrol boat and accessories for the M16 family of military rifles.

Tank Automotive Systems Division
Designs and markets modernization kits to improve the performance and increase the capabilities of a wide variety of U.S. military wheeled and tracked vehicles. Also supplies new trucks, vans and other wheeled and tracked vehicles for military, medical, industrial and construction applications.

Divisions and Subsidiaries:

Vernitron Controls Division
1601 Precision Park Lane
San Diego, California 92073
(619) 428-5581
Manufactures electro-mechanical servo components, including synchros, resolvers, limited angle D.C. torque motors, remote indicators, and electromechanical assemblies.

VERNITECH Division
300 Marcus Boulevard
Deer Park, New York 11729
(516) 586-5100
Manufactures instrument servo motors, hysteresis synchronous motors, optical, contact, and linear encoders, synchro conversion modules and systems, electromagnetic clutches and brakes, read-out indicators, potentiometers and pressure transducers.

Magnetic Technology Division
21001 Kittridge Street
Canoga Park, California 91303
(818) 887-7700
Direct drive DC motors, tachometers, and servos.

Vernitron Piezoelectric Division
232 Forbes Road
Bedford, Ohio 44146
(216) 232-8600
Manufactures and sells piezoelectric ceramic based products, including ceramic shapes, flatware and thin sheet materials for various industrial uses, and piezoelectric igniters, resonators and filters.

BEAU Products Division
P.O. Box 10
117 Union Avenue
Laconia, New Hampshire 03246
(603) 524-5101
Electrical connectors and barrier terminal strips.

Vernitron Corporation

AIE Electronic Division
701 Murfreesboro Road
Nashville, Tennessee 37210
(615) 244-9024
Manufactures transformers, inductors, electronic filters, magnetic components and subassemblies for industrial, telecommunications and data processing application.

AST/Servo Systems, Inc.
115 Main Road, Route 202
Montville, New Jersey 07045
(201) 335-1007
Sells and distributes electromechanical devices and ball bearings.

2448 Walnut Ridge Street
Dallas, Texas 75229
(214) 620-9004

20 Republic Road
North Billerica, Massachusetts 01862
(617) 667-8541

1708 South Lyon Street
Santa Ana, California 92705
(714) 543-8788

Vernitron Limited
Buraledon Road
Southampton SO9 5QF England
Manufactures piezoelectric materials and transducers, including gas igniters, electrical wave filters, ceramic and magnetic pickup cartridges, mica capacitors and electronic spark generators and controls for gas ignition.

VRN International Division
P.O. Box 4400
2801 72nd Street
St. Petersburg, Florida 33743
(813) 347-2181
Produces trimmer and precision potentiometers, switches, dials and resistive devices.

Lorch Electronics Corp.
105 Cedar Lane
Englewood, New Jersey 07631
(201) 569-8282
Manufactures active and passive RF and IF signal processing components.

Directors: Robert W. Johnson, chairman of the board; Joseph Bais, Donn B. Tatum, William C. May, Ryal R. Poppa, Robert C. Wilson, I.M. Booth, Andre R. Horn, Irwin Federman.

Areas of Work: Engaged in the design, development, manufacture and sale of certain types of semiconductor and board products. Utilizing silicon gate CMOS technology, develops a broad line of products and services which include over 100 semiconductor components and board level systems for use in the telecommunications, computer and industrial control markets.

Divisions:

Strategic Products Business Unit
Addresses the digital communications market with proprietary products for interface logic, protocol control, and secure communications.

Storage Products Business Unit
Manufactures file management devices for floppy, tape and hard discs.

Communications & Subsystems Business Unit
Manufactures after-market retail products.

Subsidiaries:

Western Digital (Malaysia) SDN BHD
Kuala Lumpur, Malaysia
Assembles semiconductor devices.

Western Digital Ireland Ltd.
Dublin Hill, Cork, Ireland
Manufactures boards.

Western Digital Caribe, Inc.
Ponce/Mercedit, Puerto Rico
Manufactures boards.

Adaptive Data Systems, Inc.
Irvine, California
Manufactures a series of products in the high-performance small computer interface market.

Acquisitions:

Paradise Systems, Inc.
Brisbane, California
Designs and markets video controller boards and related integrated circuit devices.

ViaNetix, Inc.
Boulder, Colorado
Develops local area network system software.

Faraday Electronics, Inc.
Sunnyvale, California
Manufactures highly integrated chip sets that support the core logic functions of the microcomputer.

Stanley Wylde, v.p.-Southwestern region.

Directors: John C. Marous, chairman; Donald F. Hornig, Richard R. Pivirotto, David T. McLaughlin, Hays T. Watkins, Barbara H. Franklin, Robert W. Campbell, Rene C. McPherson, John B. Carter, Richard M. Morrow.

Areas of Work: The principal business activity of Westinghouse is the manufacture and sale of equipment for the generation, transmission, utilization and control of electricity. Included among the products of the Corporation are electrical and mechanical equipment required by power companies, railroads, city transit systems and industrial plants, propulsion and electrical equipment for the United States Navy and the marine industry, electrical and electronic systems, instrumentation and other equipment for the aerospace industry.

Westinghouse develops, designs and furnishes nuclear power plants, equipment and fuel for the generation of electricity.

Some Westinghouse products, such as motors and control devices, are used by other manufacturers as components for their products. The Corporation is an important manufacturer of military products for the United States Government.

Westinghouse supplies products to the construction industry and engages in conventional construction activities. It also is engaged in land development and sales.

Westinghouse Broadcasting Company owns and operates 13 radio stations, five television stations and a production company that produces syndicated television programs.

Westinghouse Learning Corporation offers various educational services and materials to schools; sells language instruction courses.

In leisure activities, Westinghouse subsidiaries bottle and distribute various soft drink brands; manufacture, assemble and sell wrist watches and other timepieces under the Longines-Wittnauer, LeCoultre and Jubilee trade names.

Westinghouse Credit Corporation engages in the extension of credit in transactions secured by real or personal property and in leasing transactions including leveraged leasing.

Westinghouse is engaged in the distribution outside the United States of electrical and other products, primarily those manufactured by Westinghouse. Such distribution is accomplished through a wholly owned subsidiary and through company representatives and independent distributors. The corporation also has a number of subsidiaries outside the United States, the majority of which are engaged in the manufacture and sale of electrical generation, transmission, utilization and control equipment, and consumer products.

Electronics & Related Divisions & Subsidiaries

Advanced Reactors Division
Waltz Mill, Pennsylvania
Development of advanced designs and concepts of commercial atomic power, including breeder reactors. Comprehensive services in chemical analyses and postirradiation analyses and examination of nuclear fuel and reactor components.

Aerospace and Electronic Systems/Systems Development Div.
Baltimore, Maryland
Producer of airborne and surface-based radars, communications, command and control, and related electronic systems. Aerospace activities include development and production of sophisticated avionics systems. These include advanced airborne ECM systems, weapon delivery systems, electro-optical systems for reconnaissance and remote sensing, and airborne surveillance radar for airborne early warning and control. Surface-based activities include tactical and shipboard radars, range instrumentation systems, strategic defense systems, and air traffic control systems. Military command and control systems, tactical and strategic communications, displays and computer systems.

Aerospace Electrical Division
Lima, Ohio
Electric power systems, generators, motors, control apparatus, power conditioning and conversion equipment, and support equipment for military and commercial aircraft, missiles, spacecraft, undersea and ground vehicles.

Astronuclear Laboratory
Large, Pennsylvania
Nuclear, power-reactor and isotope for space, terrestrial, undersea, and other advanced applications; high temperature materials development, and testing and application, thermo-electric environmental control systems, Silicon Carbide devices, non-destructive test equipment, high temperature thermocouples.

Bryant Division
Bridgeport, Connecticut
Wiring devices; switches, receptables, wall plates, plugs, connectors, lampholders and starters; outdoor fixtures for reflector backed lamps and photo electric controls; circuit breakers and load centers; ground fault protectors and multimetering; electric heating; baseboard, ceiling cable, unit heaters, duct heaters, strip heaters, wall heaters.

Computer and Instrumentation and Industry Systems Divisions
Pittsburgh, Pennsylvania
Complete digital, analog and combined process control systems and related services for application in the following areas: Automotive, Adaptive Control; Batch Blending; By-Products; Chemical; Cement; Communications; Data Acquisition, Collection and Processing; Dispatching and Distribution; Display; Electronic Component Testing; Environmental Measurements; Fluid Flow, Pressure, Temperature and Level; Gas Distribution; Glass; Heating and Air Conditioning; Machine Tool-Direct Numerical; Marine; Metallurgical; Mining; Ore Processing; Oxygen Monitoring and Control; Petrochemical; pH and Conductivity; Plastics, Pollution; Power Generation, Transmission and Distribution; Process Industries; Pulp and Paper; Refineries; Rubber, Security; Scientific; Security and Environmental; Steel; Supervisory; Systems Field Engineering; Customer Training; Traffic; Warehousing and Inventory; Water and Waste Treatment.

Control Products Division
Beaver, Pennsylvania
Control for motors; starters, contactors, relays, pushbuttons; safety switches and enclosed breakers. Numalogic Solid State Control.

Distribution Apparatus Division
Bloomington, Indiana
Capacitors; lighting arresters; fuse cutouts; surge protection devices; reclosers; vacuum circuit breakers; air loadbreak switches; oil switches; T-Tap switches, linetraps; potential devices.

Electric Distribution Laboratory
Coral Springs, Florida
Constant testing and evaluation conducted under actual living environmental conditions with variables introduced by the resident population, weather, etc., encompasses 70 homes and apartments in a new city subdivision permitting use of the latest technology in electric power distribution without traditional hindrance from normal constraints such as codes and legal requirements.

Electromechanical Division
Cheswick, Pennsylvania
Main coolant pumps, valves, control rod drive mechanisms, and other specialized apparatus for nuclear reactors; pumps for controlled circulation boilers.

Electronic Systems Support Division
Cockeysville, Maryland
Nuclear Instrumentation and Control Systems-military and commercial; Integrated Logistics Support Systems-technical training operations, supply support, maintenance planning, field integration and services, support equipment, technical data, facility planning; Electronic Protection Systems-for government and industry.

Westinghouse Elevator Company
Millburn, New Jersey
Manufacturing, sales, service, modernization and maintenance of elevators, escalators and walkways.

General Control Division
Buffalo, New York
Motor starters and controllers; special purpose control; control components; pilot devices; transfer switches.

Chicago, Illinois
Control centers and Type W Jr. group control.

Industry Equipment Division
Sykesville, Maryland
Electric arc welders; electronic beam welders; electrodes, accessories; brazing alloys; laser systems; power sources, induction heating equipment, ultrasonic devices for cleaning and processing equipment.

Industrial Systems Division
Buffalo, New York
Design and project management of large electrical drive systems and products for the industrial process and manufacturing systems and all the general industries. Component groupings include adjustable speed drives, crane drives, inverters, rectifiers, programmable controllers, numerical control and automatic material handling systems.

Industry Services Division
Pittsburgh, Pennsylvania

Apparatus Service Divisions
Pittsburgh, Pennsylvania
Sixty apparatus service plants and 75 engineering services locations strategically located domestically to service all industries around the clock. Modern facilities an engineering skills are available to maintain, repair and modernize mechanical and electrical equipment regardless of original manufacture. Also manufacturing and repair and engineering services are available at various locations throughout the world.

Westinghouse Instrument Service Co.
Atlanta, Georgia
Instrumentation and control capabilities include installation, calibration, commissioning, start-up, maintenance, instrumentation repair facilities.

Westinghouse Non-Current Renewal Parts & Special Prods. Plant
Pittsburgh, Pennsylvania
Manufacturer of specialty products including non-current apparatus and parts. Product lines include: A.C. and D.C. motors and gearmotors, transportation motors, industrial control, pushbuttons, knife switches, circuit breakers, pantographs, bolt heaters and carbon brushes.

Marine Division
Sunnyvale, California
Marine propulsion steam turbines and reducting gears; ship's service turbine generator sets; Nuclear components manufacture, electrical, mechanical and shock mitigation components for missile and rocket programs, missile launching and handling equipment, sub-sea oilwell equipment.

Meter Division
Raleigh, North Carolina
Watthour, demand, recording meters, sockets and accessories. Prime equipment for electric utility automated system analysis, planning, billing and environmental monitoring, and range timers.

Power Systems Planning
Advanced Systems Technology
Pittsburgh, Pennsylvania
Provides a large library of digital power system planning and analysis programs available through mail order consulting or via remote terminals. Operates Anacom analogue computer for transient analysis, mobile laboratories for field transient measurements, oscillography lab for field use, electromagnetic compatibility measurements. Contracts research and development services, from feasibility studies to project management and construction, for prototype systems in generation, transmission and distribution.

Relay-Instrument Division
Newark, New Jersey
Electrical measuring instruments of all types; protective relays and relaying systems; relay instrument switchboards; control and data systems.

Research Laboratories
Pittsburgh, Pennsylvania
Basic and applied research in chemistry, physics, mathematics, energy systems, solid state sciences, solid state devices, materials, materials processing, instrumentation, systems, communication, control electronics, power electronics, oceanography, and georesearch. Work done primarily in support of Westinghouse operating divisions, but also conducts contract research for the U.S. Government.

Semiconductor Division
Youngwood, Pennsylvania
Silicon rectifier diodes, silicon controlled rectifiers, silicon power transistors, silicon rectifier and controlled rectifier assemblies.

Specialty Transformer Division
Greenville, Pennsylvania
Cores: specialty transformer, Saturable core inductor, Navy dry type transformers; constant voltage and filtering transformers; load centers 30 kva and below.

Switchgear Division
East Pittsburgh, Pennsylvania
Assembled switchgear; high voltage fuses, network protectors; generator voltage regulators and automatic synchronizers; disconnect switches, substation structures, switchgear components, medium and low voltage air circuit breakers; control switches (type W); switchgear accessories; draw-out load interrupter switchgear.

Transformer Divisions

Large Power Transformer Division
Muncie, Indiana
Power transformers above 30,000 kva: liquid immersed shunt reactors above 10,000 kva, regulating and furnace transformers above 30,000 kva.

Medium Power Transformer Division
Sharon, Pennsylvania
Power transformers 10,001 to 60,000 kva; substation transformers 5,001 to 10,000 kva; grounding and rectifier transformers; dry type distribution transformers; dry type power center transformers 112-1/2 to 2500 kva; regulating and furnace transformers 30,000 kva and below; current and potential transformers; metering units.

Small Power Transformer Division
South Boston, Virginia
Liquid immersed (oil or Inertean) auto transformers, network transformers; pad-mounted transformers; substation transformers and underground transformers 501 to 5,000 kva, and power center (secondary unit substations) 112-1/2 to 2500 kva.

Overhead Distribution Transformer Division
Athens, Georgia
Overhead liquid immersed distribution transformers.

Underground Distribution Transformer Division
Jefferson City, Missouri
Underground distribution transformers and equipment.

Oceanic Division
Annapolis, Maryland
Surveillance; sonar detection; data handling and display; instrumentation; oceanographic systems and equipment; flow meters; life support equipment; underwater systems equipment and associated support items; torpedoes; advanced weapons; mine, weapon and CW countermeasures.

Westinghouse Tele-Computer Systems Corporation
Pittsburgh, Pennsylvania
A wide range of user-oriented problem-solving services involving both manual and computer-based information systems. Computing services, consulting services, data processing services, software services, tele-communications services; warehouse information systems.

Compagnie des Dispositifs Semiconducteurs
Westinghouse S.A.
B.P. 107
Avenue George-Durand
72 Le Mans, France
Assemblies, silicon rectifier and controlled rectifier; battery chargers, battery charging control; bridges, silicon rectifier and controlled rectifier; power supplies, and battery chargers, rectifier assemblies; rectifier diodes, silicon; semiconductors; silicon controlled rectifiers; silicon rectifiers.

Fumbisa Westinghouse de Puerto Rico, Inc.
Luquillo, Puerto Rico
Power fuses.

Industrias, S.A.
Osasco, S.P., Brasil
Circuit breakers; enclosed circuit breakers; power centers; reactors; substations, CSP, transformers, distribution; transformers, power.

Marinsi and Aminelli S.A.
Sao Paulo, Brazil
Disconnect switches; automated circuit breakers; push buttons; minimum oil circuit breakers; power fuses; bus duct; outdoor disconnect switches; switchboard and cubicles.

Semiconductors Westinghouse, Inc.
Guraho, Puerto Rico
Medium and high power thyristors, rectifiers and bridge assemblies.

Servicios Industriales Westinghouse
Una Division de Venwesa
Apartado 542
Zona Industrial
Maracaibo, Venezuela
Room air conditioners; circuit breakers; control centers; group control; motor controls; power, regulating, synchronizing systems; freezers; fuses, power; motors; network protectors; network protector relays; panelboards; power centers; power centers for construction applications; refrigerators, domestic; regulators; relators, feeder voltage; repair service; static exciters; substation structures; substations; switchboards; switches; switchgear, accessories switchgear, assembled; synchronizers, generator; transformers, distribution; power transformers; turbine supervisory instrumentation.

Standard-Weygand, Ltd.
P.O. Box 13 Miowera Road
Willawood, N.S.W., 2163, Australia
Electrical adjustable speed drives, hi-torque assemblies, silicon rectifier and controlled rectifier, bus duct; circuit breakers; control centers, control, crane and defense; control, general mill; control, group; control, machine tool; control, materials handling; control, metal mill; control, numerical; control systems, electrical; drives, adjustable speed, electrical; induction heating equipment; installation supervision, electrical apparatus; instructional services; inverters; staticlarge dc motors; network protectors; network protector relays; numerical control; panelboards; power centers; power supplies, dc and battery chargers; reactors; rectifier assemblies; rectifier equipment, power, regulated systems; regulators, feeder voltage; service, electric (field engineering); substation, CSP; switchboards; switchgear; systems, industrial; transformers, self-contained power, unit substations.

Transformadores Westinghouse, Inc.
P.O. Box 127
Road 30, K.M.6.0.Barrio Rincon
Gurabo 00658 Puerto Rico
Transformers for general purpose applications.

Tubos Electronicos Westinghouse, Inc.
P.O. Box 127
Road 30, M.6.0.Barrio Rincon
Gurabo 00658 Puerto Rico
Electronic tubes.

Tyree Industries, Ltd.
P.O. Box 315
Liverpool, N.S.W. 2170, Australia
Capacitors; line traps; carrier; potential devices, capacitors; reactors; power transformers; distribution transformers; instrument transformers.

Westinghouse Breakers, Inc.
Puerto Rico
Manufacture and assembly of circuit breakers.

Westinghouse Canada Limited
286 Sanford Avenue North
P.O. Box 510
Hamilton, Ontario, Canada
Adjustable speed drives-electrical; adjustable speed drives-mechanical, air cleaning units; air conditioners; central air conditioning; air handling lighting fixtures; air handling units; airport lighting regulators (solid state); lightning arresters; audio tone relaying systems; automatic dispatching control; automatic transfer switches; ballasts, lighting; buses, lightbulb and electron tube; battery charging control; blowers; bus duct; bus, high voltage; capacitors; carrier relaying systems; circuit breakers; circuit breakers, molded case, insulated; circuit breakers, vacuum; commercial lighting; computerized metering systems; computer, digital; conductors, copper and aluminum; contactors, ac and dc; control centers; control components; control components, ac; control components, ac and dc; control, crane and defense; control devices; control, general mill; control, group; control, machine tool; control, materials handling; control, metal mill; control numerical; control, special purpose; control, standard; control systems, electrical; control systems, chemical properties; control systems, electrical; control systems, chemical properties; control systems, combustion, flow and level, pressure and differential pressure, temperature-temperature difference; controls for meters; controls, supervisory and telemetering; cores for transformers; cutouts, fuse; dehumidifiers, residential; direct current HV transmission equipment systems; dishwashers; displays, CRT alphanumeric and graphical (WAND) drives; drum controllers; dry cleaners, commercial dryers electric and gas; duct heaters, gas and electric; Duriet (copperclad); electric stairways; electric space heaters, baseboard heaters; electric walks; electric tubes; electrostatic air filters; Precipitron, elevators, electric geared and gearless, hydraulic; enclosed circuit breakers; energy storage equipment; environmental data systems; fans; filaments, tungsten, fluorescent lamps; food waste disposers; freezers, fuses and fuse links; fuses power; gas turbines, land; gear units; gearmotors; gears, railway; ground fault protectors; heaters, electric; heaters, portable; housewares, electric; blenders, blenders; can openers, coffee makers, knives, food mixers, fry pans, hair stylers, irons, kettles, toasters, cosmetic; hydraulic products; industrial lighting; infra-red heaters, electric; installation supervision, electrical apparatus; instructional services; instrument auxiliary equipment; instruments, analog; integrated circuits; interlocks, inverters, static; lamps; Laundromat automatic washers; lead-in wires, lamp and electronic tube; lighting, outdoor fluorescent, incandescent, mercury vapor, quartz, sodium; lighting fixtures; lighting, interior lighting, specialty interior; lights, indicating control; line tracing electronic systems (Linetrol); line traps, carrier, liquid dielectrics, oil and Interteen; load centers, circuit breaker; mercury lighting; metals; Hi-purity single crystal; motor accessories; watthour, meters, demand; meters, mine-hoists friction treads. Wenceflex; mine-hoists (Select-A-Level); molybdenum-wire, rod, powder; motor starters and controllers; motors, ac integral hp, thru frame 449T; multimetering; network protectors; network protector relays; numerical control; panel instruments; panelboards; phonographs; photo-electric controls, pilot devices; pilot wire relaying systems; portable instruments; potential devices,

Mailing address:
P.O.Box 29709
Dallas, Texas 75229

Officers: Lee D. Webster, chairman of the board and president; Carl R. Anderson, v.p. & treasurer; George Siever, Jr., secretary.

Directors: Lee D. Webster, chairman; Robert B. Gilmore, John A. Crichton, J. L. Huffines, Jr., John H. Wilson, III.

Areas of Work: Divided into three groups: Earth Sciences, Aerospace, and Electronic Components. The Earth Sciences Group manufactures and sells underwater sensing systems used for offshore geophysical surveys and naval surveillances. The Aerospace Group rebuilds and modifies aircraft airframes and electronic systems. The Electronic Components Group manufactures and markets frequency controlling quartz crystals.

Divisions and Subsidiaries:

Crystek Crystals Corporation
1000 Crystal Drive
Fort Myers, Florida 33901
(813) 936-2100
Manufacture and distribution of frequency-controlling quartz crystals.

Seismic Engineering Company
2659 Nova Drive
Dallas, Texas 75229
(214) 241-7581
Design and manufacture of marine acoustic sensor systems for commercial geophysical applications.

Rogers Explorations, Inc.
2659 Nova Drive
Dallas, Texas 75229
(214) 247-7072
Land geophysical exploration services.

Hydroscience, Inc.
2659 Nova Drive
Dallas, Texas 75229
(214) 247-9052
Adaptation of commercial system technology to the specific underwater threat detection requirements of the U.S. Navy.

* Member of the Executive Committee

Areas of Work: Manufactures and distributes products in two principal fields: technology and chemicals. The technology segment includes the production of aircraft fluid controls, radar and digital system simulators, electronic countermeasures equipment, defense-related command, control and communications systems, military troposcatter communications equipment, high-energy density batteries, pyrotechnics, propellants and aluminum engine parts, as well as the manufacture of biomedical products. The chemical segment involves principally the manufacture of industrial coatings, plastics, adhesives, heat-treating compounds and other specialty chemical products.

Divisions and Subsidiaries:

Whittaker M.A. Bioproducts
Building 100
Biggs Ford Road
Walkersville, Maryland 21793
(301) 898-7025
Produces materials and equipment used in the diagnosis of viral diseases, and other areas of biomedical research.

Elsin Corporation
3080 Oakmead Village Drive
Santa Clara, California 95051
(408) 748-9900

Electronic Resources Division
100 East Tujunga Avenue
Burbank, California 91502
(818) 843-5770
High temperature coaxial cables; electronic components and subsystems; mechanical and electronic counters.

Tasker Systems Division
1785 Voyager Avenue
Simi Valley, California 93063
(805) 584-8200
Air traffic control systems; antenna tracking devices; radar simulators; radar tracking devices; tactical radar jammers; electronic components and subsystems.

Yardney Battery Division
82 Mechanic Street
Pawcatuck, Connecticut 06379
(203) 599-1100
High-energy density batteries; high-intensity portable lights; battery chargers and control systems; marine emergency beacons; irrigation system filters.

Whittaker Controls, Inc.
12838 Saticoy Street
North Hollywood, California 91605
(818) 765-8160
Valves, actuators and pumps for aircraft hydraulic, pneumatic and fuel systems; electronic proximity switches.

Command, Control & Communications Corporation
23670 Hawthorne Boulevard
Torrance, California 90505
(213) 373-9651
Produces computerized electronic integrators which link together the various intelligence systems of the military to achieve overall pictures of battlezones.

Winters Industries Division
4125 Mahoning Road, N.E.
Canton, Ohio 44705
(216) 456-4321
Manufactures highly engineered automotive engine components such as 'tuned port' air intake manifolds.

Holex, Inc.
2751 San Juan Road
Hollister, California 95023
(408) 637-5851

Power Sources Division
3850 Olive Street
Denver, Colorado 80207
(303) 388-4836

Water Management Products Division
6666 Box Springs Boulevard
Riverside, California 92507
(714) 656-6716

REL, Inc.
3900 South Congress Avenue
Boynton Beach, Florida 33435
(305) 732-0300
Manufactures radar simulators used in pilot training, and electronic devices used in military aircraft, as well as 'troposcatter' radio systems, which bounce radio signals off the upper atmosphere from one ground station to another, enabling communication over distances and difficult terrain.

Lee Telecommunications Corporation
Farmington, Arkansas 72730
(501) 846-2032

Wickes Companies, Inc.

3340 Ocean Park Boulevard
P.O. Box 4056
Santa Monica, California 90405
(213) 452-0161

Officers: Sanford C. Sigoloff, chairman of the board, president & chief exec. officer; Wilhelm A. Mallory, sr. exec. v.p. & chief financial officer; Lawrence P. Friedman, sr. v.p.-human resources; Seymour Strasberg, sr. v.p.-strategic planning; Ronald D. Strongwater, sr. v.p.-real estate; James M. Van Tatenhove, sr. v.p.-administration; James N. Castleberry, v.p.-controls evaluation and compliance; Michael S. Sitrick, sr. v.p.-communications; Michael Jamieson, v.p. & controller; Ervin J. Bolka, v.p. & treasurer; Alvin G. Segel, sr. v.p., general counsel & secretary; Raymond J. Byrne, v.p.; Robert S. Fenton, v.p.-tax; Bill J. Mann, v.p.-data services.

Directors: Sanford C. Sigoloff, chairman; Rita E. Hauser, Ellsworth L. Johnson, Preston Si'baugh, Wilhelm Mallory, Sanford Kaplan, Peter Sweet, Edmund M. Kaufman.

Areas of Work: The Wickes Manufacturing division produces diesel and gasoline pistons, electrical and electronic components, bumpers, aluminum castings, extrusions and tubing, stampings, mechanical components (shifters and parking brakes), window regulators, convertible tops and power units, electro-mechanical actuators, and wire formed assemblies for the automotive industry. It also manufactures electronic connectors for the electrical and electronic markets, electrical wire and cable, and proprietary commercial refrigeration and airconditioning systems for the construction market. In addition, Wickes Manufacturing division makes safety hardware and systems for military air crewmen and thermo processes specialty metals for aircraft and missile components. The Wickes Engineering division manufactures aircraft arresting gear, prototype and production parts for aircraft jet engines and replacement turbine blades for electrical generators.

In the retail area, the Company operates, Builders Emporium home improvement centers; Wickes Furniture home furnishings warehouse showrooms; and Orchard Supply Hardware stores. Manufacturing operations other than electronic are conducted by Collins & Aikman, which manufactures upholstery, carpet, specialty textiles and yarns, wallcoverings, and warp knit fabrics.

Other business activities include WCI Financial Corp. which purchases and finances accounts receivable generated by the retailing group; Western Diversified Services which offers insurance to individuals and companies, and the distribution of automotive parts through A.P.S., Inc., Vera Imported Parts Corporation, and Guaranteed Parts/Sorensen.

Directors: Frank S. Wyle*, Lawrence E. Irell, Stanley A. Wainer*, John R. Herring*, Raymond J. Raff, James J. McMorrow*, Edward Sanders, F. Stephen Wyle, Theodore M. Freedman*, Charles M. Clough*, John B. Farrell, Jack S. Kilby.

* Member of the Executive Committee

Areas of Work: Industrial distribution of electronic components and systems including sales, service, and finance functions; research, engineering, and testing services to the energy, aerospace/defense, acoustics, and transportation industries; manufactures electronic enclosures and electrical cables.

Divisions and Subsidiaries:

Scientific Services & Systems Group

Huntsville Facility
7800 Governors Drive, West
P.O. Box 1008
Huntsville, Alabama 35807
(205) 837-4411
Refurbishment, functional testing, and certification of safety valves, snubbers, etc., for nuclear power plants; seismic shock testing of very large nuclear power plant equipment, functional testing of radioactive components; boating safety, simulator design; rocket and spacecraft testing.

Hampton Facility
3200 Magruder Boulevard
Hampton, Virginia 23666
(804) 838-5000
Design, assembly, programming, and operation of computer-based data systems; instrument calibration and maintenance.

Norco Facility
1841 Hillside Avenue
Norco, California 91760
(714) 737-0781
Full scale testing of large nuclear power plant safety systems, valves, flowmeters, etc.; high-force seismic testing and analysis; hazardous testing, encompassing cryogenics, fuels, solid rockets, and ordnance.

Foundation Mechanics, Inc.
128 Maryland Street
El Segundo, California 90245
(213) 678-4251
Production of equipment for highway and airfield pavement and subgrade analysis.

El Segundo Facility
128 Maryland Street
El Segundo, California 90245
(213) 678-4251
Aerospace testing, with emphasis on high flow and/or high pressure pneumatics and on shock and vibration.

Applied Research, Inc.
Houston, Texas
El Segundo & Santa Clara, California
Colorado Springs, Colorado
Provides engineering and management services to the aerospace/defense market.

Research Staffs:
Consulting services and contract research in the physical sciences, specializing in acoustics; aerospace and seismic studies.

Electronics Marketing Group

Headquarters:
Irvine, California

Divisions:

Dallas, Austin & Houston, Texas
Denver, Colorado
Portland, Oregon
Salt Lake City, Utah
Seattle, Washington
Phoenix, Arizona
Irvine, California
San Diego, California
Sacramento, California
Santa Clara, California
Garden Grove, California
Los Angeles, California
Huntington Beach, California

Industrial Manufacturing Group

Burton Electrical Engineering
111 Maryland Street
El Segundo, California 90245
Design and manufacture of electrical ground support systems for aircraft, electrical cable systems for the oil well industry, and other kinds of electrical systems.

Electronic Enclosures:

225 South Aviation Boulevard
El Segundo, California 90245
(213) 679-0181

6995 Airport Highway
Pennsauken, New Jersey 08109
(609) 665-6810
Supplies sophisticated TEMPREST RFI shielded cabinets which are used to secure military communications.

Wyle Distribution Group

Wyle Distribution/El Segundo
124 Maryland Street
El Segundo, California 90245
(213) 322-8100
Industrial distribution of electronic components.

Wyle Distribution/Santa Clara
3000 Bowers Avenue
Santa Clara, California 95051
(408) 727-2500
Industrial distribution of electronic components.

Wyle Distribution/Denver
Denver, Colorado

6777 East 50th Street
Commerce City, Colorado 80022
(303) 287-9611
Industrial distribution of electronic components.

Wyle Distribution/San Diego
9525 Chesapeake Drive
San Diego, California 92123
(714) 565-9171
Industrial distribution of electronic components.

Wyle Distribution/Phoenix
8155 North 24th Avenue
Phoenix, Arizona 85201
(602) 249-2232
Industrial distribution of electronic components.

Wyle Distribution/Orange County
17981 Skypark Circle
Irvine, California 92714
(714) 751-9850

Wyle Data Services, Inc.
15302 Bolsa Chica
Huntington Beach, California 92642
(213) 598-9555
Development and support of on-line computer services and software.

Areas of Work: The company is principally in the business equipment and financial services businesses. Within the business equipment segment, the reprographics business consists of the development, manufacture, marketing and maintenance of xerographic copiers and duplicators. It also includes the manufacture and/or marketing of related paper and other supplies. Within the business equipment segment, the information systems business consists of the development, manufacture, marketing and maintenance of electronic, impact and electrostatic printers, information processing products, personal computers, office systems products, electronic typewriters, facsimile transceivers, and the manufacture and/or marketing of related paper and supplies. The principal market for business equipment products is business and government offices. The primary method of marketing such products is through the Company's sales force. Another, smaller segment includes computer-related products and services.

Areas of Work: Zenith is engaged predominantly in the design, development, manufacture and sale of consumer electronics and related products. These products include: color and black and white television, video cassette recorders, parts and accessories, cable television products, microcomputers and related peripheral equipment and software, power supplies, display devices and subsystems and color television picture tubes. Other products include high-technology components which are sold to original equipment manufacturers. The Heath Company, a wholly-owned subsidiary, produces and markets consumer electronics products in kit and assembled form through mail order distribution and 66 retail store operations in the United States and Canada. Zenith Data Systems Corporation, a wholly-owned subsidiary, sells micro-computers, related peripheral equipment and software directly to major corporations, educational institutions and the government, as well as through retail computer stores.

Zygo Corporation

Laurel Brook Road
Middlefield, Connecticut 06455
(203) 347-8506

Officers: Paul F. Forman, chairman of the board, chief exec. officer & treasurer; Richard T. Fedor, president & chief operating officer; Carl A. Zanoni, v.p.-engineering; Sol F. Laufer, v.p.-optics group; James R. Downey, Jr., v.p.-finance & administration; Thomas O. Hagerth, v.p.-marketing; J. Frederick Shotkin, secretary; Winfield L. Guilmette, v.p.-instrument manufacturing.

Directors: Paul F. Forman, chairman; Carl A. Zanoni, Fujio Mitarai, Burton S. Sonenstein, Takashi Kojima, Robert G. McKelvey, Harold N. Cotton, Richard T. Fedor.

Areas of Work: The company designs, develops, manufactures and markets high-performance, laser-based, non-contact electro-optical components to extremely precise tolerances both for sale and for use as key elements in its own products. The company's instruments and systems are used to enhance productivity and improve product quality in a variety of industrial, scientific, and aerospace applications. The company is a worldwide producer of general purpose laser interferometers, microprocessor-based interferometer data analyzers, and related accessories which measure optical elements and systems, and precision manufactured components. The company also produces laser telemetric systems, which use scanning laser beams and microprocessor-based signal processors to make precision dimensional measurements.
